

Starship Eternal (War Eternal Book 1)

In the year 2050, Earth makes first contact. By 2052, the war is over. We lose. Our last hope for survival rests inside a massive hangar hidden within the Rocky Mountains. Pioneer is the largest starship ever constructed. A marvel of human ingenuity and the apex of our technological know-how, she's ready to embark on a long journey across the final frontier in search of a new world to call home. But space is full of danger. And some problems are hard to leave behind... If you're a fan of Battlestar Galactica, Star Trek, Aliens, or The Expanse, you'll love Exodus - the latest sci-fi epic from million-selling author M.R. Forbes.

Olongapo was an extraordinary part of our world known to millions. This tiny section of the Far East served as playground for Vietnam. An amusement park for the American Seventh Fleet, contractors and other service members from around the world. Rides in this park featured people's lives, creating impassioned experiences. Written with deepest respect for those with their names etched into The Vietnam Veterans Memorial Wall. Many who experienced joy for the last time while in Olongapo. The Olongapo experience was a true phenomenon, a saturation of life. During the peak of Vietnam, the area grew from a population of 40,000 in 1964 to a bulging 138,000 plus by 1969. The undisputed king of liberty ports in Asia, Olongapo's nightclubs bloomed from 35 to over 300. Pay by play girls increased to over 8,000 while pay by the hour hotels zoomed to more than 200. All of this amazing expansion crammed into just over one acre of frenzy. Men who had been off the coast of Vietnam and people shore based made up the 9 to 14 thousand visitors to the city every night of the year. Most were on brief liberty passes after months at sea and others awaited transfer to Vietnam. The combination created a free spending environment that poured millions of dollars into Olongapo every month. My novel is not just for the millions who miss such a unique concentration of life, it is for those who never knew the Olongapo experience.

Earth. After the invasion. Vicious aliens roam the landscape while humankind struggles for survival in the shattered remains of civilization... Hayden is a lawman in a world without law. A good man in a world gone bad. While he recognizes the fallout of an alien attack when he sees it.....he's never seen anything like this before. Isaac is a Marine in a world without order. A good man with troubles of his own. His mission was to protect the innocent, including his son.....instead, he's the only survivor. Or is he? The invasion may be over, but the real fight is just beginning. Because you love the blend of sci-fi and western like Firefly or the Dark Tower, or can lose yourself in the post-apocalyptic worlds of Wool, Fallout, or Mad Max. Because you crave the thrill of Predator, the action of Aliens, or the adventure of Indiana Jones. Because you enjoy rooting for the good guys. Get it now.

The first in a series of 33 Year-books that detail the Social History of Australia in the 33 years 1939 to 1971. It describes how the population felt as the excitements and changes of those years developed. Great for birthdays and Christmas for families and friends, aunts and uncles, Gran and Pop, workmates and boss. You too.

The Deliverance has arrived. The planet is beautiful, lush, teeming with life and perfectly suited to the colony's needs. It's supposed to be everything they ever dreamed of. Instead, it's a nightmare. Caleb knows the truth. The ship's real mission has nothing to do with settlement. The plan is much more sinister than that. Now the race is on to prepare for the coming storm, to secure the colony and find the enemy before the enemy finds them. But when fear leads to a desperate betrayal, will it be the innocent who pay the ultimate price? Desperation is the third

book in the Forgotten Colony series. The first book, Deliverance, was a Top 10 sci-fi bestseller, and also reached #1 in both Military Science-fiction and Space Opera. If you love Aliens, Battlestar Galactica, Starship Troopers, Ender's Game, or Edge of Tomorrow, you'll love this epic military sci-fi thriller.

