

Tax Diary 2018/19

From defining your wedding style to bringing your vision to life, *The Budget-Savvy Wedding Planner* helps couples plan the day of their dreams without spending a small fortune. Offering the newly engaged everything they need to get organized and stay sane, this is the ultimate planner for beautiful and affordable weddings. Wedding planning expert and founder of *The Budget-Savvy Bride*, Jessica Bishop, helps you plan your big day on a small budget—despite skyrocketing costs and industry traps. In this planner, she shares over a decade of insider knowledge and essential planning tools to help couples turn their vision into reality. Providing a refreshing perspective and smart tips, *The Budget-Savvy Wedding Planner* makes planning the perfect celebration simple, streamlined, and stress-free. Worksheets, Checklists, Timelines and other write-in tools to plan for everything from the venue to the dress to the music, Hundreds of Money-Saving Tips to cut costs, Sample Budgets from real couples and cost breakdowns for every part of your ceremony

Tax Diary 2018/19 Createspace Independent Publishing Platform

Each year, over 40,000 new students enter America's law schools. Each new crop experiences startlingly high rates of depression, anxiety, fatigue,

and dissatisfaction. Kathryn M. Young was one of those disgruntled law students. After finishing law school (and a PhD), she set out to learn more about the law school experience and how to improve it for future students. Young conducted one of the most ambitious studies of law students ever undertaken, charting the experiences of over 1000 law students from over 100 different law schools, along with hundreds of alumni, dropouts, law professors, and more. *How to Be Sort of Happy in Law School* is smart, compelling, and highly readable. Combining her own observations and experiences with the results of her study and the latest sociological research on law schools, Young offers a very different take from previous books about law school survival. Instead of assuming her readers should all aspire to law-review-and-big-firm notions of success, Young teaches students how to approach law school on their own terms: how to tune out the drumbeat of oppressive expectations and conventional wisdom to create a new breed of law school experience altogether. Young provides readers with practical tools for finding focus, happiness, and a sense of purpose while facing the seemingly endless onslaught of problems law school presents daily. This book is an indispensable companion for today's law students, prospective law students, and anyone who cares about making law students' lives better. Bursting with warmth, realism, and a touch of

firebrand wit, How to Be Sort of Happy in Law School equips law students with much-needed wisdom for thriving during those three crucial years.

CONTENT 1. Income Tax—An Introduction, 2. Important Definitions, 3. Assessment on Agricultural Income, 4. Exempted Incomes, 5. Residence and Tax Liability, 6. Income from Salaries, 7. Income from Salaries (Retirement and Retrenchment), 8. Income from House Property, 9. Depreciation, 10. Profits and Gains of Business or Profession, 11. Capital Gains, 12. Income from Other Sources, Examination Paper SYLLBUS Unit-I :Tax System : Meaning of Tax, Features and Objectives. Role of Taxes in Indian Economy. Direct Tax in India—General Introduction of Central, Provincial and Local Direct Taxes. Unit-II :Characteristics and Main Features of Income Tax. Contribution of Income Tax in Public Revenue. Important Definitions, Previous Year, Assessment Year, Gross Total Income, Total Income, Person, Agricultural Income. Residential Status and Tax Liability. Exempted Income. Unit-III :Computation of Taxable Income of Salaried Persons. Exempted Items and Computation of Taxable Income in Case of Retirement. Unit-IV : Computation of Taxable Income from House Property. Calculation of Taxable Income from Business or Profession. Provisions Relating to Calculation of Income on Estimated Basis of Small Traders, Contractors, Transporters and Professionals. Unit-V :Capital

Gains—Calculation of Taxable Capital Gain/Loss on Short Term & Long Term Capital Assets. Exemption for Capital Gains. Computation of Income from other Sources.

The Diaries of a Prisoner

It's summertime, and the living is easy, the ice cream is cold, and the temperature is so hot your brains will melt right out of your head. Mooch and Earl are eager to make the most of it, lounging in the backyard pool, building sandcastles on the beach, and exchanging knock-knock jokes with a dolphin. From whales and tsunamis to lemonade and Bermuda shorts, this Mutts collection is packed full of summer fun!

A memoir like no other, from a cricketing expert known for speaking his mind This book is about me, my cricket career,

my life. My strengths and weaknesses, my successes and failures. Every individual lives a uniquely different life. Life stories are always interesting. No one leads an uneventful life. Having been a sportsman, I also want young, aspiring sportsmen to learn from my career. Like a father once said to his son: 'I made twenty mistakes in my life, you'll make twenty new ones.' In *Imperfect*, Sanjay Manjrekar uses his famous analytical powers to look back on his own career as a cricketer. His photographic memory takes the reader along on his journey from the dusty maidans of Mumbai to the world stage as the combative batsman faces up to the fearsome West Indian and Pakistani pace attacks. In his precise plainspeak, Sanjay reflects on his father Vijay Manjrekar and the effects of his personality on his game. He comments on the complex equations with the India greats with whom he shared the dressing room, and on the lessons learnt from his opponents. He also reveals his own excruciating obsession with batting technique, the quest for perfection, and the battle to shake off his mental shackles. *Imperfect*

sets a new standard for cricket writing in India, with significant life lessons even for those who aren't cricket fans.

Powerful and visually spectacular, *Moth* is the remarkable evolution story that captures the struggle of animal survival against the background of an evolving human world in a unique and atmospheric introduction to Darwin's theory of Natural Selection. "This is a story of light and dark..." Against a lush backdrop of lichen-covered trees, the peppered moth lies hidden. Until the world begins to change... Along come people with their magnificent machines which stain the land with soot. In a beautiful landscape changed by humans how will one little moth survive? A clever picture book text about the extraordinary way in which animals have evolved, intertwined with the complication of human intervention. This remarkable retelling of the story of the peppered moth is the perfect introduction to natural selection and evolution for children.

SMR was the final module to take in the past. Now it becomes module 1 of the new part 2 exam. Is it tough? Well, in a sense, yes. It is tough because there is no fixed answer to the test questions. You are asked to choose the best possible

answer among all potentially OK answers. Also, most questions are long and with complicated scenarios to confuse you. To pick up the "politically correct" answers you have to use your business sense to make judgment on a case by case basis. SMR is all about supply-side management at a higher global and strategic level. What is serious supply management all about? Accenture has developed seven principles of supply-chain management: 1. Segment customers based on their service needs. 2. Design the logistics network based on service requirements. 3. Listen to the signals of market demand and plan accordingly. 4. Differentiate products based on actual consumer demand. 5. Strategically manage the sources of supply. 6. Develop a supply-chain-wide technology strategy. 7. Adopt measures that apply to every link in the supply chain. Because of advances in manufacturing and distribution, the cost of developing new products and services is dropping, and time to market is speeding up. This has resulted in increasing customer demands, local and global competition, and increased pressure on the supply chain. To stay competitive, companies must reinvent themselves so that the supply chain-sourcing and procurement, production scheduling, order fulfillment, inventory management, and customer care-is no longer a cost-based back-office exercise, but rather a flexible operation designed to effectively address today's challenges. If you have been specializing in manufacturing or shop floor functions, it is now the time to move yourself to a managerial position - you need to see things from a broader MBA style perspective. Considered Dickens' harshest indictment of mid-19th-century industrial practices

and their dehumanizing effects, *Hard Times* offers a fascinating tapestry of Victorian life, filled with the richness of detail, brilliant characterization, and passionate social concern that typify the novelist's finest creations.

TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by TERI since 1986. It is the only comprehensive energy and environment yearbook in India that provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, household, buildings), and environment (local and global). Recent changes in the energy sector and environment are depicted with the help of graphs, figures, maps, and tables. The publication also reviews government policies associated with energy and environment. TEDDY 2021/22 gives an account of India's commercial energy balances, extensively covering energy flows

within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable reference for researchers, scholars, and organizations engaged in energy and related sectors. Contents of the book are organized into three sections—Energy Supply, Energy Demand, and Local and Global Environment. Interlinkage of SDGs with energy and environment also forms the subject matter of TEDDY 2021/22. The thirty seventh edition continues to remain less prose intensive with inclusion of more data, represented with the help of infographics, thus making the publication an authentic and interesting read. Key Features: - Provides a review of government policies, programmes, and initiatives that have implications for energy sector and the Indian economy - The analyses are based on the exhaustive data, sourced from energy supply, energy demand, and local and global environment sectors - Traces the trend exhibited by energy generation and consumption and its association with the environment Contents: Energy and environment: an overview Energy supply: Coal and lignite • Petroleum and natural gas • Power • Renewable energy Energy demand: Agriculture • Industry • Transport • Household energy • Buildings Local and global environment: Air • Solid waste management • Water resource management • Land and forest resource management • Climate change Audience: Researchers and Professionals from industries, government organizations, and public sector undertakings. Research scholars from different NGOs, bilateral and multilateral institutions, and academic institutions. Shelving: Energy, Environmental Sciences and Studies, Industry (Coal and lignite, oil and

gas, power, renewable energy), climate change, Agriculture sector, Transport sector, domestic sector For sample chapters and Sankey diagram, please visit: www.teriin.org/projects/teddy List of Tables Coal and Lignite 1 New environmental norms for TPSs 2 FGD implementation status of TPSs—general summary (capacity in MW) 3 FGD implementation status of TPSs situated in NCR (capacity in MW) · Pithead run of mine price of non-coking coal applicable for Eastern Coalfields Limited, Bharat Coking Coal Limited, Central Coalfields Limited, Northern Coalfields Limited, Mahanadi Coalfields Limited, South Eastern Coalfields Limited, and North Eastern Coalfields Limited, with effect from 27 November 2020 · Revised price of coking coal for NRS · Pit head price of non-coking coal applicable for Western Coalfields Limited, with effect from 27 November 2020 Petroleum and Natural Gas 1 Hydrocarbon reserve status (as on 1 April 2021) 2 Trend in installed refining capacity of Indian refineries (in MTPA) 3 Trend in subsidies for the sale of petroleum and natural gas in India 4 List of taxes for the production and sale of crude oil in India 5 List of taxes for the production and sale of natural gas in India 6 Retail selling price and taxes on petrol and diesel in India and other countries in 2019/20 7 Phasing of minimum work programme 8 Trend in CNG stations, CNG vehicles, and CNG sales in India 9 Allocation for MoPNG under the budget estimate for 2021/22 · City gas distribution bidding parameters · Year-wise work programme for successful CGD bidders · Major crude oil and product pipeline network (as on 1 April 2022) · Existing major LPG and petroleum products' pipelines in India (as on 31 March

2021) · Status of existing natural gas pipeline infrastructure · Price build-up of subsidised domestic LPG in Delhi as on 1 April 2022 · Price build-up of PDS SKO in Mumbai as on 1 April 2022 · Price buildup of MS (petrol) in Delhi as on 1 April 2022 · Price buildup of HSD in Delhi as on 1 April 2022 · Present status of CGD infrastructure in India Power 1 Sector-wise fuel-wise break-up of achieved capacity addition (in MW) 2 Addition in transmission lines and transformation capacity 3 Plan-wise growth of transmission lines (220 kV and above) 4 Import/export of energy by India from/to neighbouring countries (in MU) 5 Status of eight states as on 31 March 2021 6 Comparison of length of lines operating at various voltages as on 31 March 2021 7 Achievements in infrastructure under electrification schemes by Ministry of Power 8 Set targets and achievements under IPDS system 9 Details of electricity infrastructure created under DDUGJY (including additional infra) as on 31 October 2021 10 Set targets and achievements under UDAY scheme 11 Inter-regional power transfer capacity of national grid during the last three years 12 Sanctioned smart grid pilot projects and implementation status Agriculture 1 Production, imports, and consumption of fertilizers (thousand tonnes of nutrients) 2 Shift in different sources of commercial energy consumption in Indian agriculture (in %) 3 Source-wise net irrigated area in India (in Mha) 4 Irrigation water productivity of rice, wheat, and sugar cane in major growing states 5 On-farm solar energy interventions linking water and land use in different states in India · Policy categories and key nodal agency impacting energy use in agriculture · Electricity consumption in

agriculture sector Industry 1 Brief overview of different PAT cycles for aluminium sector 2 Production of aluminium (in tonnes) 3 SEC in aluminium smelting 4 Brief overview of different PAT cycles for cement sector 5 Cement production 6 Indian and global average specific energy consumption of cement plant 7 Brief overview of different PAT cycle for chlor-alkali sector 8 Production of alkali chemicals 9 Section-wise energy consumption in caustic soda production 10 Brief overview of different PAT cycles for fertilizer sector 11 Production of urea, DAP and complex fertilizers (in MT) 12 Benchmarking energy consumption in the fertilizer sector 13 Brief overview of different PAT cycles for iron and steel sector 14 Crude steel production and capacity utilization 15 Comparison of Indian and international SEC for steel industry 16 Brief overview of different PAT cycles for pulp and paper sector 17 Benchmarking energy consumption in different industry groups of pulp and paper sector 18 Brief overview of different PAT cycles for textile sector 19 Production of yarn and fabric 20 Brief overview of different PAT cycles for petrochemical sector 21 Production (in MT) of major petrochemicals Transportation 1 Road category along with the length (in km) for 2018 and 2019 2 Cargo traffic handled at major ports (in tonne) in 2021/22 3 Cargo traffic handled at non-major ports (in tonne) for 2021/22 4 Number of projects and project cost under Sagarmala · App-based solution project in round II cities · Growth of metro rail over the years · Number of E-buses sanctioned under FAME-II scheme Household Energy 1 A timeline of government acts, policies, and schemes for providing energy access to households · Per capita consumption during 2019 · Per

