Spurred (Steele Ranch)

If you've never saddled up with a few Vanessa Vale cowboys, now is your chance! Welcome to Steele Ranch, where the men are hot, dominant and know what they want. For Cord Connolly and Riley Townsend, that's sexy and sinfully sweet Kady Parks. The Philadelphia schoolteacher discovers she's the heir—along with half-sisters she didn't know existed—to the Steele fortune, including a real-life cattle ranch. Instead of spending her summer break at home, she's in Barlow, Montana. And the West is as wild as she imagined, for two hot cowboys have decided to lay claim, taking her for one wild ride. And Kady? She's ready to

On her vacation at Shadow Ranch, young detective Nancy Drew encounters a mystery involving a phantom horse, a haunted ghost-town and a perilous gang of cowboy thieves "OMG!! I have never laughed so hard one second and been on the edge of my seat the next, with any other book!" - Fun Under The Covers Jane West's life is perfectly average. Perfectly boring. Until Ty Strickland—Grade-A, smoking hot firefighter—moves in down the street. Then things get a little exciting, and not in the good, panty-melting sort of way. Not only does someone want her dead (seriously), she has to wrangle

her out-of-control desires where the new neighbor is concerned, and convince her boss at the small town's only adult toy store—who meddles in Jane's love life—to leave the new hose-wielding hottie off her matchmaking radar. But it's not all chaos and pancakes. There's Ty. And his smoking hot body. Smoking hot kisses. He's burning the walls around her heart to nothing but ash. And she just might be falling in love...if she can stay alive long enough. Caldwell, Kansas, when a blind phrenologist, traveling through, took the measure of his "mule head" and told him that he was "cut out" for detective work. Thereupon, Siringo joined the Pinkerton National Detective Agency in 1886. A Cowboy Detective chronicles his twenty-two years as an undercover operative in wilder parts of the West, where he rode with the lawless, using more stratagems and guises than Sherlock Holmes to bring them to justice and escaping violent death more often than Dick Tracy. He survived the labor riots at Coeur d'Alene, Idaho, in 1892 (his testimony

helped convict eighteen union leaders), hounded moonshiners in the Appalachians, and chased Butch Cassidy's Wild Bunch. Once described as "a small wiry man, cold and steady as a rock" and "born without fear," Charlie Siringo became a favorite of high-ups in the Pinkerton organization. Nevertheless, the Pinkertons, ever sensitive to criticism, went to court to block publication of Siringo's book. Frank Morn, in his introduction to this Bison Books edition, discusses the changes that resulted from two years of litigation. Finally published in 1912 without Pinkerton in the

The deeper truth of Siringo's book remains. As J. Frank Dobie wrote, "His cowboys and gunmen were not of Hollywood and folklore. He was an honest reporter.

What might have been? That tantalizing question propels a woman on a cross-country adventure to reunite with the men she loved and let go, in Danielle Steel's exhilarating new novel. It all starts with a fall from a ladder, in a firehouse in New York City. The firehouse has been converted into a unique Manhattan home and studio where renowned photographer Madison Allen works and lives after raising three children on her own. But the accident, which happens while Maddie is sorting through long-forgotten personal mementos and photos, results in more

than a broken ankle. It changes her life. Spurred by old memories, the forced pause in her demanding schedule, and an argument with her daughter that leads to a rare crisis of confidence, Maddie embarks on a road trip. She hopes to answer questions about the men she loved and might have married—but didn't—in the years after she was left alone with three young children. Wearing a cast and driving a rented SUV, she sets off to reconnect with three very different men—one in Boston, one in Chicago, and another in Wyoming—to know once and for all if the decisions she made long ago

were the right ones. Before moving forward into the future, she is compelled to confront the past. As the miles and days pass, and with each new encounter, Maddie's life comes into clearer focus and a new future takes shape. A deeply felt story about love, motherhood, family, and fate, *Lost and Found* is an irresistible new novel from America's most dynamic storyteller.

Longlisted for the National Book Award New York Times Bestseller A former Wall Street quant sounds an alarm on the mathematical models that pervade modern life -- and threaten to rip apart our social fabric We live in the age of the algorithm. Increasingly, the decisions that affect our lives--where we go to school, whether we get a car loan, how much we pay for health insurance--are being made not by humans, but by mathematical models. In theory, this should lead to greater fairness: Everyone

is judged according to the same rules, and bias is eliminated. But as Cathy O'Neil reveals in this urgent and necessary book, the opposite is true. The models being used today are opaque, unregulated, and uncontestable, even when they're wrong. Most troubling, they reinforce discrimination: If a poor student can't get a loan because a lending model deems him too risky (by virtue of his zip code), he's then cut off from the kind of education that could pull him out of poverty, and a vicious spiral ensues. Models are propping up the lucky and punishing the

downtrodden, creating a "toxic cocktail for democracy." Welcome to the dark side of Big Data. Tracing the arc of a person's life, O'Neil exposes the black box models that shape our future, both as individuals and as a society. These "weapons of math destruction" score teachers and students, sort r sum s, grant (or deny) loans, evaluate workers, target voters, set parole, and monitor our health. O'Neil calls on modelers to take more responsibility for their algorithms and on policy makers to regulate their use. But in the end, it's up to us to become more

