This is the story of a girl growing up in the 1990s – a middle- schooler who finds herself lost in the gulf between childhood and adolescence, developing paralyzing fears of failure, school, other people, and her own changing body. Along the way, she becomes obsessed with the Beatles... which might be just what she needs to find her way back to being okay. Yeah yeah yeah!

This music reference contains biographical details of over 8000 composers, musicians, singers, arrangers, writers, conductors, soloists and managers. The revised appendices section includes listings of orchestras, opera companies, music libraries, music orgnizations and societies worldwide.

Gypsies have for centuries been simultaneously vilified and romanticized—associated with criminality and dirt, but at the same time with color, magic, and music. Gypsy music is popular around the world and often performed with gusto at major events, including at weddings in Bulgaria, jazz bars in Paris, and festivals in the United States. In Gypsy Music, Alan Ashton-Smith explores why this music has such wide appeal, surveying the varied styles that are considered to be gypsy music and asking what links them together. The book begins in the Balkans, home to the world’s largest Romani populations and a major site of gypsy music production. But just as the traditionally nomadic Roma have traveled globally, so has their music. Gypsy music styles have roots and associations outside of the Balkans, including Russian Romani guitar music, flamenco and gypsy jazz, and the more recent forms of gypsy punk and Balkan beats. Covering the thirteenth century to the present day, and with a geographical scope that ranges from rural Romania to New York by way of Budapest, Moscow, and Andalusia, Gypsy Music reveals the remarkable diversity of this exuberant art form.

This landmark historical text delivers the goods promised in its title. It does not address flamenco dance whatsoever, focusing instead on flamenco song forms with a special chapter devoted to the role of the guitar. Includes Spanish lyrics for dozens of flamenco songs along with English translations and interpretive notes, a glossary of flamenco terminology, plus a recommended bibliography and discography are also provided. Informal in its demeanor, this carefully researched, insightful book will help you develop a deeper appreciation for the flamboyant art of flamenco.

Le verità negate è un viaggio, affascinante e doloroso, all’interno della cultura di un popolo - quello dei rom/roma, sinti, calé/kale, manouches e romanichals - tra i più martoriati e i meno difesi nelle vicende che hanno avvicinato le minoranze ai temi dei diritti. Non si tratta di una semplice raccolta enciclopedica, ma di un dono prezioso in quanto permette un lavoro comparativo nei confronti dell’ultimo e più difficile pregiudizio su una popolazione dalla storia antichissima. Il lavoro di Spinelli risulta doppiamente interessante perché consente anche un grande approfondimento sul tema della conoscenza. Sappiamo, infatti, che senza conoscenza “l’altro da sé” si trasformerebbe facilmente in un pericolo: l'autore ci invita ad apprezzare l’enorme portato di positività, di arricchimento e di stimoli - culturali, sociali, economici, musicali e politici - che il mondo romanó ha al suo interno.

***Tony Allen is the autobiography of legendary Nigerian drummer Tony Allen, the rhythmic engine of Fela Kuti's Afrobeat. Conversational, inviting, and packed with telling anecdotes, Allen's memoir is based on hundreds of hours of interviews with the musician and scholar Michael E. Veal. It spans Allen's early years and career playing highlife music in Lagos; his fifteen years with Fela, from 1964 until 1979; his struggles to form his own bands in Nigeria; and his emigration to France. Allen embraced the drum set, rather than African handheld drums, early in his career, when drum kits were relatively rare in Africa. His story conveys a love of his craft along with the specifics of his practice. It also provides invaluable firsthand accounts of the explosive creativity in postcolonial African music, and the personal and artistic dynamics in Fela's Koola Lobitos and Africa 70, two of the greatest bands to ever play African music.***

Short Life Advice from the Best in the World

When she was a girl, Lisa See spent summers in the cool, dark recesses of her family`s antiques store in Los Angeles' Chinatown. There, her grandmother and great-aunt told her intriguing, colourful stories about their family`s past - stories of missionaries, concubines, tong wars, glamorous nightclubs, and the determined struggle to triumph over racist laws and discrimination. They spoke of how Lisa`s great-great-grandfather emigrated from his Chinese village to the United States, and how his son followed him. As an adult, See spent five years collecting the details of her family`s remarkable history. She interviewd nearly one hundred relatives and pored over documents at the National Archives, the immigration office, and in countless attics, basements, and closets for the intimate nuances of her ancestors` lives. The result is a vivid, sweeping family portriat that is att once particular and universal, telling the story not only of one family, but of the Chinese people in America - and of America itself, a country that both welcomes and reviles its immigrants like no other culture in the world.