capita consumption of electricity in India · Energy consumption by countries · Village electrification in India · State-wise monthly average duration of power cuts in urban areas at 11 kV feeder level during May 2019 · Distribution of households based on energy source for lighting · Source of energy for cooking in residential sector in India · Percentage distribution of households by primary energy source for lighting (2001/02-2011/12) · Percentage distribution of households by primary energy source for lighting (2001/02-2011/12) · Percentage distribution of households by primary energy source for cooking (2001/02-2011/12) · Consumption of LPG and kerosene · Residential consumption of LPG Buildings 1 Climate characteristics 2 Suggested P/A ratios for cooling dominated regions 3 Climate-specific shading responses for passive cooling 4 Green building rating systems and daylight benchmarks 5 Status of energy-efficiency policies in India Air 1 State-/UT-wise distribution of manual and continuous monitoring stations in operation under NAMP 2 Revised ambient air quality standards 3 Breakpoints for AQI scale: 0-500 4 Active fire counts on crop land in different states of India during the last 10 years 5 Stack emission standards for major air-polluting industries 6 New emission standards for thermal power plants 7 Emission standards for two-wheeler and three-wheeler categories 8 Emission standards for four-wheeler category 9 Emission norms for heavy diesel vehicles 10 Emission standards for generator sets 11 Deaths attributable to air pollution along with total and per-capita economic loss due to premature deaths and morbidity attributable to air pollution in the states of India 12 Dose response

study of short-term effects of criteria air pollutants on all daily mortality in India
13 Dose response study of short-term effects of criteria air pollutants all-cause mortality around the globe
14 Recent policies in different sectors to improve air quality in India
15 Planned and proposed source apportionment studies under NCAP and their status as of May 2022 · Comparison of ambient air quality standards of different countries · Number of days different states exceeded the NAAQS of PM2.5 · Summary of estimated source contributions including the contribution of sources outside the city air sheds · Studies conducted relating to health effects of air pollution
Solid Waste Management · MSW gasification technologies · Various treatment technologies for plastic waste and their environmental impacts · Recycling facilities located in different cities of India · Management of C&D waste in major cities of India
Water Resource Management

Your Federal Income Tax for Individuals

TERI Energy & Environment Data Diary and Yearbook (TEDDY) 2018/19

The Beginnings

Income Tax Law & Practice by Dr. R. K. Jain

TERI Energy & Environment Data Diary and Yearbook (TEDDY) 2019/20

The Budget-Savvy Wedding Planner & Organizer

This is a bespoke diary that runs from 6 April 2018 to 5 April 2019, matching the UK tax year. It is 6" x 9" in size, has large clear text and is

paperback. Each day has one full page allocated to it.

“Smart, literate, funny.” —Lev Grossman, author of *The Magicians* Someone is dead set to air the spy agency’s dirty laundry in *The Delirium Brief*, the next installment to Charles Stross’ Hugo Award-winning comedic dark fantasy *Laundry Files* series! Bob Howard’s career in the Laundry, the secret British government agency dedicated to protecting the world from unspeakable horrors from beyond spacetime, has entailed high combat, brilliant hacking, ancient magic, and combat with indescribably repellent creatures of pure evil. It has also involved a wearying amount of paperwork and office politics, and his expense reports are still a mess. Now, following the invasion of Yorkshire by the Host of Air and Darkness, the Laundry’s existence has become public, and Bob is being trotted out on TV to answer pointed questions about elven asylum seekers. What neither Bob nor his managers have foreseen is that their organization has earned the attention of a horror far more terrifying than any demon: a British government looking for public services to privatize. Inch by inch, Bob Howard and his managers are forced to consider the truly unthinkable: a coup against the British government itself. *Laundry Files* 1. *The Atrocity Archives* 2. *The Jennifer Morgue* 3. *The Fuller Memorandum* 4. *The Apocalypse Codex* 5.

The Rhesus Chart 6. The Annihilation Score 7. The Nightmare Stacks

TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by TERI since 1986. It is the only comprehensive energy and environment yearbook in India that provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, household, buildings), and environment (local and global). Additionally, the publication reviews government policies and analyses latest policy discourses that have implications on India's energy and environment sector. TEDDY 2018/19 gives an account of India's commercial energy balances, extensively covering energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable reference for researchers, scholars, and organizations engaged in energy and related sectors. After the introductory chapter, TEDDY 2018/19 is divided into three sections—Energy Supply, Energy Demand, and Local and Global Environment. One of the main highlights of TEDDY 2018/19 is the addition of a new chapter—Buildings—under Energy Demand section. This chapter gives an in-

depth analysis of India's energy consumption by the buildings sector, and highlights the role of energy efficiency in buildings from the perspectives of both economy and environment. The thirty-fourth edition of TEDDY continues to remain less prose intensive with inclusion of more data, represented with the help of infographics, thus making the publication an authentic and interesting read. TEDDY 2018/19 also features a section on interlinkages of SDGs with energy and environment. Key Features:

- Provides a review of government policies, programmes and initiatives that have implications for the petroleum and natural gas sector and the Indian economy
- New chapters on Air Pollution, Solid Waste Management, Water Resource Management, and Land and Forest Resource Management
- Exhaustive data from energy supply, energy demand, and local and global environment sectors

Contents: Energy and environment: an overview
Energy supply: Coal and lignite • Petroleum and natural gas • Power • Renewable energy
Energy demand: Agriculture • Industry • Transport • Household energy • Buildings
Local and global environment: Air quality and pollution • Solid waste management • Water resource management • Land and forest resource management • Climate change

A complete list of individual tax relief opportunities J.K. Lasser's 1001

Deductions and Tax Breaks 2019 is the complete and thorough guide to reducing your tax burden. By listing every possible deduction and credit available to individual taxpayers, this book can help you achieve substantial savings on your 2018 tax return. Updated and expanded to cover new and changing tax law, this edition also includes an e-supplement covering the latest developments from Congress and the IRS to keep you fully up-to-date. Stop overpaying and gain peace of mind as you find the answers you need for your specific tax situation. Mine your paperwork for write-off opportunities, and claim your tax breaks correctly; easy-to-follow instructions give you clear guidance through the maze of worksheets to help you reclaim what is legally yours. Echoing cries of "Can I claim...?", "How do I deduct...?", "Where do I find...?" mean it's tax season again, and America's most trusted tax advisor is here to take away the stress. Find answers, save money, and streamline the filing process. Examine your records for deduction opportunities Identify each and every deduction for which you qualify Learn about new or updated deductions for your 2018 return See what types of income are tax free Claim correctly, with the appropriate forms and evidence Deductions and credits were put in place precisely to help everyday people like yourself keep more of their hard-

earned money—but only if you claim them. Instead of mounting an expedition into impenetrable tax code, let an expert do the legwork for you: J.K. Lasser's 1001 Deductions and Tax Breaks 2019 gives you the straightforward, no-nonsense information you need to stop overpaying and keep more of what's yours.