In the twenty-fourth century, technology has cracked the secret inner workings of the human mind wide open. Memories are only as persistent as the timestamp with which they're written, while human consciousness can be saved to a storage device the size of a quarter and temporarily imprinted on another person's brain stem in order to gain control. The possibilities are endless. As a member of Special Investigations, Cassidy is nearing his fiftieth imprint. Male, female, young or old, the tenet is always the same. Borrow the repo, do the job, clean up the loose ends and don't corrupt. After seventy years in the department, he thinks he's seen it all. He's never seen anything like this. Waking up illegally imprinted and sent to hunt a dangerous fugitive is just the start. Cassidy's about to learn that the world he knows isn't what it seems... Nothing is.

An unstoppable force is headed toward Earth with weapons far beyond humanity's capabilities. The Solar Republic of Earth faces imminent destruction at the hands of the maniacal Collectors. In a desperate bid to stop them, Commander Tag Brewer leads a strike group of SRE warships deep into enemy territory. They seek to strike a devastating blow and free the countless beings who have been enslaved by the Collectors. But Tag fears they may be headed into a trap. Complicating their mission, they discover an alien race that may be even deadlier than the Collectors. Tag and his crew soon find themselves mired in a vicious conflict beyond anything they had anticipated. And it is not just Tag and his strike group whose lives are in jeopardy. The outcome of this conflict will determine the fate of humanity and every other free race. Tag must call on old and new allies if the SRE has any chance of survival in this thrilling conclusion to the Eternal Frontier series.

An experimental starship. An unprepared pilot. An unexpected crew. A fight for the fate of the future. Captain Nicholas Shepherd is a test pilot for Grimmel Corporation's latest experimental starship, Foresight. As a development platform for desperately needed advanced technology, a successful run of the ship's systems is vital to enable humankind's exodus from an alien-occupied Earth. After Foresight suffers a malfunction during its final scheduled flight, the lost opportunity provides the enemy the opening they need for one last attack. With his family caught in the crossfire, Nicholas realizes that the flawed starship is their best chance to escape. But it isn't long before what started as a desperate evacuation turns into something more. Much more. Joined by an unintended crew of survivors, Nicholas is about to embark on an impossible mission that will take them far beyond the outer reaches of known space. If he fails, the future of humankind will not only be lost... It will be completely erased.

"In the spring of 2031 terrorists detonate nuclear bombs in nine American and European cities. They are not the small ""suitcase" bombs intelligence agencies had anticipated, but large strategic weapons, smuggled to their targets on trucks and aboard ships. Millions die in the firestorms. In the months that follow, thousands more are lost to radiation sickness, starvation and the lawless gangs terrorizing the countryside. The global financial system collapses. The military labors to establish order but is forced to commit nearly all its resources to the cities, which have become massive refugee camps. In the rural outland there is anarchy. The Chinese

offer aid, but demand an impossible concession: the dissolution of the United States and creation of a new Sino-American continental state. They are refused. Can the U.S. hope to rebuild without aid? Its wounds are deep, the damage severe. The struggle continues, the days grind on, but the leaders know they are making almost no progress. In July they receive news so terrible that at first they cannot believe it. In five locations at once, Chinese troops are landing on American beaches. For the first time in over 200 years the United States is being invaded by a foreign power!"--Amazon blurb.

The war is over. Earth is lost. Running is the only option. It may already be too late. Caleb is a former Marine Raider and commander of the Vultures, an elite search and rescue team that's spent the last two years pulling high-value targets out of alien-ravaged cities and shipping them off-world. Now he's on the last starship out, under orders to join forty-thousand survivors on their journey to a new home. It's not the mission he wants, but it's a mission he's doing his best to accomplish. When Caleb meets the colony's head sheriff, she represents an opportunity for a fresh start and a chance to leave his old life behind for good... Only the mission will be harder to complete than either of them realize. And the colonists will need the old Caleb more than he ever imagined... Enter the universe of the Forgotten with Deliverance, the first book in the Forgotten Colony series. If you're a fan of Aliens, Battlestar Galactica, Starship Troopers, Ender's Game, or Edge of Tomorrow, you'll love this epic military sci-fi thriller.

