*Introduction and biographies*

**This is a study of the Federazione Universitaria Cattolica Italiana (FUCI) between 1925 and 1943, the organisation of Catholic Action for the university sector. The FUCI is highly significant to the study of Catholic politics and intellectual ideas, as a large proportion of the future Christian Democrats who ruled the country after World War II were formed within the ranks of the federation. In broader terms, this is a contribution to the historiography of Fascist Italy and of Catholic politics and mentalities in Europe in the mid- twentieth century. It sets out to prove the fundamental ideological, political, social and cultural influences of Catholicism on the making**

**of modern Italy and how it was inextricably linked to more secular forces in the shaping of the nation and the challenges faced by an emerging mass society. Furthermore, the book explores the influence exercised by Catholicism on European attitudes towards modernisation and modernity, and how Catholicism has often led the way in the search for a religious alternative modernity that could countervail the perceived deleterious effects of the Western liberal version of modernity.**

**ÊAmongst the apparent enigmas of life, amongst the seemingly most radical and abiding of interior antinomies and conflicts experienced by the human**

**race and by individuals, there is one which everything tends to make us feel and see with an ever-increasing keenness and clearness. More and more we want a strong and interior, a lasting yet voluntary bond of union between our own successive states of mind, and between what is abiding in ourselves and what is permanent within our fellow-men; and more and more we seem to see that mere Reasoning, Logic, Abstraction,Ñall that appears as the necessary instrument and expression of the Universal and Abiding,Ñdoes not move or win the will, either in ourselves or in others; and that what does thus move and win it, is Instinct, Intuition,**

**Feeling, the Concrete and Contingent, all that seems to be of its very nature individual and evanescent. Reasoning appears but capable, at best, of coordinating, unifying, explaining the material furnished to it by experience of all kinds; at worst, of explaining it away; at best, of stimulating the purveyance of a fresh supply of such experience; at worst, of stopping such purveyance as much as may be. And yet the Reasoning would appear to be the transferable part in the process, but not to move; and the experience alone to have the moving power, but not to be transmissible. Experience indeed and its resultant feeling are always, in the first instance,**

**coloured and conditioned by every kind of individual many-sided circumstances of time and place, of race and age and sex, of education and temperament, of antecedent and environment. And it is this very particular combination, just this one, so conditioned and combined, coming upon me just at this moment and on this spot, just at this stage of my reach or growth, at this turning of my way, that carries with it this particular power to touch or startle, to stimulate or convince. It is just precisely through the but imperfectly analyzable, indeed but dimly perceived, individual connotation of general terms; it is by the fringe of feeling, woven out of the past doings and**

**impressions, workings and circumstances, physical, mental, moral, of my race and family and of my own individual life; it is by the apparently slight, apparently far away, accompaniment of a perfectly individual music to the spoken or sung text of the common speech of man, that I am, it would seem, really moved and won. And this fringe of feeling, this impression, is, strictly speaking, not merely untransferable, but also unrepeatable; it is unique even for the same mind: it never was before, it never will be again. Heraclitus, if we understand that old Physicist in our own modern, deeply subjective, largely sentimental way, would appear to be exactly**

**right: you cannot twice step into the same stream, since never for two moments do the waters remain identical; you yourself cannot twice step the same man into the same river, for you have meanwhile changed as truly as itself has done, \_\_\_\_\_: all things and states, outward and inward, appear indeed in flux: only each moment seems to bring, to each individual, for that one moment, his power to move and to convince.**

Si l'on se penche sur les phénomènes de contestation de l'autorité politique par la littérature ou les arts qui constitue un axe de recherche majeur du Laboratoire aux travaux duquel contribue ce

volume, il appert que, dans bien des pays d'Europe, l'autorité politique s'est identifiée avec celle du Monarque, alors qu'en Italie, cas exceptionnel – et pour cause, puisque le siège de la papauté y est implanté depuis deux millénaires sans autre interruption que le demi-siècle avignonnais –, c'est la papauté qui s'est constituée en pouvoir politique, se revendiquant d'une double autorité, spirituelle et morale, et s'incarnant en un véritable organisme étatique. Le pape et la papauté représentent à leur tour deux "incarnations" de l'autorité : l'une institutionnelle (le gouvernement ecclésiastique), l'autre individuelle (le souverain pontife comme successeur de Pierre investi d'une mission de divine inspiration et exerçant à ce titre une autorité suprême). C'est en tout cas une spécificité italienne que d'être, par tant, un pays à la fois laïc et non-laïc, dans lequel la figure du Pape remplace celle du Roi, suscitant, depuis son affirmation

comme telle, polémiques et défenses de l'Institution ecclésiastique autant que de papes en particuliers. De fait, l'affirmation de la primauté spirituelle et temporelle du pape sur le monde médiéval chrétien présente, in nuce, les failles juridiques et morales qui légitiment l'expression immédiate d'opposants à cette hégémonie, aussi les vingt études regroupées dans ce volume illustrent-elles à la fois l'ancrage et la permanence d'une tradition historique, artistique, littéraire... la remise en cause en quelque sorte "chronique" du pouvoir du pape et de l'Église du XI<sup>e</sup> siècle à nos jours. Chacune d'elles montre par ailleurs, en creux ou explicitement, selon les cas, l'idéal d'une Église, d'une papauté et de papes, que leurs partisans comme leurs opposants eussent voulu au-dessus des intérêts matériels et des stratégies de pouvoir, tous se présentant en mal d'une autorité morale incontestable et littéralement incomparable

(celle des "Princes" telle qu'elle ressort de ces travaux n'échappant pas non plus à une sévère critique). Dans le balayage temporel et thématique qu'elles effectuent, ces études, du même coup, rendent compte du paradoxe proprement italien d'une tension ancestrale et originale entre la religion de la politique et la politique de la religion. Stephen Hawking avrebbe dovuto passare piu tempo ad aiutare la scienza medica a risolvere i problemi, compreso il suo, anziche cercare buchi neri nelle profondita della sua "mente brillante," criticando aspramente quella che lo ha creato. Il dramma che lo ha reso disabile avrebbe potuto spingerlo a usare la sua "mente brillante" per aiutare gli altri sulla terra, invece di cercare buchi neri e inseguire l'infinitesimo, lasciando che se ne occupino quelli che non sono in condizioni fisiche come la sua. Avrebbe potuto divertirsi con un telescopio a casa sua, come facevo io quando abitavo a

Miami, North Miami Beach, e poi a Oakland Park, mentre lo scorrere del tempo scandiva la mia vita. A quanto ne so, l'orgoglio di essere l'uomo dei buchi neri non lo sta aiutando, perché avrebbe dovuto spiegarci come difenderci da questi mostri anti Dio. Se uno di loro va fuori orbita e ci viene addosso, lui e la sua famiglia diventano cibo per buchi neri, poiché non hanno un Dio che li difende. Questi divoratori della galassia terrorizzano angeli e demoni, e turbano i sogni dei bambini."

but largely appreciative philosophy of mysticism. The author's "three elements of religion" are his most enduring contributions to theological thinking. The human soul, the movements of western civilization, and the phenomena of religion itself he characterized by these three elements: the historical/institutional element, the intellectual/speculative element, and the mystical/experiential element. This typology provided for him an understanding of the balance, tension, and 'friction' that exists in religious thinking and in the complexity of reality and existence. It was an organizing paradigm that remained central to his project. The effort to hold these sometimes disparate dimensions together was structurally and theologically dominant throughout his
