Juan Martin explains and demonstrates the essential techniques and rhythmic forms of Flamenco guitar playing in six progressive lessons, designed for all players from beginning to advanced. The lessons show you in detail many varieties of the basic rhythms which form the foundation of flamenco guitar styles. They also give a wealth of traditional and modern flamenco solos, accurately transcribed into music notation and easy-to-follow 'cifra' tabulature, all presented in a video (2 DVD's) series of six lessons. In this way you learn not only how to play but also what to play, as the lessons build into a substantial repertoire of flamenco music.

!! 55% OFF FOR BOOKSTORES !! Did you know that air fryers require you to use less oil to cook food than deep fryers? Were you aware of the fact that air fryers cook food with lower fat content and thus help decrease calorie consumption? Air fryers can encourage weight loss due to the way in which foods are cooked. Compared to deep-frying, utilizing an air fryer may minimize the use of dietary acrylamide, a chemical which is associated with some forms of cancer. Air-fried foods are comparatively lower than deep-fried foods in calories, fat, and acrylamide, which makes consuming such foods healthier. Air fryers have witnessed a surge in popularity because of an increase in health awareness among people. Air fryers facilitate healthy lifestyles because they help "fry" food without having the harmful health effects that ensue when foods are fried in oil. You can also cook many foods in an air fryer, including chicken, fries, pastries, or fish. Moreover, if you are cooking rice, you will need little or no oil at all. This book is helpful for anyone who is concerned about his or her health and wants to live a longer life. If this describes you, then get your copy today and enjoy eating food that will help you lead an active and healthy life!

Rethinking a key epoch in East Asian history, Hyun Ok Park formulates a new understanding of early-twentieth-century Manchuria. Most studies of the history of modern Manchuria examine the turbulent relations of the Chinese state and imperialist Japan in political, military, and economic terms. Park presents a compelling analysis of the constitutive effects of capitalist expansion on the social practices of Korean migrants in the region. Drawing on a rich archive of Korean, Japanese, and Chinese sources, Park describes how Koreans negotiated the contradictory demands of national and colonial powers. She demonstrates that the dynamics of global capitalism led the Chinese and Japanese to pursue capitalist expansion while competing for sovereignty. Decentering the nation-state as the primary analytic rubric, her emphasis on the role of global capitalism is a major innovation for understanding nationalism, colonialism, and their immanent links in social space. Through a regional and temporal comparison of Manchuria from the late nineteenth century until 1945, Park details how national and colonial powers enacted their claims to sovereignty through the regulation of access to land, work, and loans. She shows that among Korean migrants, the complex connections among Chinese laws, Japanese colonial policies, and Korean social practices gave rise to a form of nationalism in tension with global revolution—a nationalism that laid the foundation for what came to be regarded as North Korea's isolationist politics.

This book offers fresh insights into the contemporary state of Ecumenism. Following the election of Pope Francis, there has been a significant thaw in ecumenical relations, and there are grounds for thinking that this will continue into the future. The twelve chapters, written both by experienced ecumenical theologians as well as younger scholars, that have been gathered together in this collection, offer one of the first detailed assessments of the impact of Francis' papacy on ecumenical dialogue. Drawing on ecumenical methodology, as well as many practical examples and illustrations, the authors discuss the developments in culture and missiology as these affect the practice of ecumenism, particularly in response to theologies of hope as well as inter-religious dialogue and pluralism. What emerges is a clear sense of hope for the future in a rapidly changing world and even a sense of optimism that real ecumenical progress might be made.

Latvia has embarked on an ambitious agenda to tackle the challenges posed by complex types of criminality to public prosecution services, with particular emphasis on economic and financial crimes. This report carries out a benchmark analysis of Latvia's prosecution practices along with those in ten OECD member countries, international good practices and the experience of globally renowned prosecution experts. It takes stock of the good practices implemented in the prosecution to date, and examines the importance of a broad range of policy aspects that can drive better performance. These include strategic management tools, the use of data and strengthening co-operation across the whole of the justice chain. Finally, it formulates policy recommendations to support Latvia in strengthening the performance of its prosecution services.