TERI Energy & Environment Data Diary and Yearbook (TEDDY) 2020/21

Your Complete Guide to a Better Bottom Line

TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by TERI since 1986. It is the only comprehensive energy and environment yearbook in India that provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, household, buildings), and environment (local and global). Recent changes in the energy sector and environment are depicted with the help of graphs, figures, maps, and tables. The publication also reviews government policies associated with energy and environment. TEDDY 2019/20 gives an account of India's

commercial energy balances, extensively covering energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable reference for researchers, scholars, and organizations engaged in energy and related sectors. Contents of the book are organized into three sections—Energy Supply, Energy Demand, and Local and Global Environment. Interlinkage of SDGs with energy and environment also forms the subject matter of TEDDY 2019/20. The thirty fifth edition continues to remain less prose intensive with inclusion of more data, represented with the help of infographics, thus making the publication an authentic and interesting read. Key Features:

- Provides a review of government policies, programmes and initiatives that have implications for the petroleum and natural gas sector and the Indian economy*
- New chapters on Air Pollution, Solid Waste Management, Water Resource Management, and Land and Forest Resource Management*
- Exhaustive data from energy supply, energy demand, and local and global environment sectors*

Contents: Energy and environment: an overview Energy supply: Coal and lignite • Petroleum and natural gas • Power • Renewable energy Energy demand: Agriculture • Industry • Transport • Household energy • Buildings Local and global environment: Air quality and pollution • Solid waste management • Water resource management • Land and forest resource management • Climate change Audience: Researchers and Professionals from industries, government organizations, and public sector undertakings. Research scholars from different NGOs, bilateral and multilateral institutions, and academic institutions. Shelving: Energy, Environmental Sciences and Studies, Industry (Coal and lignite, oil and gas, power, renewable energy), climate change, Agriculture sector, Transport sector, domestic sector

Exploring British Politics is a concise, comprehensive, and accessible guide to the subject. Fully updated and revised, the new edition covers developments since 2016 in the role of the executive, Parliament, the civil service, political parties, general elections, party ideology and membership, as well as examining turmoil and leadership battles within the Labour and Conservative parties, the politics of growing inequality, demographic trends and their political consequences, and the future of the UK itself. Stimulating critical analysis and lively debate, it provides new perspectives on two key themes – the health of British democracy and the transition from traditional models of government to more flexible forms of ‘governance’. Key features include: a comprehensive analysis of the 2019 general election, Brexit developments since the 2016 Referendum to today’s ongoing negotiations, and the shadow cast by the COVID-19 global pandemic and its implications; topical coverage of the fall of the Corbyn and May leaderships, the new Starmer and Johnson era, the rise and fall of the ‘Change UK’ party, the economic crisis, the role of special advisers, new social movements such as Extinction Rebellion and Black Lives Matter, and much more; extensive guides to further reading at the end of each chapter; and rich illustrations visually representing examples and data. Whilst the book provides an essential historical background, contemporary issues are to the fore throughout and readers are encouraged to assess critically received wisdoms and develop their own thoughts and ideas. Whether studying the subject for the first time or revisiting it, Exploring British Politics is the ideal undergraduate text.

TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by The Energy and Resources Institute (TERI) since 1986. It is the only

comprehensive energy and environment yearbook in India which provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, residential, and commercial sectors), and environment (local and global). The publication also provides a review of the government policies that have implications for these sectors of the Indian economy. Each edition of TEDDY contains India's commercial energy balances for the last four years that provide comprehensive information on energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable ready reckoner for researchers, scholars, and organizations working on energy sector. After the introductory chapters, for the ease of readers, TEDDY has been divided into sections on energy supply, energy demand, and local and global environment. Interactive graphs, figures, maps, and tables have been used throughout the chapters to explain facts, which make the book an interesting read. In addition, detailed tables at the end of each chapter represent statistical data on each of the above-mentioned sectors. The publication is accompanied by a complimentary CD containing full text. The publication has more than 15,000 readers across the globe and is often cited in international peer reviewed journals and policy documents.

Key Features:

- Exhaustive compilation of data from energy supply and demand sectors
- Recent data along with data from the past years covered in the form of structured and easy-to-understand tables
- Recent advances made in the energy sectors
- Self-explanatory figures and graphs showing the latest trends in various sectors
- The □Green Focus□ at the end of every chapter highlights a topical issue
- A complimentary CD that contains all the

chapters and additional tables

TERI Energy & Environment Data Diary and Yearbook (TEDDY) is an annual publication brought out by TERI since 1986. It is the only comprehensive energy and environment yearbook in India that provides updated information on the energy supply sectors (coal and lignite, petroleum and natural gas, power, and renewable energy sources), energy demand sectors (agriculture, industry, transport, household, buildings), and environment (local and global). Recent changes in the energy sector and environment are depicted with the help of graphs, figures, maps, and tables. The publication also reviews government policies associated with energy and environment. TEDDY 2020/21 gives an account of India's commercial energy balances, extensively covering energy flows within different sectors of the economy and how they have been changing over time. These energy balances and conversion factors are a valuable reference for researchers, scholars, and organizations engaged in energy and related sectors. Contents of the book are organized into three sections—Energy Supply, Energy Demand, and Local and Global Environment. Interlinkage of SDGs with energy and environment also forms the subject matter of TEDDY 2020/21. The thirty-sixth edition continues to remain less prose intensive with inclusion of more data, represented with the help of infographics, thus making the publication an authentic and interesting read. Key Features:

- Provides a review of government policies, programmes and initiatives that have implications for the petroleum and natural gas sector and the Indian economy*
- New chapters on Air Pollution, Solid Waste Management, Water Resource Management, and Land and Forest Resource Management*
- Exhaustive data from energy supply, energy demand, and local and global environment sectors*

Contents: Energy and

environment: an overview Energy supply: Coal and lignite • Petroleum and natural gas • Power • Renewable energy Energy demand: Agriculture • Industry • Transport • Household energy • Buildings Local and global environment: Air quality and pollution • Solid waste management • Water resource management • Land and forest resource management • Climate change Audience: Researchers and Professionals from industries, government organizations, and public sector undertakings. Research scholars from different NGOs, bilateral and multilateral institutions, and academic institutions. SEC Indian industries 2. Trend in consumption of select petroleum products in the transport sector in India (in MT) · Commercial energy balance (2019/20) · Commercial energy balance (2020/21) (P) Coal and Lignite 1 New environmental norms for TPSs 2 FGD implementation status of TPSs—general summary (capacity in MW) 3 FGD implementation status of TPSs situated in NCR (capacity in MW) · Pithead run of mine price of non-coking coal applicable for Eastern Coalfields Limited, Bharat Coking Coal Limited, Central Coalfields Limited, Northern Coalfields Limited, Mahanadi Coalfields Limited, South Eastern Coalfields Limited, and North Eastern Coalfields Limited, with effect from 27 November 2020 · Revised price of coking coal for NRS · Pit head price of non-coking coal applicable for Western Coalfields Limited, with effect from 27 November 2020 Petroleum and Natural Gas 1 Proved and probable reserves status during 2019/20 2 LNG terminals in India 3 Trend in installed refining capacity of Indian refineries 4

