activities - Supports co-teaching of AS and year one A-level for the new AQA specification

AQA Psychology for AS and A-level Year 1 is the definitive textbook for the new 2015 curriculum. Written by eminent psychologist Professor Michael Eysenck, in collaboration with a team of experienced A-level teachers and examiner, the book enables students not only to pass their exams with flying colours, but also to fully engage with the science of psychology. As well as covering the six core topics students will study, the book includes: Activities which test concepts or

hypotheses, bringing theory to life  
Key research studies explained and explored, showing the basis on which theory has developed  
Case studies which show how people's lives are affected by psychological phenomena  
Evaluation boxes which critically appraise key concepts and theories  
Self-assessment questions which encourage students to reflect on what they've learnt  
Section summaries to support the understanding of specific ideas – perfect for revision  
Exam hints which steer students towards complete and balanced answers  
Key terms defined throughout so students aren't confused by new