The Mystery of the Invisible Hand

Henry Spearman, the balding economics professor with a knack for solving crimes, returns in *The Mystery of the Invisible Hand*—a clever whodunit of campus intrigue, stolen art, and murder. Having just won the Nobel Prize, Spearman accepts an invitation to lecture at Monte Vista University. He arrives in the wake of a puzzling art heist with plans to teach a course on art and economics—only to be faced with the alleged suicide of womanizing artist-in-residence Tristan Wheeler. When it becomes clear that Wheeler had serious enemies and a murderer is in their midst, Henry Spearman is on the case. Was Wheeler killed by a jilted lover, a cuckolded husband, or a beleaguered assistant? Could there have been a connection between Wheeler's marketability and his death? From the Monte Vista campus in San Antonio to the halls of Sotheby's in New York, Spearman traces the connections between economics and the art world, finding his clues in monopolies and the Coase conjecture, auction theory, and the work of Adam Smith. What are the parallels between a firm's capital and an art museum's collection? What does the market say about art's authenticity versus its availability? And what is the mysterious "death effect" that lies at the heart of the case? Spearman must rely on his savviest economic insights to clear up this artful mystery and pin down a killer.

Hans Florine embodies the genius of "and"—collaborative and competitive, fast and safe, audacious and disciplined, visionary and quantitative. The themes that run through Florine's 101 ascents of Yosemite's most iconic route can benefit people who will never climb a rock, indeed anyone inspired by the idea of a passionate, lifelong quest of any type. —Jim Collins, author of *Good to Great*
Hans Florine is a big-wall climbing legend in his own time. He holds the speed record on the Nose route of El Capitan, a 3,000-foot granite cliff in Yosemite Valley that's considered the Everest of the rock-climbing world. Ascending the Nose takes most climbers anywhere from 12 to 96 hours. Florine, along with climbing partner Alex Honnold, does it in an astounding 2.5 hours. But Florine's story is not one of super-human athletic prowess; it's one of persistence and dogged determination. In 30 years of climbing, he's ascended the Nose a mind-blowing, death-defying 100 times, more than anyone else ever has, and most likely ever will. In *On the Nose*, Florine describes the most dangerous, pivotal, and inspirational of those climbs, providing a rare look inside the adrenaline-charged world of competitive climbing in Yosemite Valley. He tells of his very first attempt on the Nose, which ended in failure after 14 hours, his friendships (and rivalries) with climbing's most colorful personalities, and his battle with Dean Potter to secure the definitive speed record on the Nose—an endeavor that's been called the wildest competition known to man. Perhaps most interestingly, Florine attempts to answer the question why. Why would anyone undertake one of the greatest adventure epics on earth 100 times? His answers provide unique insights on how to live a satisfying life, how to achieve big goals, and how an otherwise ordinary guy can become a rock star.

A Comprehensive Cyclopaedia of Information for the Home, from 1887. "In presenting to the public the "WHITE HOUSE COOK BOOK," the publishers believe they can justly claim that it more fully represents the progress and present perfection of the culinary art than any previous work. In point of authorship, it stands preeminent. Hugo Ziemann was at one time caterer for that Prince Napoleon who was killed while fighting the Zulus in Africa. He was afterwards steward of the famous Hotel Splendide in Paris. Later he conducted the celebrated Brunswick Cafe in New York, and still later he gave to the Hotel Richelieu, in Chicago, a cuisine which won the applause of even the gourmets of foreign lands. It was here that he laid the famous "spread" to which the chiefs of the warring factions of the Republican Convention sat down in June, 1888, and from which they arose with asperities softened, differences harmonized and victory organized. Mrs. F.L. Gillette is no less proficient and capable, having made a life-long and thorough study of cookery and housekeeping, especially as adapted to the practical wants of average American homes."

But with awakened curiosity and heartfelt courage, he has no doubt at all: A country with such an incredible beautiful flag where the colors are creating enchanting music must be worth fighting for - even though no one knows the name of the country yet - and not everyone can hear the symphonies of the colors.
