Honor life's milestones and bring sacredness into everyday life. The Book of Blessings and Rituals shows you how to create ceremony and meaning around the most important events in your life. Drawing from different world traditions, leading metaphysical teacher Athena Perrakis presents blessings to cover a wide array of occasions and intentions, including holidays and sacred days, love, healing, protection, prosperity and success, lunar blessings and rituals, and manifestation. Organized by month, you'll be able to celebrate the sacred all year long. DIY projects and rituals will help you perform each blessing. You'll learn how to construct medicine bundles and altars, which crystals to use to amplify the rituals or clear energy, and how to smudge for clearing and protection. In addition, you'll learn how to use the power of invocations and blessings to set the energy of your home or event and to assist in amplifying goals and intentions. Deepen your experience of the sacred, find inspiration, and heal with this non-denominational guide to blessings and rituals.

The Fire Starter Sessions is an apathy-kicking, integrity-infusing guide to defining success on your own terms. Danielle LaPorte's straight-talk life-and-livelihood sermons have been read by over one million people. Bold but empathetic, in The Fire Starter Sessions she reframes popular self-help and success concepts, including: - Life balance is a myth, and the pursuit of it is causing us more stress than the craving for balance itself. - Being well-rounded is over-rated. When you focus on developing your true strengths, you enter your mastery zone. - Screw your principles (they might be holding you back). - We have ambition backwards. Getting clear on how you want to feel in your life + work is more important than setting goals. It's the most potent form of clarity that you can have, and it's what leads to true fulfillment.

Okonkwo is the greatest warrior alive, famous throughout West Africa. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. Chinua Achebe's stark novel reshaped both African and world literature. This arresting parable of a proud but powerless man witnessing the ruin of his people begins Achebe's landmark trilogy of works chronicling the fate of one African community, continued in Arrow of God and No Longer at Ease.

"A wondrous, sparkling fusion of wisdom and insight." - Patricia Santhuff What do the wonderful myths of ancient Greece, the beautiful stories in the Bible and Qur'an, and all the sacred stories from traditions around the world, have in common? They open our hearts to wonder, mystery, passion, and joy. I know, on the outside these stories seem very different, confusing, conflicting, and often violent and divisive. But when read symbolically and internally, they are all telling the same story. They show us the path of spiritual awakening and enlightenment. Sometimes the story is called "Returning to the Promised Land." Sometimes it's called "Seeking the Holy Grail." Sometimes it's called "Persephone's Return to Olympus." But whatever it's called, the inner meaning and purpose is always the same. The stories are all a call to awaken, to live passionately and consciously, and to enter the door that leads to enlightenment and communion with the divine. The door is always open. The light is always ready to receive us. But we have to learn how to tread the path! Fortunately, that's what all the sacred stories are really about. THE DOOR IS OPEN uncovers the 7 Universal Steps that are found within the symbols and allegories of all great mythology and scripture. Each chapter ends with a series of practical and enjoyable spiritual exercises and activities. You can do this work on your own, or together with a group. It could be a church or synagogue group, a book club, a classroom, or any group of friends who want to get together and expand their spiritual horizons.

The author collects the most meaningful and inspiring stories from her life, including people and experiences that taught her how to live a good life—one touched with sacredness. Original.

In over 45 years as a practicing psychologist, social entrepreneur, and professor, I have learned that emotional intelligence is the key to success in work and in life. I also know that becoming more self-aware is the key to developing strong emotional intelligence. I have taught, coached, and counseled people on how to become more self-aware and how to develop their social-emotional competencies. Both activities lead to higher emotional intelligence. This book presents the best practices developed and delivered in my teaching and in my psychology practice. Some of the stories and exercises in this book