The most powerful starships ever constructed are gone. Thousands are dead. A fleet is in ruins. The attackers are unknown. The orders are clear: Recover the ships. Bury the bastards who stole them. Lieutenant Abigail Cage never expected to find herself in Hell. As a Highly Specialized Operational Combatant, she was one of the most respected soldiers in the military. Now she's doing hard labor on the most miserable planet in the universe. Not for long. The Earth Republic is looking for the most dangerous individuals it can control. The best of the worst, and Abbey happens to be one of them. The deal is simple: Bring back the starships, earn your freedom. Try to run, you die. It's a suicide mission, but she has nothing to lose. The only problem? There's a new threat in the galaxy. One with a power unlike anything anyone has ever seen. One that's been waiting for this moment for a very, very, long time. And they want Abbey, too. Be careful what you wish for. They say Hell hath no fury like a woman scorned. They have no idea...

Ape Man, Space Man Earth's colonists have spread throughout the cosmos, and have almost divided into two separate species. One is the Swimmers, who have adapted to living in zero-gravity, and regard themselves as the next step in evolution, and those who prefer to live on the surface of a planet as little better than apes. The latter group, the Walkers, are not about to say farewell to the planets they grew up on, and think the Swimmers are not so much advanced as deranged. Crowell, born a Swimmer but now a Walker by choice, is caught in the middle as the two sides seem headed for war. Then he discovers the true cause of the altercation: a hidden alien race moving behind the scenes to provoke a war so that they can pick up the pieces after the two sides have

obliterated each other. And if Crowell cannot head off the war and convince both sides of the existence of the real enemy, both branches of the human race may be headed for untimely extinction. Interstellar colony ship Deliverance. Somewhere in deep space. The Deliverance is tragically off course, missing its rendezvous with the escaping fleet and leaving the survival of the colony in serious jeopardy. Pulled out of hibernation years too late, Caleb is thrown into the middle of the crisis and forced back into the fight. With the ship low on power and time running out, it's up to him to find some way, any way, to overcome an impossible situation and get the colony to safety. Otherwise, the only thing he'll be protecting is a tomb... Deception is the second book in the Forgotten Colony series. The first book, Deliverance, was a Top 10 sci-fi bestseller, and also reached #1 in both Military Science-fiction and Space Opera. If you love Aliens, Battlestar Galactica, Starship Troopers, Ender's Game, or Edge of Tomorrow, you'll love this epic military sci-fi thriller.

John Daker dreams of other worlds, and a name: Erekosë. He finds the strength to answer the call, travelling to a strange land ruled by the aging King Rigenos of Necranal. Humanity is united in a desperate fight against the inhuman Eldren, and he must fight with them. But the actions of his brethren turns his loyalties, and as Erekosë he will take a terrible revenge.

A new beginning... A final battle for the fate of humankind... A future on the edge of infinity... Colonel Mitchell "Ares" Williams has been through it all, the story of his life an eternity in the making. He's brought the starship Goliath back home in a shrewd maneuver that could turn the tide of a war that he has fought beyond forever, restoring those that were lost and giving him a second chance to change the fate of humankind. A chance to destroy the Tetron for good. But as Mitchell soon discovers, the more things have stayed the same, the more they've changed, and he isn't the only one who's been waiting for this time to come...

