

Roald Dahl's Marvellous Colouring Book Adventure (Colouring Books)

Boy and Going Solo is the whole of Roald Dahl's extraordinary autobiography in one volume. Roald Dahl wasn't always a writer. Once he was just a schoolboy. Have you ever wondered what he was like growing up? In BOY you'll find out why he and his friends took revenge on the beastly Mrs Pratchett who ran the sweet shop. He remembers what it was like taste-testing chocolate for Cadbury's and he even reveals how his nose was nearly sliced off. Then in GOING SOLO you'll read stories of whizzing through the air in a Tiger Moth Plane, encounters with hungry lions, and the terrible crash that led him to storytelling. Roald Dahl tells his story in his own words - and it's all TRUE. And now you can listen to all of Roald Dahl's novels for children on Roald Dahl Audiobooks read by some very famous voices, including Kate Winslet, David Walliams and Steven Fry - plus there are added squelchy soundeffects from Pinewood Studios! Also look out for new Roald Dahl apps in the App store and Google Play- including the disgusting TWIT OR MISS! and HOUSE OF TWITS inspired by the revolting Twits.

George Kranky created his own Marvellous Medicine to deal with his grizzly old grunion of a Grandma. You definitely can't do that at home (so don't even try!), but here's some amazing science that you can do! From concocting home-made slime to creating your own volcano, these fun experiments are all easily done, following simple step-by-step instructions and using everyday household objects. Inspired by Roald Dahl's terrific tale, this is the book for budding young scientists everywhere!

Most people know Roald Dahl as a famous writer of children's books and adult short stories, but few are aware of his fascination with medicine. Right from his earliest days to the end of his life, Dahl was intrigued by what doctors do, and why they do it. During his lifetime, he and his family suffered some terrible medical tragedies: Dahl nearly died when his fighter plane went down in World War II; his son had severe brain injury in an accident; and his daughter died of measles infection of the brain. But he also had some medical triumphs: he dragged himself back to health after the plane crash, despite a skull fracture, back injuries, and blindness; he was responsible for inventing a medical device (the Wade-Dahl-Till valve) to treat his son's hydrocephalus (water on the brain), and he taught his first wife Patricia to talk again after a devastating stroke. His medical interactions clearly influenced some of his writing - for example the explosive potions in *George's Marvellous Medicine*. And sometimes his writing impacted on events in his life - for example the research on neuroanatomy he did for his short story *William and Mary* later helped him design the valve for treating hydrocephalus. In this unique book, Professor Tom Solomon, who looked after Dahl towards the end of his life, examines Dahl's fascination with medicine. Taking examples from Dahl's life, and illustrated with excerpts from his writing, the book uses Dahl's medical interactions as a starting point to explore some extraordinary areas of medical science. Solomon is an award-winning science communicator, and he effortlessly explains the medical concepts underpinning the stories, in language that everyone can understand. The book is also peppered with anecdotes from Dahl's late night hospital discussions with Solomon, which give new insights into this remarkable man's thinking as his life came to an end.

These eighteen tales of the macabre show Dahl's dark brilliance as a short-story writer. They are wicked (as an old man attracts the attentions of those more interested in his skin than his wellbeing), shocking (as distasteful bets are made ? a daughter's hand on the identity of a glass of claret, a finger risked for a Cadillac) and blackly humorous (as a cuckolded husband receives a chance to take his revenge out on his wife's neck). Someone Like You is as devilishly ingenious and suspenseful as writing gets.

"The rule would be this: whatever George saw, if it was runny or powdery or gooey, in it went . . ." George Kranky's grandma is a grouch. She's always mean to George (and not much nicer to his parents either). One day, when George is put in charge of giving Grandma her medicine, he wonders if he can come up with his own remedy to try and help Grandma become less of a grump. Using some rather unusual ingredients, George creates his magic medicine*. But will it stop his grandma from being so horrible . . . or will it shoot sparks out of the top of her head?!

*WARNING: Do NOT try to make George's Marvellous Medicine yourselves at home. It is likely to be extremely

dangerous.

George decides that his grumpy, selfish old grandmother must be a witch and concocts some marvelous medicine to take care of her.

"Stunning. . . a bit like if you took Charlie and the Chocolate Factory and Monsters Inc. and shoved them in a TARDIS."—Buzzfeed It's a tentacled, inventive, gooey, world in there. . . . Elliot Von Doppler and his friend Leslie think nothing ever happens in Bickleburgh, except inside the gleaming headquarters of DENKi-3000—the world's eighth-largest electronics factory. Beneath the glass towers and glittering skywalks, there's a rambling old mansion from which all the company's amazing inventions spring forth. And no one except Uncle Archie knows what's behind the second-to-last door at the end of the hall. Until Elliot and Leslie are invited to take a glimpse inside. They find stooped, troll-like creatures with jutting jaws and broken teeth. Tiny winged things that sparkle as they fly. And huge, hulking, hairy nonhumans (with horns). It is unlike anything they've ever seen. But when Chuck Brickweather threatens to shut down the DENKi-3000 factory if a new product isn't presented soon, the creatures know they are in danger. And when Uncle Archie vanishes, it's up to Elliot, Leslie, and every one of the unusual, er, "employees" to create an invention so astonishing it will save the Creature Department.