came from my previous book *Balanced Leadership in Unbalanced Times* (2009). I published some of the stories and exercises as articles on my blog at [RobPasick.com](http://RobPasick.com). Please visit as I will continue to write there. I wrote this book because not everyone who needs this information is here at the University of Michigan to take my class. While it's nice to have a teacher and coach to help you through the process, you can learn a lot by yourself through reading this book and working on its exercises. If you follow the process, you'll end up with a self-made vision for success in both work and life. Furthermore, you will learn to set goals and develop the support that will enable you to make your dreams come true. How to Use this Book This book reflects the process I use in my coaching and teaching. You will be asked to read, reflect, answer questions, and engage actively in a series of exercises. Some exercises will require the participation of significant people in your life. You will be guided through exercises designed to: Help you find your career sweet spot. Establish a vivid vision of your dream success in career and life. Establish goals in the key spheres of your life: family, friends, mind, body, spirit, career, and community. Determine how the right balance in these spheres will lead to choices that maximize your chances to be happy and successfully choose the right mate. Better understand others. Better manage your relationship with yourself. Better manage your relationship with others. Endorsements "When a successful person has 45 years of experience, and chooses to boil all he knows down to the essence, it is wise to pay attention. In this book, one of the most successful coaches I have ever known promises to mentor you into an elevated version of yourself. I think it is a must read." -Robert E. Quinn, Author of *The Positive Organization* "When Rob Pasick speaks, people listen...and when he writes, people want to read it...and that's because Rob has a clear mission in mind with all his words...he wants to help people put everything in their lives in perspective, in the proper place. "Self-Aware: A Guide for Success in Work and Life is a book that is clear, concise and easy to understand. It will make a difference in how you balance your professional and personal life and it may make a difference in what you end up doing. I have known Rob for years, and he is a wise and caring and ever so smart man who wants to guide young men and women, helping them to be the best they can be. Rob really cares and puts so much thought into realistic ways to have professional success and personal happiness. This is a book you won't want to miss!" -Cheryl Chodun, former TV news reporter, WXYZ, Detroit and Adjunct Professor at Madonna University. **A groundbreaking program to help women create a habit of building wealth—from renowned financial therapist Barbara Huson (formerly Barbara Stanny) The men in her life had always handled Barbara Huson’s money: First her father (the “R” of H&R Block), and then her husband, a stockbroker who turned out to be a compulsive gambler. When tax bills arrived for over \$1m for his illegal deals, her ex left the country, her father refused to help, and Huson—who’d always been “scared and intimidated by money”—realized she had to grow up financially, fast. Since that dramatic financial wake-up call, Huson has devoted herself to learning everything there is to know about women and money, and in *Rewire for Wealth* she goes to the very core of the disconnect between the two: According to multiple studies, women’s and men’s brains process information differently—and that has a profound effect when it comes to money. (Men, for example, view investing as a challenge; women see it as a threat.)**

**Fortunately, you can “un-learn” previous bad lessons—and train your brain to process differently. In *Rewire for Wealth*, Huson offers a proven and integrative approach to re-wiring your brain. Using the latest neuroscience, psychology, and mind-training techniques with original research that includes more than 20 years of hard-won financial expertise, she shows you how to quickly but methodically eliminate maladaptive financial behaviors, and expand your ability to build wealth. By repeatedly applying a**

practical three-step formula—recognize, reframe, and respond differently—old brain circuits become weaker and new ones grow stronger, paving the way to a more confident approach to wealth building. You may never get a financial wake-up call as dramatic as Huson's, but the real, positive, and life-changing power to take charge, now, is at your fingertips.

When one reaches the highest degree of human maturity, one has only one question left: How can I be helpful?—TERESA OF ÁVILA Beloved author Ronald Rolheiser continues his search for an accessible and penetrating Christian spirituality in this highly anticipated follow-up to the contemporary classic, *The Holy Longing*. With his trademark acuity, wit, and thoughtfulness, Rolheiser shows how identifying and embracing discipleship will lead to new heights of spiritual awareness and maturity. In this new book, Rolheiser takes us on a journey through the dark night of the senses and of the spirit. Here, we experience the full gamut of human life, pleasure and fervor, disillusionment and boredom. But, as Rolheiser explains, when we embrace the struggle and yearning to know God we can experience too a profound re-understanding to our daily lives. "What lies beyond the essentials, the basics?" Rolheiser writes. "Where do we go once some of the basic questions in our lives have been answered, or at least brought to enough peace that our focus can shift away from ourselves to others? Where do we go once the basic questions in our lives are no longer the restless questions of youthful insecurity and loneliness? Who am I? Who loves me? How will my life turn out? Where do we go once the basic question in life becomes: How can I give my life away more purely, and more meaningfully? How do I live beyond my own heartaches, headaches, and obsessions so as to help make other peoples' lives more meaningful? The intent of this book is to try to address exactly those questions: How can we live less self-centered, more mature lives? What constitutes deep maturity and how do we reach that place? And, not unimportantly, what constitutes a more adult, Christian discipleship? What constitutes a truly mature following of Jesus?" As the poet Rainer Maria Rilke suggests, "Live the questions now." In *Sacred Fire*, Rolheiser's deeply affecting prose urges us on in pursuit of the most holy of all passions—a deep and lasting intimacy with God.

