Author Nathaniel Tilton was just a regular guy with a regular job when he read Bringing Down the House and decided he wanted to do what the players in that book did. A journey through the inner world of card counting, the lessons of teamwork, and the clandestine pursuit of beating the odds, in The Blackjack Life Tilton relates the story of his personal journey through the smoke-filled casinos in which he and his playing partner gambled, to the seedy backrooms that he hoped he would never see. More than just wins and losses, The Blackjack Life is about the growth of a man who discovered himself through the unlikeliest of places – the world of professional blackjack -- and who now shares his informed view of the opportunities that still exist for skilled players and what it's really like to travel that road today.

Many poker players can make good decisions at the table with a reasonable frequency. Nevertheless, there are numerous situations where even very experienced players behave in predictable ways. These deeply-ingrained habits lead them to make mistakes. The problem is that these situations won't often arise at the table by chance ⎯ you have to make them happen. Exploitative Play in Live Poker is a ground-breaking work that teaches you how to create the circumstances where your opponents will be likely to blunder and how to exploit them when they do. To achieve this you will need to put to one side starting hand charts, balance and GTO (Game Theory Optimal) play. Instead you will incorporate new concepts that may well place you outside your comfort zone. However, your style will now be forcing the other players at the table outside of their comfort zone and, unlike you, they won't know how to adapt. Learn how to: Counter the auto-continuation-bettorDevelop a powerful donk-betting strategyUse the overbet, the check-raise and the three-barrel effectively As well as being a highly successful player, Alex Fitzgerald runs a poker consultancy that serves more than 1,000 professional poker players in 60 countries. As part of this work, he has very likely trawled through more hand history databases than anyone else. This gives him a unique insight into how players really play, especially when placed under pressure and forced into unfamiliar situations.

With smartphones becoming cheaper each and every Time, the mobile gaming market has boomed. Today, we have come a long way from that simple ever-growing snake game. With the dawn of Temple Run, mobile gaming saw a new revolution. From the usual simple, single goal oriented games, we switched to never ending games that had multiple missions! Subway Surfers is one of those games. Created by Kiloo & SYBO games, the game is a never-ending game. A character, a male or female teenager or young adult, who is vandalizing a subway train with some spray paint, represents the player. An Inspector and his dog then catch the character in the act and the aim of the game is to run away from the two and not get caught. The game has a "World Tour" theme and the location of the game is changed on a monthly basis, such as Rio de Janeiro, Tokyo, Sydney, Mumbai, New York, Rome, Miami, etc. The game starts out with you playing "Jake," the default character. As the game progresses, you can use tokens or coins to unlock more characters and outfits. The game is currently available on three platforms - Windows Phone, Android and iOS.
