Lichtenstein explains: "It [the brushstroke] was the way of portraying this romantic and bravura symbol in its opposite style, classicism. The Brushstroke plays a big part in the history of art. Brushstroke almost means painting or art. Lichtenstein's fascination with the brushstroke throughout art history is explored in sections covering his work in collage, drawing, painting and sculpture. He is completely absorbed, oblivious to the camera, as he mounts ladders, assembles colors, composes, and steps back to consider the effect. During this period Lambrecht assisted in gathering material for a major retrospective at the Guggenheim Museum in New York. As a result, the photographs include scrapbooks and sketchbooks and other archival material that document Lichtenstein's entire career.