Dan Wynn wanted to explore space more than life itself, but a tragic accident left him too injured for NASA's space program. Second chances don't come along every day, so when an old friend offered him one, he grabbed on with both hands. The next thing Dan knew, he was on the moon, piloting humanity's first starship while fighting his way through one peril after another. Little did Dan know that simple offer was anything but, and would lead him to the stars far beyond our own. The risks are great. But if life knocked you down, what would you gamble to have one more shot at your dreams? Excerpt: "Dan - ad astra!" Dan heard the order. Ad astra. To the stars. It was a toast the two of them had shared back in college, when they first stepped onto the roads which would lead them into space. It had been John's idea to use the toast as a code word now. Dan didn't even take a deep breath before executing the order. He'd practiced this with Majel enough times in the simulator - not the part about having a gunman in the bridge, but if that order was ever given, it would be a true crisis. He checked the screen again. Visual range in only fifteen seconds. No time for anything else. He rapidly initiated the program, said a quick prayer, and pressed the Enter button on his keyboard. Immediately, the ship began to shudder. This book is a heavily revised second edition of the original volume. The story length has been increased by about 60%, adding enormously more background to the characters and deepening of the personality of the world and crew. If you've already read the first edition, you won't need to read this version to catch up - but fans of the series are sure to enjoy this expanded and improved "Author's Preferred Edition"!

New from million-copy bestseller M.R. Forbes. One man's epic story of loyalty, perseverance, and hope in a galaxy at war. Alliance Navy Commander Grayson Stone is patrolling a nearby space station when a mysterious starship appears. It emerges from a storm of fire, its shields impenetrable, its weapons overwhelming, attacking without provocation and annihilating everything in its path. While his ship is badly damaged in the assault, Grayson manages to survive. Suddenly trapped behind the front line of the invasion, faced with gut-wrenching choices and near-impossible odds, he'll do whatever it takes to escape the grasp of the terrifying new enemy and send warning back home. Because if he fails, humankind will fall.

Fifty years ago, an alien fleet conquered Earth. It's time for us to take it back. Welcome to the rebellion...

An ancient starship discovered... An eternal enemy revealed... An impossible mission to save humankind... The Goliath has been discovered, the first of its secrets revealed. Now the race is on for Captain Mitchell Williams and his crew to return to Liberty and recover Origin's lost memories before the enemy can complete its violent conquest. It's a mission with a near-zero chance of success. A mission that only the Riggers would be crazy enough to accept, and skilled enough to survive. A mission that will test the limits of Mitchell's mind, body, and soul, and force him to make an impossible choice that could cost the lives of millions. This is war, and if he can't win a battle for a single planet, how can he possibly change the outcome of a conflict that has raged beyond eternity?

The Epic of Dunkirk

From Joshua Dalzelle, author of the bestselling "Omega Force" series, comes an all new vision of humanity's future. In the 25th century humans have conquered space. The advent of faster-than-light travel has opened up hundreds of habitable planets for colonization, and humans have exploited the virtually limitless space and resources for

hundreds of years with impunity. So complacent have they become with the overabundance that armed conflict is a thing of the past, and their machines of war are obsolete and decrepit. What would happen if they were suddenly threatened by a terrifying new enemy? Would humanity fold and surrender, or would they return to their evolutionary roots and meet force with force? One ship-and one captain-will soon be faced with this very choice. Against incredible odds, Jackson Wolfe is determined to save humanity-and in the process, might end up saving himself.

The best donkey space pirate adventure you'll ever read! 'Fast-paced, funny and the best comic novel I've read in a long time.' Symbiont Harry--rejected by his tribe, exiled from home, and braying at the stars--is imprisoned in the form of a donkey. Trapped on an interstellar livestock vessel, Harry dreams of being loved, or at least having a decent conversation. Space pirates capture the ship, hoping to score. What to do with a hold full of livestock? And what's with the wisecracking donkey? When a galactic animal contest promises a fortune, the talking donkey starts to look like a potential winner--if only he can lay off the pizza. Can the pirates keep the Federation off their tails and cash in on their endlessly mess-making cargo? Can Harry find a home with the pirates? The starship Freedom is just a museum ship. Until the aliens attack! Battlestar Galactica meets Starship Troopers in this sci-fi adventure from Daniel Arenson, the USA Today bestselling author of Earthrise. The starship Freedom was once a mighty warship. Today she's a tourist attraction. The space wars ended long ago. The Freedom is now a flying museum. The tourists love it. The Changing of the Guard, the starfighter aerobatics, the starboard cannon salute . . . it's the best show in the galaxy. James King commands the starship Freedom. He hates his job. He was a real soldier once. Back when the Freedom was a real warship. He never imagined himself running a tourist trap. Right after Christmas, he plans to retire. Then, on Christmas day, the aliens attack. Horrifying aliens. Creatures of claws, fangs, and endless malice. Within

hours, they devastate Earth's military. Millions die. So much for retirement. The aliens spare the starship Freedom. After all, she's only a tourist attraction. But not to Commander King. He will get his beloved starship battle-ready. He will enter the fight. The Freedom will fly to war again!