savvy about the models that govern our lives. I crave her scent. I can't stay away. Nothing can keep me from claiming the new waitress at the diner. Except for her other mate, the scent match I didn't know existed. He's a stranger to me and our pack, but now we must work together. Two mates for our female. Our mate is human, untouched. She doesn't know about our kind. We must convince her to accept not one, but two mates. Two cowboys in her bed. Two dominant wolves to protect her. And my scent match's wolf is turning feral with need. We touch our mate. We can't get enough. We need to claim her and mark her as ours before his wolf goes mad. She's a virgin, so we have to be careful—shifters can be rough. In The Coming Man from Canton Christopher W. Merritt mines the historical and archaeological record of the Chinese immigrant experience in Montana to explore new questions and perspectives. During the 1860s Chinese immigrants arrived by the thousands,

moving into the Rocky Mountain West and tenaciously searching for prosperity in the face of resistance, restriction, racism, and armed hostility from virtually every ethnic group in American society. As second-class citizens, Chinese immigrants remained largely insular and formed their own internal governments as well as labor and trade networks, typically establishing communities apart from the main towns. Chinese miners, launderers, restaurant

keepers, gardeners, railroad laborers, and other workers became a separate but integral part of the American experience in the Intermountain West. Although Chinese immigrants constituted more than 10 percent of the Montana Territory's total population by 1870, the historical records provide a biased and narrow perspective, as they were generally written by European American community members. Merritt uses the statewide Montana context to show the diversity of

Chinese settlements that has often been neglected by archival studies. His research highlights how the legacy of the Chinese in Montana is, or is not, reflected in modern Montana identity and how scholars, educators, professionals, and the public can alter the existing perception of this population as the "other" and perceive it instead an integral part of Montana's past.

When someone says "Cowgirl Up!" it means rise to the occasion, don't give

up, and do it all without whining or complaining. And the cowgirls of the early twentieth century did it all, just like the men, only wearing skirts and sometimes with a baby waiting behind the chutes. Women learned to rope and ride out of necessity, helping their fathers, brothers, and husbands with the ranch work. But for some women, it went further than that. They caught the fever of freedom, the thirst for adrenaline, and the thrill of competition, and many started their rodeo careers as early as age fourteen. From Alice and Margie Greenough of Red Lodge, whose father told them "If you can't ride 'em, walk," to Jane Burnett Smith of Gilt Edge who sneaked off to ride in rodeos at age eleven, women made wide inroads into the masculine world of rodeo. Montana boasts its share of

Get Free Spurred (Steele Ranch)

women who "busted broncs" and broke ranks in the macho world of rodeo during the early to mid-1900s. Cowgirl Up! is the history of these cowgirls, their courage, and their accomplishments.

to keep her straying husband at home. Eager to flee her old life, Celia heads to Colorado as a mail-order bride. As mayor of Slate Springs, Colorado, Luke Tate is expected to set the example. Their small town is hidden away in a remote mountainous region where few women have the courage or desire to tread. As mayor, it falls to him to test out their newly passed law and share a wife with his brother. The truth is, Luke has no interest in a woman of his own, and agrees to a mail-order bride out of duty, not anticipation. His brother, Walker, is jaded and hard after the death of his first wife. For Walker, loving again is out of the question. But a man has needs, and he'll eagerly take his pleasure from their new bride while expecting Luke to provide the tenderness and caring a woman expects. A marriage based on everything but love should be doomed. But Celia, Luke and

Walker discover one thing they have in common: desire. Will that be strong enough to survive the danger that follows Celia from Texas? Will desire be strong enough to teach the three that sometimes you have to risk everything for love? Only moments after first setting eyes on Laila, a desperate young woman fleeing from a backwater planet to avoid a forced marriage, Basil's conscience drives him to offer her a place on his ship. Though his intervention draws the wrath of the powerful gangster who had sought to claim her, Laila's innocence and beauty quickly capture Basil's heart. Despite her fear that they will one day tire of her, Laila delights in the attention of her rescuer and his partner, a huge, handsome half-elf named Flin. Taking on the role of her firm but loving daddy, Basil does not hesitate to spank Laila's bare bottom whenever she is naughty, but she can also

count on him to protect her, comfort her, and care for her as his little girl. Flin, on the other hand, sets out to teach Laila how pleasurable it can be to surrender herself completely to his stern, practiced dominance and his thorough, intimate mastery of her body. Laila's love for Basil and Flin grows deeper each day, and as painful memories of the past slowly begin to fade she finds herself looking forward to her future for the first time in her life. But with the ruthless criminal from whom she escaped still seeking to hunt her down, can her daddy and her master find a way to keep her safe? that wasn't an option. I couldn't fall for the beautiful slip of a female. The baby sister of my brother's new mate. She was way too young. Way too human. Still in college.