Trend in subsidies for the sale of petroleum and natural gas in India 5 List of taxes for the production and sale of crude oil in India 6 List of taxes for the production and sale of natural gas in India 7 Retail selling price and taxes on petrol and diesel in India and other countries in 2019/20 8 Trend in CNG stations, CNG vehicles, and CNG sales quantity in India · City gas distribution bidding parameters · Year-wise work programme for successful CGD bidders · Crude oil pipelines and capacity status · Petroleum products pipeline infrastructure status · Status of existing natural gas pipeline infrastructure · Price build-up of LPG in Delhi · Price build-up of superior kerosene oil (LPG) in Mumbai · Price build-up of MS in Delhi · Price build-up of HSD in Delhi · Status of domestic PNG connections, industrial, commercial PNG, and CNG connections (as on 31 May 2021) Power 1 Progress of substations in India up to March 2020 2 Import /export of energy by India into/from countries during 2019/20 3 Status of construction of Green Energy Corridors as on 31 December 2019 4 Works accomplished under IPDS 5 State/UT-wise AT&C loss performance (in %) 6 Average cost of supply, average revenue, and revenue gap 7 Selected state-/union territory-average tariff for sale of electricity in India (2007/08 to 2013/14) (in paise/kWh) 8 Sanctioned smart grid pilot projects and implementation status Renewable Energy 1 Status of solar parks in India 2 Top five players in solar PV 3 Benchmark costs for various solar thermal technologies Agriculture 1 Production, imports, and consumption of fertilizers ('000 tonnes of fertilizers) 2 Source-wise net irrigated area in India (in Mha) 3 Distribution of GHG emissions by sub-sectors from the agriculture sector in 2010 and 2016 (in GgCO₂e) 4 State-/UT-wise cold storage capacity as on 31 December 2019 5 Irrigation water productivity of rice, wheat and sugar cane in major growing states 6 State-/UT-wise cumulative installation of solar water pumps (as of 31

December 2020) 7 On-farm solar energy interventions linking water and land use in different states in India · Policy categories and key nodal agency impacting energy use in agriculture · Electricity consumption in the agriculture sector Industry 1 Brief overview of different PAT cycles for aluminium sector 2 Production of aluminium by primary aluminium producers (in tonnes) 3 SEC in aluminium smelting 4 Brief overview of different PAT cycles for cement sector 5 Cement production 6 Average and best practice energy consumption values for Indian cement plants by process 7 Brief overview of different PAT cycle for chlor-alkali sector 8 Production of chlor-alkali 9 Section-wise energy consumption in caustic soda production 10 Brief overview of different PAT cycles for fertilizer sector 11 Production of urea, DAP and complex fertilizers (in MT) 12 Benchmarking energy consumption in the fertilizer sector 13 Brief overview of different PAT cycles for iron and steel sector 14 Crude steel production and capacity utilization 15 Comparison of Indian and international SEC for steel industry 16 Brief overview of different PAT cycles for pulp and paper sector 17 Benchmarking energy consumption in different industry groups of pulp and paper sector 18 Brief overview of different PAT cycles for textile sector 19 Production of yarn and fabric in India 20 Typical energy requirements for different process in the textile industry 21 Brief overview of different PAT cycles for petrochemical sector 22 Production (in MT) of major petrochemicals in India 23 Share of different types of energy consumption in petrochemical plants (in %) 24 Energy for ethane and naphtha crackers Transport 1 Trend in consumption of select petroleum products in India 2 India's road network 3 Lane-wise length of national highways in India (in km) 4 Freight and passenger movement by roads 5 Major port-wise capacity utilization during 2018/19 (in MT) 6 Cargo traffic handled at ports in India (in MT) 7 Traffic

handled at non-major ports (in MT) 8 Funds allocated under Sagarmala scheme to coastal states/ UTs (2015/16–2018/19) 9 Cargo movement through inland waterways transport 10 Airports in India 11 Passenger traffic carried by scheduled airlines (in million) 12 Freight traffic carried by scheduled airlines (in thousand tonnes) 13 App-based transport projects under Smart Cities Mission 14 Operational metro rail length in Indian cities as of April 2021 · New acts/bills/rules · Status of various construction projects · Policies and programmes · Green initiatives Household Energy 1. A timeline of government acts, policies, and schemes for providing energy access to households · Per capita consumption of electricity · Per capita consumption of electricity in India · Total energy consumption by countries/regions · Village electrification in India · Reliability of power supply in rural and urban areas · DISCOM-wise monthly average duration of interruptions (July 2021) in 11kV rural and mixed feeders · Consumers (total and residential) of electricity in India · Distribution of households based on energy source for lighting · Source of energy for cooking in residential sector in India · Percentage distribution of households by primary energy source for lighting (2001/02–2011/12) · Percentage distribution of households by primary energy source for cooking (2001/02–2011/12) · Consumption of LPG and kerosene · Residential consumption of LPG and kerosene · Residential consumers of LPG · Electricity consumption and consumers in the residential sector Buildings 1. India's energy projections 2. Electricity demand by 2030 3. Air-conditioning and cooling capacity of India in 2016 4. Final energy consumption for space cooling in buildings 5. Status of energy-efficiency policies in India Air Quality and Pollution 1. State-wise distribution of manual and continuous monitoring stations in operation under NAMP for 2020 2. Revised ambient air quality standards (2009) 3.

Breakpoints for AQI scale 0–500

- 4. State-wise estimates of 24 h concentrations of PM_{2.5} in kitchens from the use of solid cooking fuels*
- 5. Stack emission standards for major air polluting industries*
- 6. New emission standards for TPPs*
- 7. Emission standards for two-wheeler and three-wheeler categories*
- 8. Emission standard for four-wheeler (4W) category*
- 9. Emission norms for heavy diesel vehicles*
- 10. Emission standards for generator sets (gensets)*
- 11. Dose response study of short-term effects of criteria air pollutants on all daily mortality in India*
- 12. Dose response study of short-term effects of criteria air pollutants all-cause mortality around the globe*
- 13. Recent policies in different sectors to improve air quality in India*

· Comparison of ambient air quality standards of different countries

· Number of days different cities/towns exceeded the NAAQS of PM_{2.5} in 2018

· Summary of source apportionment studies during the last decade in India

· Studies conducted relating to health effects of air pollution

Solid Waste Management

· MSW gasification technologies

· Recycling facilities located in Delhi and Ahmedabad

· Management of C&D waste in major cities of India

· Various treatment technologies for plastic waste and their environmental impacts