In the year 2280, an alien fleet attacked the Earth. Their weapons were unstoppable, their defenses unbreakable. Our technology was inferior, our militaries overwhelmed. Only one starship escaped before civilization fell. Earth was lost. It was never forgotten. Fifty-two years have passed. A message from home has been received. The time to fight for what is ours has come. Welcome to the rebellion.

I have never been one for history. It was the past. But history was dropped in my lap the day two dusty, dirty boxes were discovered in the old farmhouse where my mother was born. As I opened the lids, I was immediately thrown back in time. I was now in the 1940's and caught in the realms of WWII. From the air over the Pacific to the cold harsh winter of the Ardennes in Europe, this is a daughter's story as told to her by her fathers. The enemy is coming. The enemy is already here. For years they've prepared. Plotted. Planned. For years they've waited to strike. From above... ..and below. Earth is under siege. The enemy covers the landscape. Proxima is unharmed. But that's about to change. No armies can stop this menace. No defenses can slow the advance. We are scattered and isolated. We are ignorant and weak. No help is coming. No help remains... ..or does it? Old heroes will sacrifice everything. New heroes will rise. Join them.

SERIES FINALE!!! The enemy marches on. While hope is fading, all is not lost.

Grayson has information that could change the outcome of the war. He's beaten but not broken and ready to rejoin the fight. Except his failing starship is weeks away from the nearest port. Except slowing the aliens means convincing sworn enemies to join forces in a fight they cannot win. Except his only chance at victory may rest in a derelict ship floating beyond the edge of space. Earth is in the enemy's crosshairs and time is running out. It'll take every last bit of strength, courage, and resolve Grayson possesses to stop the invasion before it's game over. Or is it already too late?

Evil is coming to the pristine cradle world of Eridu. The crew of 216 Kleopatra is fracturing under the strain of seven years of isolation. On Mars, the pirate clans honor their fallen comrades from the Battle of Callisto. The Emperor of Earth is threatening war with Mars. And Azrael is brought before his celestial superiors to answer for the escape of the Fallen Ones. In Book 2 of THE WATCHERS OF UR, the forces of good and evil prepare for a final clash that will determine the fate of Eridu, and the future course of human history.

The devil you know or the one you don't? For the Demon Queen and her Rejects, things are guaranteed to get ugly whichever they choose. On the plus side: They know where the Nephilim fleet is being built, they've got a killer new ride, a few surprising new allies, and they don't all hate one another quite as much as they used to. On the minus: The enemy fleet is coming online faster than they hoped, the new ride is running on backup life support, the new allies can barely be trusted, and there isn't anywhere in the galaxy where Thraven can't reach. There's nowhere to rest. There's no time to reload. The stakes are higher, the pressure is up, and only one thing is certain: One way or another, there's going to be hell to pay.

Since the end of World War II, there has been a stream of publications about the War in Europe, but despite the volume of literature, interest in the topic remains high. Given the significance of this conflict and the interest in this campaign, the Strategic Studies Institute offers a fresh look at the campaign in Europe. This publication begins with an examination of prewar planning for various contingencies, then moves to the origins of "Germany first" in American war planning. The authors then focus on the concept, favored by both George C. Marshall and Dwight D. Eisenhower, that the United States and its Allies had to conduct a cross-channel attack and undertake an offensive aimed at the heartland of Germany. Following the background provided in these initial chapters, the remainder of the book provides a comprehensive discussion outlining how the European Campaign was carried out.