Awarded the 2016 Nautilus Silver Medal for Personal Growth! This is the book your money-savvy best friend, therapist, and accountant would write if they could. It's the book about money for people who don't even want to think about money, until the arrival of that inevitable day when we all realize we must come to terms with this thing called money. Everyone has pain and challenges, strengths and dreams about money, and many of us mix profound shame into that relationship. In *The Art of Money*, Bari Tessler offers an integrative approach that creates the real possibility of "money healing," using our relationship with money as a gateway to self-awareness and a training ground for compassion, confidence, and self-worth. Tessler's gentle techniques weave together emotional depth, big picture visioning, and refreshingly accessible, nitty-gritty money practices that will help anyone transform their relationship with money and, in so doing, transform their life. As Bari writes, "When we dare to speak the truth about money, amazing healing begins."

Aleister Crowley's *The Book of Lies* is an important and complex work of occultism. Deciphering its many layers of hidden meaning requires a little patience and more than a beginner's knowledge of Thelema. For those interested in passing beyond the initiate stage, the reward offered by a deeper understanding of this challenging text is well worth the effort. This new 2018 edition of *The Book of Lies* from Kismet Publishing restores all of Crowley's original text, including the important keys, sigils and diagrams often omitted from reprints.

*Sacred Matters* explores the multi-disciplinary literature about the role of religion in family life and provides new research and a new theory about ways various aspects of the sacred are helpful and harmful. The authors hope that their new conceptual framework will stimulate new research and encourage the creation of new intervention programs designed to help families. *Sacred Matters* features: a new conceptual framework and theory about how, when, and why sacred matters influence family processes and outcomes new qualitative and quantitative research collected in a variety of ways from people with different religious perspectives in different geographical areas an expansion in theory and research about the role of forgiveness, sacrifice, prayer, and sanctification in family life the integration of studies and issues from psychology, sociology, family studies, anthropology, and religion. This book raises the bar in creating new theories about family processes and in the integration of theory, research, and application. It begins with a review of the previous literature and then expands the research about sanctification to create a new general theory (or model) about ways sacred processes help and hinder families. Next the authors expand the theory and research about the role of forgiveness, sacrifice, and prayer in families. New theory and research are then added about loving, coping with conflict, dealing with undesirable behavior, generational relationships, morality, and the psychosocial aspects of religion. The authors then describe ways sacred theory can be integrated with other theories and ways it provides new explanations about broader social problems. The book concludes with new quantitative research and suggestions for future research. Researchers, practitioners, and advanced students in several disciplines will find this volume valuable. It will expand and enrich the reading in graduate and advanced undergraduate courses in areas such as family studies, human development, marriage and family therapy, the psychology of the family and the psychology of religion, the sociology of the family and the sociology of religion, pastoral counseling, anthropology, and social work.

