Winner of a 2017 NAACP Image Award for Outstanding Literary Work, this moving manifesto “empowers women to access a fearlessness that will enable community progress” (Essence). Through one incredible woman’s journey from a small Zimbabwe village to becoming one of the world’s most recognizable voices in women’s empowerment and education, this book “can help any woman achieve her full potential” (Kirkus Reviews).

Before Tererai Trent landed on Oprah’s stage as her “favorite guest of all time,” she was a woman with a forgotten dream. As a young girl in a cattle-herding village in Zimbabwe, she dreamed of receiving an education but instead was married young and by eighteen, without a high school graduation, she was already a mother of three. Tererai encountered a visiting American woman who assured her that anything was possible, reawakening her sacred dream. Tererai planted her dreams deep in the earth and prayed they would grow. They did, and now not only has she earned her PhD but she has also built schools for girls in Zimbabwe, with funding from Oprah. The Awakened Woman: A Guide for Remembering & Igniting Your Sacred Dreams is her accessible, intimate, and evocative guide that teaches nine essential lessons to encourage all women to reexamine their dreams and uncover the power hidden within them—power that can recreate our world for the better. Tererai points out that there is a massive, untapped, global resource in women who have, for one reason or another, set aside their wisdom, their

skills, and their dreams in order to take care of the personal business of their lives. Not only is this a type of invisible suffering experienced by countless women, this rich resource is a secret weapon for improving our world. Women have the capacity to inspire, to create, to transform—and Tererai’s call to action “shines as a beacon of hope to women everywhere” (Danica McKellar, actress and New York Times bestselling author). Celebrate the world's most famous plumber with this irreverent, unofficial guide to Nintendo's greatest icon! We Love Mario! features a treasure trove of photos and entertaining background, from the character's earliest appearances to his current superstardom in Super Mario Odyssey. In 2006, about 69 million U.S. households had pets, giving homes to around 73.9 million dogs, 90.5 million cats, and 16.6 million birds, and spending more than 38 billion dollars on companion animals. As never before in history, our pets are truly members of the family. But the notion of “companion species”—knotted from human beings, animals and other organisms, landscapes, and technologies—includes much more than “companion animals.” In When Species Meet, Donna J. Haraway digs into this larger phenomenon to contemplate the interactions of humans with many kinds of critters, especially with those called domestic. At the heart of the book are her experiences in agility training with her dogs Cayenne and Roland, but Haraway’s vision here also encompasses wolves, chickens, cats, baboons, sheep, microorganisms, and whales wearing video cameras. From designer pets to lab animals to

trained therapy dogs, she deftly explores philosophical, cultural, and biological aspects of animal-human encounters. In this deeply personal yet intellectually groundbreaking work, Haraway develops the idea of companion species, those who meet and break bread together but not without some indigestion. "A great deal is at stake in such meetings," she writes, "and outcomes are not guaranteed. There is no assured happy or unhappy ending-socially, ecologically, or scientifically. There is only the chance for getting on together with some grace." Ultimately, she finds that respect, curiosity, and knowledge spring from animal-human associations and work powerfully against ideas about human exceptionalism.