Water Resource Management

- 1. Water resource potential (in BCM) in river basins of India*
- 2. Criteria for categorization of assessment units*
- 3. Sustainable Development Goal 6: National Indicator Framework*

Land and Forest Resource Management

- 1 Nutrient-wise consumption of fertilizer material in India (1999/2000–2018/19) (in lakh MT)*
- 2 Category-wise total area under wastelands*
- 3 Changes in area under wetlands from 2005/06 to 2011/12*
- 4 Status of wetland conservation in India*
- 5 Number of forest fire alerts issued by FSI from November 2018 to June 2019*
- 6 State/UT-wise funds released under National Afforestation Programme (INR in crore)*
- 7 Year-wise funds released under Green India Mission from 2016/17-2020/21*

(INR in crore) 8 State-/UT-wise funds released under Compensatory Afforestation Funds by Ad-hoc CAMPA 9 Number of floral species, their endemism, and threat status 10 Number of faunal species, their endemism, and threat status 11 Animals, plants, fungi, and protists in the International Union for Conservation of Nature Red List Categories 12 PAs in India 13 Some key acts related to the forestry and biodiversity sector in India Climate Change 1 Emission scenario 2 Level of CO₂ emissions (in billion tonnes of CO₂) 3 Emission trends across four major CO₂ emitters 4 Global emissions and emission gap under the implementation of INDC for 2030 (median and range in GTCO₂e) 5 Sector-wise national GHG emission in MT for 2016 6 Current status of state action plans on climate change · Carbon dioxide emissions across regions (in MtCO₂) · Missions under National Action Plan on Climate Change · (a) Projects sanctioned under National Adaptation Fund on Climate Change · (b) Projects sanctioned under National Adaptation Fund on Climate Change List of Figures Energy and Environment: An Overview 1 Energy mix in 2020/21 2 Sankey diagram for 2020/21 (P) 3 Industry-wise consumption of raw coal 4 Coal transportation by various modes for 2020/21 Total balance recoverable crude oil and natural gas reserves in India 4 5 Trend in domestic crude oil production 6 Crude import, product imports, and total imports (in '000 MT) 7 Trend in natural gas production, imports, consumption and import dependency 8 Installed generating capacity in India by mode (utilities) 9 Growth of gross electricity generation in India by mode 10 Growth of renewable energy sources 11 HSD and LDO consumption in the agriculture sector 12 Trends in electricity consumption in the industry sector 13 Consumption of selected petroleum products in the industry sector 14 Trend in fuel consumption in the Indian Railways 15 All-India annual per capita consumption of

electricity since 2006 16 Consumption of electricity by the domestic sector from 2011/12 to 2020/21(P) 17 Percentage distribution of households by primary energy source for cooking (2001/02 and 2011/12) 18 Electricity consumption (kWh) in BU for commercial building segments 19 Commercial and residential energy consumption by use 20 Annual ambient concentrations of (i) SO₂ and (ii) NO₂ pollutants across the country (2008–20) 21 Annual ambient concentrations of PM_{2.5} across the country (2014–20) 22 Annual ambient concentrations of PM₁₀ across the country (2008–20) 23 Per capita water availability in relation to population 24 Municipal solid waste management status in 2018/19 25 Trend of average water table in India from 1980 to 2015 26 Percentage of land area under various uses in 2017 27 Land-use change from 2010/11 to 2014/15 28 CO₂ emissions in India as compared to GDP (PPP) 29 CO₂ emissions within sub-sectors in India · Sankey diagram for 2019/20 Coal and Lignite 1 Coal reserves in India as on 1 April 2020 2 Lignite reserves in India (as on 1 April 2020) 3 Coal and lignite production in India 4 Target versus actual coal supply (in MT) in India 5 Coal production by CIL and SCCL 6 Production of coal (in %) from opencast and underground mining 7 Coal off-take (in %) by different sectors in India during 2020/21 8 Lignite off-take (in %) by different sectors in India during 2020/21 9 Coal transportation by various modes for 2018/19 10 India's import of coal (in percentage share) 11 Coal imports and production trend (in MT) 12 India's export of coal (in percentage share) 13 Fly ash generation and utilization (in MT) between 2015 and 2021 14 Mode of fly ash utilization during 2019/20 Petroleum and Natural Gas 1 Total balance recoverable crude oil and natural gas reserves in India 2 Basin-wise ultimate hydrocarbon reserves as on 31 March 2020 3 Basin-wise in-place hydrocarbon reserves as on 31 March 2020 4 Trend in

Hard Times

The INSTANT New York Times Bestseller Winner of the National Book Critics Circle Award for Biography Winner of the PEN/Jacqueline Bograd Weld Award Winner of the Chautauqua Prize Finalist for the Los Angeles Times Book Award Finalist for the Plutarch Award A New York Times Notable Book of 2021 A New York Times BookReview Editors' Choice A New York Times Critics' Top Pick of 2021 Wall Street Journal 10 Best Books of 2021 Time Magazine 100 Must-Read Books of 2021 Publishers Weekly Top Ten Books of 2021 An Economist Best Book of the Year A New York Post Best Book of the Year A Milwaukee Journal Sentinel Best Book of the Year Oprah Daily Best New Books of August A New York Public Library Book of the Week In this “stunning literary achievement,” Donner chronicles the extraordinary life and brutal death of her great-great-aunt Mildred Harnack, the American leader of one of the largest underground resistance groups in Germany during WWII—“a page-turner story of espionage, love and betrayal” (Kai Bird, winner of the Pulitzer Prize for Biography) Born and raised in Milwaukee, Mildred Harnack was twenty-six when she enrolled in a PhD program in Germany and witnessed the meteoric rise of the Nazi party. In 1932, she began holding secret

meetings in her apartment—a small band of political activists that by 1940 had grown into the largest underground resistance group in Berlin. She recruited working-class Germans into the resistance, helped Jews escape, plotted acts of sabotage, and collaborated in writing leaflets that denounced Hitler and called for revolution. Her coconspirators circulated through Berlin under the cover of night, slipping the leaflets into mailboxes, public restrooms, phone booths. When the first shots of the Second World War were fired, she became a spy, couriering top-secret intelligence to the Allies. On the eve of her escape to Sweden, she was ambushed by the Gestapo. At a Nazi military court, a panel of five judges sentenced her to six years at a prison camp, but Hitler overruled the decision and ordered her execution. On February 16, 1943, she was strapped to a guillotine and beheaded. Historians identify Mildred Harnack as the only American in the leadership of the German resistance, yet her remarkable story has remained almost unknown until now. Harnack's great-great-niece Rebecca Donner draws on her extensive archival research in Germany, Russia, England, and the U.S. as well as newly uncovered documents in her family archive to produce this astonishing work of narrative nonfiction. Fusing elements of biography, real-life political thriller, and scholarly detective story, Donner brilliantly interweaves letters, diary entries, notes smuggled out of a Berlin prison, survivors' testimony, and a trove of declassified intelligence

documents into a powerful, epic story, reconstructing the moral courage of an enigmatic woman nearly erased by history.