**Humanity is a part of Nature, yet every thinking person at one time or another asks herself or himself, "How did we get here? What makes me different from the rest of Nature?" In *The Course of Nature* an artist and a scientist ask those questions with full respect for all contexts, both scientific and not. Amy Pollack's figures stand on their own as elegant summaries of one or another aspect of Nature and our place in it. Robert Pollack's one-page essays for each illustration lay out the underlying scientific issues along with the overarching moral context for these issues. Together the authors have created a door into Nature for the non-scientist, and a door into the separate question of what is right, for both the scientist and the rest of us. *Sacred Success®: A Course in Financial Miracles* shows women there is a better way to achieve wealth and power: on your own terms—as a woman. **#1 NEW YORK TIMES BESTSELLER • Everybody tells you to live for a cause larger than yourself, but how exactly do you do it? The author of *The Road to Character* explores what it takes to lead a meaningful life in a self-centered world. "Deeply moving, frequently eloquent and extraordinarily incisive."—*The Washington Post* Every so often, you meet people who radiate joy—who seem to know why they were put on this earth, who glow with a kind of inner light. Life, for these people, has often followed what we might think of as a two-mountain shape. They get out of school, they start a career, and they begin climbing the mountain they thought they were meant to climb. Their goals on this first mountain are the ones our culture endorses: to be a success, to make your mark, to experience personal happiness. But when they get to the top of that mountain, something happens. They look around and find the view . . . unsatisfying. They realize: This wasn't my mountain after all. There's another, bigger mountain out there that is actually my mountain. And so they embark on a new journey. On the second mountain, life moves from self-centered to other-centered. They want the things that are truly worth wanting, not the things other people tell them to want. They embrace a life of interdependence, not independence. They surrender to a life of commitment. In *The Second Mountain*, David Brooks explores the four commitments that define a life of meaning and purpose: to a spouse and family, to a vocation, to a philosophy or faith, and to a community. Our personal fulfillment depends on how well we choose and execute these commitments. Brooks looks at a range of people who have lived joyous, committed lives, and who have embraced the necessity and beauty of dependence. He gathers their wisdom on how to choose a partner, how to pick a vocation, how to live out a philosophy, and how we can begin to integrate our commitments into one overriding purpose. In short, this book is meant to help us all lead more meaningful lives. But it's also a provocative social commentary. We live in a society, Brooks argues, that celebrates freedom, that tells us to be true to ourselves, at the expense of surrendering to a cause, rooting ourselves in a neighborhood, binding ourselves to others by social solidarity and love. We have taken individualism to the extreme—and in the process we have torn the social fabric in a thousand different ways. The path to repair is through making deeper commitments. In *The Second Mountain*, Brooks shows what can happen when we put commitment-making at the center of our lives. Debunks nine myths about effective money management and describes the principles that lead to true financial success and prosperity.**

Sacred Ecology examines bodies of knowledge held by indigenous and other rural peoples around the world, and asks how we can learn from this knowledge and ways of knowing. Berkes explores the importance of local and indigenous knowledge as a complement to scientific ecology, and its cultural and political significance for indigenous groups themselves. This third edition further develops the point that traditional knowledge as process, rather than as content, is what we should be examining. It has been updated with about 150 new references, and includes an extensive list of web resources through which instructors can access additional material and further illustrate many of the topics and themes in the book. Winner of the Ecological Society of America's 2014 Sustainability Science Award.

"I Am Not" is author Robert E. Draper's attempt to provide insight into our age-old plight of finding ourselves "strangers in a strange land," as well as into the great difficulty we all have in accepting that if we are living in a world of virtual insanity, we are—at least partly—insane too. According to the author, this world is a dystopian battleground, a product of a collective amnesia that has burdened us all with the difficult task of living coherently while working our way back to the awareness of what we are: united; yet believing we are what we are not: separated—all of our hearts breaking over what we know not. The central theme of "I Am Not" is recognizing the futility of our efforts to improve the trap we appear to be in, redirecting those efforts to the goal of waking up to what we are doing, saving not the world but ourselves. Only thus can we reverse our own course into madness, finding—and demonstrating—there is hope within, right in the middle of a place where there is none to be found without.

A novel about a fifteen-year-old prostitute who is actually a 2,000-year old werewolf who seduces men with her tail and drains them of their sexual power. She falls in love with a KGB officer who is actually a werewolf.

The Jewish intellectual tradition has a long and complex history that has resulted in significant and influential works of scholarship. In this book, the authors suggest that there is a series of common principles that can be extracted from the Jewish intellectual tradition that have broad, even life-changing, implications for individual and societal achievement. These principles include respect for tradition while encouraging independent, often disruptive thinking; a precise system of logical reasoning in pursuit of the truth; universal education continuing through adulthood; and living a purposeful life. The main objective of this book is to understand the historical development of these principles and to demonstrate how applying them judiciously can lead to greater intellectual productivity, a more fulfilling existence, and a more advanced society.

Winner of the Booker Prize A historical novel set in the eighteenth century, Sacred Hunger is a stunning, engrossing exploration of power, domination, and greed in the British Empire as it entered fully into the slave trade and spread it throughout its colonies. Barry Unsworth follows the failing fortunes of William Kemp, a merchant pinning his last chance to a slave ship; his son who needs a fortune because he is in love with an upper-class woman; and his nephew who sails on the ship as its doctor because he has lost all he has loved. The voyage meets its demise when disease spreads among the slaves and the captain's drastic response provokes a mutiny. Joining together, the sailors and the slaves set up a secret, utopian society in the wilderness of Florida, only to await the vengeance of the single-minded, young Kemp.

