As in thought he passes backward into time, the country becomes quieter, and it seems to grow larger. The sounds of engines become less frequent and farther apart until they cease altogether. On a clear Kentucky night in 1888, a young woman risks her life to save a stranger from a drunken mob. Almost a hundred years later, her great-grandson Andy climbs a hill at the edge of town, and is flooded with memories of all he has lived, seen and heard of the past century of neighbourly feuds and family secrets; of grief and betrayal - and of great friendship that endures for a lifetime. Wendell Berry unravels the story of a town over the course of four generations, lovingly chronicling the intertwined lives of the families who call it home. Affectionate, elegiac and wry, these uplifting rural fables invite us to witness the beauty and quiet heroism at the heart of each ordinary, interconnected life.

The creator of "Grey's Anatomy" and "Scandal" details the one-year experiment with saying "yes" that transformed her life, revealing how accepting unexpected invitations she would have otherwise declined enabled powerful benefits.

From the Pulitzer Prize-winning author of All the Light We Cannot See, perhaps the most bestselling and beloved literary fiction of our time, comes a triumph of imagination and compassion, a soaring novel about children on the cusp of adulthood in a broken world, who find resilience, hope, and story. The heroes of Cloud Cuckoo Land are trying to figure out the world around them: Anna and Omeir, on opposite sides of the formidable city walls during the 1453 siege of Constantinople; teenage idealist Seymour in an attack on a public library in present day Idaho; and Konstance, on an interstellar ship bound for an exoplanet, decades from now. Like Marie-Laure and Werner in All the Light We Cannot See, Anna, Omeir, Seymour, and Konstance are dreamers and outsiders who find resourcefulness and hope in the midst of peril. An ancient text—the story of Aethon, who longs to be turned into a bird so that he can fly to a utopian paradise in the sky—provides solace and mystery to these unforgettable characters. Doerr has created a tapestry of times and places that reflects our vast interconnectedness—with other species, with each other, with those who lived before us and those who will be here after we're gone. Dedicated to "the librarians then, now, and in the years to come," Cloud Cuckoo Land is a hauntingly beautiful and redemptive novel about stewardship—of the book, of the Earth, of the human heart.

Self-help books don't seem to work. Few of the many advantages of modern life seem capable of lifting our collective mood. Wealth—even if you can get it—doesn't necessarily lead to happiness. Romance, family life, and work often bring as much stress as joy. We can't even agree on what "happiness" means. So are we engaged in a futile pursuit? Or are we just going about it the wrong way? Looking both east and west, in bulletins from the past and from far afield, Oliver Burkeman introduces us to an unusual group of people who share a single, surprising way of thinking about life. Whether experimental psychologists, terrorism experts, Buddhists, hardheaded business consultants, Greek philosophers, or modern-day gurus, they argue that in our personal lives, and in society at large, it's our constant effort to be happy that is making us miserable. And that there is an alternative path to happiness and success that involves embracing failure, pessimism, insecurity, and uncertainty—the very things we spend our lives trying to avoid. Thought-provoking, counterintuitive, and ultimately uplifting, The Antidote is the intelligent person's guide to understanding the much-misunderstood idea of happiness.

It's time to take matters into her own hands. Without telling her mum, or more importantly, asking her permission, Ollie finds the perfect place to start her new life. End Cottage has a duck-egg blue front door, a garden that leads to acres of forest, and definitely counts as her dream home. Now all Ollie has to do is complete the rest of her list and find out who she really is, before she can imagine any romance coming into her life. AN INSTANT NEW YORK TIMES BESTSELLER "Provocative and appealing . . . well worth your extremely limited time." —Barbara Spindel, The Wall Street Journal The average human lifespan is absurdly, insultingly brief. Assuming you live to be eighty, you have just over four thousand weeks. Nobody needs telling there isn't enough time. We're obsessed with our lengthening to-do lists, our overfilled inboxes, work-life balance, and the ceaseless battle against distraction; and we're deluged with advice on becoming more productive and efficient, and "life hacks" to optimize our days. But such techniques often end up making things worse. The sense of anxious hurry grows more intense, and still the most meaningful parts of life seem to lie just beyond the horizon. Still, we rarely make the connection between our daily struggles with time and the ultimate time management problem: the challenge of how best to use our four thousand weeks. Drawing on the insights of both ancient and contemporary philosophers, psychologists, and spiritual teachers, Oliver Burkeman delivers an entertaining, humorous, practical, and ultimately profound guide to time and time management. Rejecting the futile modern fixation on "getting everything done," *Four Thousand Weeks* introduces readers to tools for constructing a meaningful life by embracing finitude, showing how many of the unhelpful ways we've come to think about time aren't inescapable, unchanging truths, but choices we've made as individuals and as a society—and that we could do things differently.