A large (8"x10") paperback diary in which to keep all those important tax notes. It runs from 6 April 2018 to 5 April 2019, matching the UK tax year. Please note this is a lightweight PAPERBACK book intended for use in keeping tax notes, it is not a leather bound diary. See previous years' editions for more reviews to ensure you know what you are getting.

America's most trusted tax advice, backed by detailed citations of authoritative tax references J.K. Lasser's Your Income Tax Professional Edition 2019 is the tax preparer's guide to smart tax filing and planning. The Professional Edition not only includes the trusted guidance, clear advice, and money-saving tips featured in Your Income Tax, but also provides citations of tax authorities to help tax professionals easily locate the law, IRS rulings and court decisions that support the text. Fully up to date with the newest changes for 2018 tax returns, expert guidance from J.K. Lasser helps you maximize deductions and shelter income while providing hundreds of examples of how tax laws apply to individual situations. While evolving tax law can get very complex very quickly, this invaluable guide is designed to help you find the answers you need without wading through volumes of the Internal Revenue Code or IRS materials. Special icons call out new laws, IRS rulings, court

decisions, filing pointers and planning strategies, allowing you to locate important information without breaking your workflow. Keeping up with changes to tax law is itself a full-time job—if it's not your full-time job, let the experts at J.K. Lasser do the legwork for you! Read from beginning to end or dip in and out as needed—this exceptional resource will help you: Get expert answers to tough tax situations quickly Navigate new laws, court decisions, IRS rulings, and more Locate authoritative sources easily with citations of references from the Code, the courts and the IRS. Avoid common pitfalls and adopt smart planning strategies for next year Accessible, down-to-earth tax advice is always appreciated, but professional tax preparers need more—such as authoritative sources to back their advice and clarify tricky situations that their clients may encounter. J.K. Lasser's *Your Income Tax Professional Edition 2019* provides a quick one-stop resource for every tax pro, merging detailed citations with America's most trusted tax advice for over 65 years. A leading expert on Indian judiciary, George Gadbois offers a compelling biography of the Supreme Court of India, a powerful institution. Written and researched when he was a graduate student in the 1960s, this book provides the first comprehensive account of the Court's foundation and early years. Gadbois opens with Hari Singh Gour's proposal in 1921 to establish an indigenous ultimate court of appeal. After analyzing events preceding the Federal Court's creation under the Government of

India Act, 1935, Gadbois explores the Court's largely overlooked role and record. He goes on to discuss the Constituent Assembly's debates about Indian judiciary and the Supreme Court's powers and jurisdiction under the Constitution. He pays particular attention to the history and practice of judicial appointments in India. In the book's later chapters, Gadbois assesses the functioning of the Supreme Court during its first decade and a half. He critically analyzes its first decisions on free speech, equality and reservations, preventive detention, and the right to property. The book is an institutional tour de force beginning with the Federal Court's establishment in December 1937, through the Supreme Court's inauguration in January 1950, and until the death of Jawaharlal Nehru in May 1964.

2018-2019 Academic Planner Our brand new gorgeous galaxy design

2018-2019 Academic Diary has arrived! Beautifully hand-designed by our designers at Pretty Planners to have everything you need as a busy student, our great range of eye-catching academic diaries are a must-have on campus. Running from August 2018 through July 2019, it will keep you on track for the entire academic year. With cute weekly spreads and plenty of space to write to-do lists, monthly goals, track your grades and class schedules, this gorgeous and stylish 2018-2019 weekly and monthly academic diary is the best way to stay focussed both in class and in your social life. Galaxy Academic Planner Features: 8.5x11" dimensions, perfect for putting in your bag or sitting pride of place on your desk - large enough to make plenty of notes Printed on high-quality paper Notes section to write down your most brilliant ideas Weekly to-do lists to help you achieve your goals Class schedules, grade tracking, assignment tracking, weekly class schedule calendar, study buddies section & more! Yearly, monthly and weekly spread views to help you plan your year ahead Plenty of space to write down your daily activities and thoughts Stunning and stylish matte finish galaxy design cover Check out our dozens of other designs to find the perfect 2018-19 Academic Diary. Scroll up and purchase your

2018-2019 academic planner today and receive fast shipping from Amazon.

The titanic choreographer, creator of memorable ballets, master of Broadway musicals, legendary show doctor and director, now revealed in his own words--the closest we will get to a memoir/autobiography--from his voluminous letters, journals, notes, diaries, never before published. Edited, and with commentary by Amanda Vaill, author of Robbins's biography, Somewhere, 2006 ("I can't imagine a better book about Robbins ever being written"--Terry Teachout, chief drama critic, The Wall Street Journal). He was famous for reinventing the Broadway musical, creating a vernacular American ballet, pushing the art form to new boundaries where it had never gone before, integrating dance seamlessly with character, story and music, and as Associate Artistic Director, Ballet Master, and Co-Artistic Director, with George Balanchine, shaping the New York City Ballet with daring and brio for more than five decades through his often startling choreography in ballet's classical idiom. He was known as the king of Broadway, the most sought-after director-choreographer and show doctor who gave shape to On the Town (1944), Call Me

Madam (1950), The King and I (1951), Wonderful Town (1953), Peter Pan (1954), The Pajama Game (1954), Silk Stockings (1955), West Side Story (1957), Gypsy (1959), A Funny Thing Happened on the Way to the Forum (1962), Funny Girl (1964), Fiddler on the Roof (1964), and many other classic musicals, winning four Tony Awards, two Oscars, and an Emmy. He shocked and betrayed those he loved and worked with by naming names to the House Un-American Activities Committee. ("I betrayed my manhood, my Jewishness, my parents, my sister," he wrote in a diary. "I can't undo it.") Now, Amanda Vaill, Jerome Robbins biographer and authority, drawing on the vast and closely held Robbins archives, has put together a selection of his writings, giving us a sense of his extraordinary range as a thinker and artist, as well as a surprising and revealing glimpse into the mind and heart of this towering cultural giant. Interspersed throughout, his correspondence with George Balanchine, Leonard Bernstein, Aaron Copland, Robert Graves, Lincoln Kirstein, Arthur Laurents, Tanaquil Le Clercq (the fourth of Balanchine's four wives, with whom Robbins was also in love), Laurence Olivier, Stephen Sondheim, et al. Um argumento a favor da verdade em tempos de pós-verdade. Hector

Macdonald examina um de nossos grandes pontos cegos coletivos: somos rotineiramente enganados pela verdade. Verdade ou mentira? Raramente é assim tão simples. Há mais de uma verdade em relação à maioria das coisas. Quando nos comunicamos, escolhemos as verdades que são mais favoráveis a nossos interesses. Podemos selecionar verdades de forma construtiva para inspirar pessoas, encorajar as novas gerações e promover mudanças positivas. Ou podemos optar por aquelas que dão uma falsa impressão da realidade e enganam as pessoas sem de fato serem mentiras. Outros podem fazer o mesmo, usando a verdade para nos motivar ou nos manipular. As verdades são ferramentas neutras e muito versáteis, que podem ser empregadas para o bem ou para o mal. Hector Macdonald explora como se usa e abusa da verdade na política, nos negócios, nos meios de comunicação e na vida cotidiana. Com dicas práticas e histórias fascinantes, Verdade é um livro essencial sobre o quanto de nossas ações e opiniões é influenciado pelas verdades que as pessoas à nossa volta escolhem contar.