When you are making a decision, do you feel torn between what you are supposed to do and what you would like to do? Do you feel unable to live a fully spontaneous and authentic life? Are you troubled that some of the things you do conflict with your intuition or inner knowing? Have you wondered why your positive affirmations aren't coming true? According to the Department of Labor, the average woman in 1998 was bringing home less than \$25,000 a year. For every dollar that a man makes, a woman makes between 50 and 75 cents, and that is hardly news. But what you may not know is that, quietly and steadily, the number of women making six figures or more is rapidly increasing. Currently, over fifteen million women make \$100,000 or more, and the number continues to rise at a rate faster than for men. And these women come from every industry - psychologists, dot com founders, consultants, freelance writers, and even part-timers. What makes these particular women able to do so well in the workplace? Fueled by curiosity, Barbara Stanny, author of *Price Charming Isn't Coming: How Women Get Smart About Money* (Viking Penguin), set out to research this phenomenon. What she discovered was that, though the high-earning women she interviewed came from different backgrounds and had had greatly different work experiences, they all had certain characteristics in common. *Secrets of Six Figure Woman: Surprising Strategies of the Successful High Earners* will be a ground breaking book for high earners who want to ensure their wealth, enhance their success, and learn from others who are in the same boat. It will also offer inspiration, guidance, and motivation to those who aspire to make more.

When it comes to money, are you controlled by fear? Do you live in financial chaos? Do you underestimate your worth? Are you ready to go to the next level, but can't seem to get there? If the answer is yes to these questions, you may be an under-earner. Under-earners are self-saboteurs who never live up to their earnings potential, says Barbara Stanny, a financial educator, motivational speaker, former journalist, and career counselor. Under-earners tend to live paycheck to paycheck. They rarely balance their checkbooks and are often in debt. Ironically, many work incredibly hard. Yet they are ashamed to admit that money matters to them. They all have a high tolerance for low pay. The good news is that under-earning is often self-imposed. By focusing on overcoming under-earning, you will not only earn what you deserve, but you can live up to your full potential. With techniques and exercises that have helped thousands of people who have participated in her *Overcoming Under-earning™* workshops, Stanny teaches you five essential steps to financial independence. Once you understand these steps, you will be confident asking for a raise, increasing your prices, or getting a better job. "Now I'm making more than my friends, all because I had the guts to dream and ask for more," says one Stanny fan. First, **Tell the Truth:** be honest about your financial situation and figure out your attitudes toward money. Second, **Make a Decision:** decide that you want to make more money. Third, **Stretch:** take action, face your fears, and be willing to be uncomfortable. Fourth, **Create Community** by finding supporters and asking for help. Fifth, **Respect and Appreciate Money:** learn to save and invest. *Overcoming Under-earning* is filled with inspiring, real-life stories of under-earners who turned their lives around. Stanny brings a message of empowerment and hope to all those who chronically undervalue themselves. "I'm making more, working less, feeling healthier, have more energy, and I'm so much happier," concludes another Stanny believer.

With a new introduction, Phil Jackson's modern classic of motivation, teamwork, and Zen insight is updated for a whole new readership "Not only is there more to life than basketball, there's a lot more to basketball than basketball." --Phil Jackson Eleven years ago, when Phil Jackson first wrote these words in Sacred Hoops, he was the triumphant head coach of the Chicago Bulls, known for his Zen approach to the game. He hadn't yet moved to the Los Angeles Lakers, with whom he would bring his total to an astounding nine NBA titles. In his thought-provoking memoir, he revealed how he directs his players to act with a clear mind--not thinking, just doing; to respect the enemy and be aggressive without anger or violence; to live in the moment and stay calmly focused in the midst of chaos; to put the "me" in service of the "we"--all lessons applicable to any person's life, not just a professional basketball player's. This inspiring book went on to sell more than 400,000 copies. In his new introduction, Jackson explains how the concepts in Sacred Hoops are relevant to the issues facing his current team--and today's reader.