The Shadow of the Shadow follows four men who meet to play dominos in a hotel bar in Mexico City in 1922. They are a motley group—a gun-toting poet who makes a living writing advertisements for patent medicine, a radical Chinese-Mexican union organizer, a lawyer who represents prostitutes, and a newspaper crime reporter who churns out pages of copy “like links of sausage in a chorizo factory.” Left to their own devices, the group would have waited out Carranza’s presidency in their own quietly besotted fashion, ignoring the betrayal of the Mexican Revolution. But they witness a series of strangely related murders and begin to suspect a conspiracy involving the oil-rich lands of the Gulf Coast, greedy army officers, and American industrialists. Critics have hailed The Shadow of the Shadow as the best of Paco Ignacio Taibo II’s historical novels. Issues of oil, American imperialism, extortion, and government corruption give the novel a distinctly contemporary ring.

How is the politics of Blackness figured in the flamenco dancing body? What does flamenco dance tell us about the construction of race in the Atlantic world? Sonidos Negros traces how, in the span between 1492 and 1933, the vanquished Moor became Black, and how this figure, enacted in terms of a minstrelzed Gitano, paradoxically came to represent Spain its which flamenco imagery turns dances on a knife's edge delineating Christian and non-Christian, White and Black worlds. This figure's subversive teetering undermines Spain's symbolic linkage of religion with race, a prime weapon of conquest. Flamenco's Sonidos Negros live in this precarious balance, amid the purposeful confusion and ruckus cloaking embodied resist has been lost, and the values and aspirations of those rendered imperceptible by enslavement and colonization.

In The Voice of the Coyote, J. Frank Dobie melds natural history with tales and lore in articulating the complex and often contentious relationship between coyotes and humans. Based on his own life experiences in Texas and twenty-five years of research, Dobie forges a sympathetic and nuanced picture of the coyote prefiguring later environmental and conservation movements. He recognizes the impact of human action on the coyote while also examining the prominent role of the coyote in the myths and legends of the West.

Engadina anni Settanta. Pablo Flores, un ragazzino figlio di immigrati italiani in Svizzera, scopre per caso il fascino irresistibile del tango nei sotterranei del Grand Hotel, dove conosce Maria, una ragazzina baciata dal genio del ballo argentino. Sarà lei, con il giovane e irruente suonatore di bandoneón Alejandro, a introdurre Pablo nelle magie e nella ritualità del tango. Da questo incontro iniziatico prende il via una storia incredibile che da un piccolo villaggio romagnolo ci porta nel Sud America e poi di nuovo in Svizzera. Quando il protagonista adolescente dovrà lasciare l'Engadina e i suoi amici argentini, l'incanto sembra andare in frantumi. Ma a questo punto salta fuori dalla memoria un altro suonatore di bandoneón: l'avventuriero Ermanno Guidi, nonno di Pablo. Il quale, nel tentativo ostinato di diventare un divo del tango, deciderà di mettersi sulle tracce di Ermanno e del suo bandoneón.

Longlisted for the National Book Award New York Times Bestseller A former Wall Street quant sounds an alarm on the mathematical models that pervade modern life -- and threaten to rip apart our social fabric We live in the age of the algorithm. Increasingly, the decisions that affect our lives--where we go to school, whether we get a loan by humans, but by mathematical models. In theory, this should lead to greater fairness: Everyone is judged according to the same rules, and bias is eliminated. But as Cathy O'Neil reveals in this urgent and necessary book, the opposite is true. The models being used today are opaque, unregulated, and uncontestable, even when they're wrong. can't get a loan because a lending model deems him too risky (by virtue of his zip code), he's then cut off from the kind of education that could pull him out of poverty, and a vicious spiral ensues. Models are propping up the lucky and punishing the downtrodden, creating a "toxic cocktail for democracy." Welcome to the dark side of Big Data: the models that shape our future, both as individuals and as a society. These "weapons of math destruction" score teachers and students, sort resumes, grant (or deny) loans, evaluate workers, target voters, set parole, and monitor our health. O'Neil calls on modelers to take more responsibility for their algorithms and on policy makers to monitor about the models that govern our lives. An entertaining and timely exploration of how our food—from where it's grown to how we buy it—is in the midst of a transformation, showing how this is our chance to do better, for us, for our children, and for our planet, from a global expert on consumer behavior. Our food system—how we produce, process, distribute, and consume—is getting better. Market researcher and bestselling author Paco Underhill sets out to solve these problems and show us where our eating and driving lives are headed in his newest book, *How We Eat*. Hailed by the *San Francisco Chronicle* as “a Sherlock Holmes for retailers,” Underhill takes an upbeat, hopeful, and characteristically witty approach to *How We Eat* reveals the future of food in surprising ways, like how the city is getting country-fied with the rise of farmer’s markets and rooftop farms; how supermarkets are on their way out with their most valuable real estate, their parking lot, for growing their own food and hosting community events; and how marijuana farmers, who have developed a playbook so mainstream merchants and farmers across the world can grow food in an uncertain future. Paco Underhill is the expert behind the most prominent brands, consumer habits, and market trends and the author of multiple highly acclaimed books, including *Why We Buy*. In *How We Eat*, he shows us how we face today, from political and environmental to economic and racial, and invites you to the market to discover more.