America's most trusted tax reference with the citations professionals need For more than 65 years, J.K. Lasser's Your Income Tax,

Professional Edition has been the smartest guide to professional tax filing and planning available. It pairs the trusted guidance, clear advice, and money-saving tips you'll find in Your Income Tax with the citations of tax authorities professionals need to locate relevant law, IRS rulings, and court decisions. How to Be Sort of Happy in Law School

Tax Diary 2018/19

J.K. Lasser's Your Income Tax 2021

Reconstructions of Jesus occurred in Asia long before the Western search for the historical Jesus began in earnest. This enterprise sprang up in seventh-century China and seventeenth-century India, encouraged by the patronage and openness of the Chinese and Indian imperial courts. While the Western quest was largely a Protestant preoccupation, in Asia the search was marked by its diversity: participants included Hindus, Jains, Muslims, Catholics, and members of the Church of the East. During the age of European colonialism, Jesus was first seen by many Asians as a tribal god of the farangis, or white Europeans. But as his story circulated, Asians remade Jesus, at times appreciatively and at other times critically. R. S. Sugirtharajah demonstrates how Buddhist and Taoist thought, combined with Christian insights, led to the creation of the

Chinese Jesus Sutras of late antiquity, and explains the importance of a biography of Jesus composed in the sixteenth-century court of the Mughal emperor Akbar. He also brings to the fore the reconstructions of Jesus during the Chinese Taiping revolution, the Korean Minjung uprising, and the Indian and Sri Lankan anti-colonial movements. In *Jesus in Asia*, Sugirtharajah situates the historical Jesus beyond the narrow confines of the West and offers an eye-opening new chapter in the story of global Christianity. 'Shocking, scathing, entertaining.' Guardian 'Incredibly compelling.' The Times 'Heart-breaking.' Sunday Times Where can a tin of tuna buy you clean clothes? Where is it easier to get 'spice' than paracetamol? Where does self-harm barely raise an eyebrow? Welcome to Her Majesty's Prison Service. Like most people, documentary-maker Chris Atkins didn't spend much time thinking about prisons. But after becoming embroiled in a dodgy scheme to fund his latest film, he was sent down for five years. His new home would be HMP Wandsworth, one of the largest and most dysfunctional prisons in Europe. With a cast of characters ranging from wily drug dealers to senior officials bent on endless reform, this powerful memoir uncovers the horrifying reality behind the locked gates. Filled with dark humour and shocking stories, *A Bit of a Stretch* reveals why our creaking prison system is sorely costing us all - and why you should care.

"Olivarez steps into the 'inbetween' standing between Mexico and America in these compelling, emotional poems. Written with humor and sincerity" (Newsweek). Named a

Best Book of the Year by Newsweek and NPR. In this “devastating debut” (Publishers Weekly), poet José Olivarez explores the stories, contradictions, joys, and sorrows that embody life in the spaces between Mexico and America. He paints vivid portraits of good kids, bad kids, families clinging to hope, life after the steel mills, gentrifying barrios, and everything in between. Drawing on the rich traditions of Latinx and Chicago writers like Sandra Cisneros and Gwendolyn Brooks, Olivarez creates a home out of life in the in-between. Combining wry humor with potent emotional force, Olivarez takes on complex issues of race, ethnicity, gender, class, and immigration using an everyday language that invites the reader in, with a unique voice that makes him a poet to watch. “The son of Mexican immigrants, Olivarez celebrates his Mexican-American identity and examines how those two sides conflict in a striking collection of poems.” —USA Today

How Dwight D. Eisenhower led America through a transformational time—by a DC policy strategist, security expert and his granddaughter. Few people have made decisions as momentous as Eisenhower, nor has one person had to make such a varied range of them. From D-Day to Little Rock, from the Korean War to Cold War crises, from the Red Scare to the Missile Gap controversies, Ike was able to give our country eight years of peace and prosperity by relying on a core set of principles. These were informed by his heritage and upbringing, as well as his strong character and his personal discipline, but he also avoided making himself the center of things. He was a

man of judgment, and steady force. He sought national unity, by pursuing a course he called the "Middle Way" that tried to make winners on both sides of any issue. Ike was a strategic, not an operational leader, who relied on a rigorous pursuit of the facts for decision-making. His talent for envisioning a whole, especially in the context of the long game, and his ability to see causes and various consequences, explains his success as Allied Commander and as President. After making a decision, he made himself accountable for it, recognizing that personal responsibility is the bedrock of sound principles. Susan Eisenhower's *How Ike Led* shows us not just what a great American did, but why—and what we can learn from him today.

Maximize your bottom line with the nation's most trusted small business tax guide J.K. Lasser's Small Business Taxes 2019 is the small business owner's ultimate guide to a money-saving, stress-free tax season. Providing straightforward advice from

the nation's most trusted tax expert on small business taxes, this book gives you the answers you need quickly, with clear, concise guidance. Updated to cover changes from the Tax Cuts and Jobs Act and other legislation, this edition also includes an e-supplement covering additional developments from Congress and the IRS to keep you fully up-to-date. A complete listing of all available business deductions and credits helps you identify those you qualify for, and includes critical information on dollar limits, recordkeeping requirements, and how to actually take the write-off—all the way down to the IRS form to use. Organizational and planning strategies help you get through the process quickly and with fewer headaches, and this year's changes to the tax laws are explained in terms of how they affect your filing. Keeping up with the intricacies of tax law and filing is a full-time job—but it's not your full-time job. You have a business to run. This book gives you the guidance you need in the time that you have so you can get taxes out of the way and get back to work. Learn which expenses qualify for deductions—and which ones don't Adopt a more organized recordkeeping system to streamline the filing process Explore

small-business-specific strategies for starting or closing a business, running a sideline business, and operating in multiple businesses Decode the various forms and worksheets correctly with step-by-step guidance Audit-proof your return Review obligations for the "other taxes," including payroll and excise taxes Every year, millions of small business owners overpay their taxes because they lack the time and expertise to make tax-sensitive business decisions throughout the year only to learn that it's too late to act when it comes to tax time. Now you can put your money back where it belongs—in your business. J.K. Lasser's Small Business Taxes 2019 helps you take wise actions during the year and tells you how to file completely and accurately while maximizing your bottom line.
