Two days after the terrible attack against the World Trade Center on September 11, 2001, a union construction worker made a remarkable discovery within the ruins of World Trade Center 6. He saw a cross-like beam that stood on top of a heap of debris. He was stunned by its significance as were countless others after him. The purpose of this book is to trace the thirteen-year odyssey of this iconic cross from World Trade Center 6, to its position atop a concrete abutment within the World Trade Center during the recovery and rebuilding period, to the outside wall of St. Peter's Roman Catholic Church across from Ground Zero and finally to the National 9/11 Memorial Museum where it remains today. The odyssey also includes a three-year legal battle whose appellate decision found that the Constitution of the United States does not preclude the presence of the Ground Zero cross within the National 9/11 Memorial Museum. This book is the author's personal memoir. He is a Franciscan priest who, through many uncertain days, was the unofficial guardian of the Ground Zero cross. The concurrent themes of the book treat spirituality, grief sharing, selfless sacrifice, architecture, church history, biblical theology, and litigation. The book tells the story of many obstacles transcended on the way to the triumph of the Ground Zero cross. 2000 reusable geometric color-mixing vinyl stickers, plus six play scenes and three blank pages encourage youngsters to create animals, people, and objects.

At 81, the Italian designer and architect Gaetano Pesce is one of the world's greatest living innovators. Best known for his radical embrace of ordinary, unconventional materials of his time, he has constructed enormous pink buildings from foam, sofas that resemble jester hats, large-scale portraits from hand-poured resin and vases that bend and wobble. A pioneer in design, he's advocated for decades for the injection of human elements and error into mass produced design. This book is the first of its kind on Pesce, now in the twilight years of his career. It includes an interview with Pesce-come-essay by the critic Sophie Haigney, intimate portraits by Duane Michals, and four newly commissioned photographic series that take his work out into the world, allowing different image-makers to understand and connect with it for themselves.
