As a knowledgeable contemporary of the later Second Temple, Philo of Alexandria's approach to worship and his view of the essence of Jewish worship are of particular interest to the study of that period. Jutta Leonhardt discusses his views on the Jewish festivals, especially the Sabbath, on prayer, psalms, hymns, praise and thanksgiving, and on

Temple offerings, sacrifices and purification rites. These aspects are presented with their parallels in Jewish and pagan traditions and in Greek and Hellenistic philosophy. Jewish worship in Philo has never been studied as a coherent whole before. Only individual aspects of worship, such as prayer of petition, or thanksgiving, or Philo has been used in studies on Second Temple Judaism as a quarry for general examples of acts of worship. Philo accepted and participated in Jewish worship, and even knew about details of various Jewish traditions of his time. His writings, however, do not refer to them directly and cannot easily be used to reconstruct Jewish rituals of his time. His main aim is to discuss the rites as collected in the Mosaic Torah, since these are binding for all Jews. These laws are frequently presented using the terminology of pagan cults and interpreted with recourse to Greek philosophy. In this philosophical description of actual rites there are parallels to Plato's references to religion in the ideal state in the *Nomoi*. Philo presents Judaism as the ultimate Hellenistic cult, which combines the various aspects of the different pagan cults in a sublime and perfect form to represent mankind and the universe in the worship of the one God who created the world. The stunning variety of crops around the world that end up on family tables are celebrated, recognized, and praised in a multitude of festivals, including the annual Thanksgiving feasts in the fall in North

America and the European Midsummer celebrations on or near the longest days of the year. Some festivals are held in hopes of encouraging bountiful harvests while others celebrate a plentiful yield. Harvest festivals are often big, boisterous acknowledgments of the economic or dietary importance of certain crops to a region or group of people, such as the yam in Western Africa or sugarcane in parts of the Caribbean. Given the diversity of the world's geography and climates, during every month of the year in some part of the world, a community, village, religious group, city, or even entire country is celebrating the beginning or end of a life-giving harvest. This book looks at how regions of the world pay homage to the harvest and everything it represents. Without the ability to grow and harvest crops, permanent civilizations would not have developed. Because societies were dependent on cultivating their crops for food, storage, and trade, harvesting became a sacred event in many cultures. Ancient people believed spirits lived within their crops, and went to great lengths to appease these beings. Although modern thought has evolved since that era, the significance of the harvest has hardly been lost. From the New Yam Festival in Africa to the Jewish Sukkot to Thanksgiving Day in the United States, the majority of cultures throughout the world have set aside days to celebrate times of bounty. Thanksgiving and Other Harvest Festivals looks at how the regions of Africa, Asia, Europe, Latin America and the Caribbean, the Middle East, and North America pay homage to the harvest and everything it represents. Explains how harvest festivals are celebrated in different parts of the world and offers instructions on creating typical festival crafts