----- A lost starship... A dire warning from futures past... A desperate search for salvation... ----- Captain Mitchell "Ares" Williams is a Space Marine and the hero of the Battle for Liberty, whose Shot Heard 'Round the Universe saved the planet from a nearly unstoppable war machine. He's handsome, charismatic, and the perfect poster boy to help the military drive enlistment. Pulled from the war and thrown into the spotlight, he's as efficient at charming the media and bedding beautiful celebrities as he was at shooting down enemy starfighters. After an assassination attempt leaves Mitchell critically wounded, he begins to suffer from strange hallucinations that carry a chilling and oddly familiar warning: They are coming. Find the Goliath or humankind will be destroyed. Convinced that the visions are a side-effect of his injuries, he tries to ignore them, only to learn that he may not be as crazy as he thinks. The enemy is real and closer than he imagined, and they'll do whatever it takes to prevent him from rediscovering the centuries lost starship. Narrowly escaping capture, out of time and out of air, Mitchell lands at the mercy of the Riggers - a ragtag crew of former commandos who patrol the lawless outer reaches of the galaxy. Guided by a captain with a reputation for cold-blooded murder, they're dangerous, immoral, and possibly insane. They may also be humanity's last hope for survival in a war that has raged beyond eternity.

Some things are meant to stay forgotten... Former Centurion Space Force Captain Nathan Stacker is a criminal. He isn't proud of it, but the truth is there aren't many options for men like him in a place like Proxima - humankind's closest settlement to Earth. It's surprisingly hard to make a clean start on a planet with a population of over one hundred million, and the only thing keeping him out of a containment center is a job as a courier for the Trust - the planet's ruthless crime syndicate. It isn't the life he dreamed of when he entered the Space Force, but at least he has a wife who loves him. Everything changes when Nathan returns home to find her violently murdered, killed over a dangerous secret he never knew she held. Charged with her homicide, desperate to uncover the truth and avenge her death, Nathan launches a bold escape to the only place in the universe he thinks he'll be safe: Earth. He couldn't be more wrong. He's about to learn that some secrets are bigger than a planet. Some secrets are impossible to escape. And some secrets have the power to destroy more than one life and more than one world. Some secrets have the power to destroy everything. On an Earth decimated by war, a lone gunslinger delivers justice, protecting the

innocent and righting the wrongs of a broken world. Some call him lawman. Some call him madman. Some call him vigilante. Some call him killer. Some call him legend. They all call him... ..the Sheriff. This is chapter two of his story. In the tradition of classic westerns and set against a post-apocalyptic sci-fi backdrop, if you like Fallout, Firefly, Mad Max, or the Dark Tower, you'll love The Sheriff.

The Deliverance isn't alone. That's not a surprise. The planet was chosen for a reason. But the situation is more dire than Caleb ever imagined. The enemy he's encountered isn't the enemy he was seeking, and the conflict is expanding in ways he can barely conceive. Taken prisoner by an opponent both familiar and foreign, he'll have to prove himself one more time... Or watch everything he's fought so hard to protect be destroyed. Destruction is the fourth book in the Forgotten Colony series. If you love Aliens, Battlestar Galactica, Starship Troopers, Ender's Game, or Edge of Tomorrow, you'll love this epic military sci-fi thriller.

A memory recovered. A weapon forged. A showdown an eternity in the making. Colonel Mitchell "Ares" Williams has won battles before. So while the recovery of the eternal engine and the emergence of a powerful new ally have given him hope that he can save humanity from enslavement and annihilation, he knows the war against the Tetron is far from over, and victory far from assured. When a mission gone sideways finds the Riggers cut off and the enemy closing in, Mitchell has no choice but to forget about strategy and improvise, risking everything in a last-ditch effort to bring the starship, Goliath, back where it belongs. Because if he doesn't, there won't be any battles left to win."
