The trailers for Star Wars: The Force Awakens made a strong impression on fans. Many were excited by what they saw as a return to the spirit of George Lucas's 1977 creation. Others—including several white supremacy groups—were upset and offended by key differences, most notably the shift away from a blond, blue-eyed, male protagonist. When the film was finally released, reactions similarly seemed to hinge on whether or not The Force Awakens renewed the “mythic” aspects of the original trilogy in ways that fans approved of. The Myth Awakens examines the religious implications of this phenomenon, considering the ways in which myth can function to reinforce “traditional” social and political values. In their analyses the authors of this book reflect on fan responses in relation to various elements of (and changes to) the Star Wars canon—including toys, video games, and novels, as well as several of the films. They do so using a variety of critical tools, drawing from studies of gender, race, psychology, politics, authority, music, ritual, and memory.

In his best-selling book, Save the Cat!(r) Goes to the Movies, Blake Snyder provided 50 beat sheets to 50 films, mostly studio-made. Now his student, Salva Rubio, applies Blake s principles to 50 celebrated non-studio films (again with 5 beat sheets for each of Blake s 10 genres).

From international sensations like The Blair Witch Project topromising debuts like Pi, from small films that acquired cult status like Texas Chain Saw Massacre to Euro-blockbusters like The Full Monty, from unexpected gems like Before Sunrise to textbook classics such as The 400 Blows, from Dogville to Drive and Boogie Nights to Cinema Paradiso, here are 50 movies that fit both the independent label and Blake Snyder s 15 beats. You ll find beat sheets for works from Quentin Tarantino, Steven Soderbergh, David Lynch, Roman Polanski, Danny Boyle, David Mamet, Spike Jonze, Charlie Kaufman, Sofia Coppola, Stephen Frears, David Hare, Stanley Kubrick, Woody Allen, Wes Anderson, and the Coen Brothers, among other renowned writers and directors. You ll see how hitting the beats creates a story that resonates for audiences the world over. Why is this important? Because it gives both writers and moviegoers a language to analyze film and understand how filmmakers can effectively reach audiences. And especially if you are a writer, this book reveals how screenwriters who came before you tackled the same challenges you are facing with the film you want to write or the one you are currently working on."

Journey to Star Wars: The Last Jedi

A young girl has been found who has the power to become a Jedi. But an evil scientist doesn't want to let her go. And her home is under attack by Bartokk Assassins. Yoda, Mace Windu, and other Jedi must save her.

After years of dreaming and planning, we sold our San Diego County home in 2002. We have been traveling for thirteen years, and have slept in more than 800 beds in 45 states and several foreign countries. Early in our travels, we discovered house and pet sitting. When people travel, we live in their homes, loving and caring for their pets and plants. "We Sleep Around" shares the story of our first five years of traveling. Leaving our home for the last time, we thought it might be a five year adventure. This book ends when Bill departs for Baghdad, Iraq for a contract assignment with the U.S. Government. Continuing our adventure we will be "Still Sleeping Around," and finally "Done Sleeping Around." Although not for everyone, house and pet sitting has greatly enhanced our opportunity to travel. We will continue until someday we grow up and say, "enough" and close the book on our final chapter of traveling.

Far in the north, Margaret of Anjou, warrior Queen to Henry VI, prepares to fight against the advancing armies of Edward IV. Why does she abandon her husband, and flee to France vowing never to return? Who blackmails her, seven years later, to join forces with her most hated enemy, to return and fight once again for the crown of England? He is forced to fight Louis XI of France, and the mighty Earl of Warwick, not only for his crown but also his life. In this fascinating book, New Yorker business columnist James Surowiecki explores a deceptively simple idea: Large groups of people are smarter than an elite few, no matter how brilliant—better at solving problems, fostering innovation, coming to wise decisions, even predicting the future. With boundless erudition and in delightfully clear prose, Surowiecki ranges across fields as diverse as popular culture, psychology, ant biology, behavioral economics, artificial intelligence, military history, and politics to show how this simple idea offers important lessons for how we live our lives, select our leaders, run our companies, and think about our world.
