This trading ledger was created by an active stock trader and allows the user to make detailed journal entries of all of their trading activities. Numerous psychological studies have determined that the best way for humans to learn is by writing things down with pen and paper, and then reviewing this information periodically. The author of this ledger holds a degree in psychology and used his knowledge of human learning to develop an intuitive ledger that allows traders to clarify their thoughts on paper and analyze all of their transactions. Even the cover has been designed with vivid colors and a retro pattern to evoke the limbic system of the brain and encourage organization of thought processes. This workbook has been laid out in a manner to make effective use of goals, trading plans, and strategies by allowing the trader to keep a visual record of their progress. Created by best-selling author Ashbee A. Bakht, the trading ledger is printed on high quality paper and is published in a compact format making it easy to carry with you no matter where you choose to trade. The formatting of the workbook has been designed with special attention paid to allow for it to be flexible enough for all trading strategies (i.e. intraday/day/swing/long term, etc.).

The Most Trusted Almanac Used by Savvy Investors to Profit Year after Year! Created by Yale Hirsch in 1967, the Stock Trader's Almanac has delivered money-making insights and strategies to investors for more than six decades. The Almanac originated such important market phenomena as the "January Barometer" and the "Santa Claus Rally" and was instrumental in popularizing other tradable strategies, such as "The Best Six Months Strategy" (commonly known as "Sell in May and Go Away") and the four-year Presidential Election Cycle. Mr. Hirsch imparted his knowledge of the stock market to his son, Jeffrey Hirsch, who joined the organization as a market analyst and historian under the mentorship of his father in 1990 and became editor-in-chief some years later. Even since, Jeff has carried on his father's tradition of constantly improving the Stock Trader's Almanac and has been tireless in his efforts to explain how investors can use the Stock Trader's Almanac to beat the market. Jeff regularly appears on major news networks such as CNBC, CNN and Bloomberg; he is quoted extensively in major newspapers and financial publications; and he is in high demand as conference speaker. In short, he is the media's "go-to guy" on all things related to applying the lessons of history to today's stock market. The 2022 Stock Trader 's Almanac, the 55th Annual Edition, continues its rich tradition of showing you the cycles, trends, and patterns you need to know in order to trade and/or invest with reduced risk and for maximum profit. Trusted by Barron's, The Wall Street Journal, the New York Times, and many other respected market authorities, this indispensable guide has helped generations of investors.
