

The Ark Of The Covenant: The True Story Of The Greatest Relic Of Antiquity

The wonder and glory of God's word can never be completely told in a man's life time. Every thing is new every day. And just as the manna we need to have this word every day to prove his doctrine and to hear it out of the word of God (John 17: 8) say's he gave his word to the men that the Father gave him and Jesus prayed for them that they will show God's glory to the world that they are one as he is one with the Father. Jesus said I have manifested thy name unto them and they have kept thy word and your Word is everlasting life and they are sanctified through thy truth I have kept them in thy name. The wonder and the glory inside the Ark of the Covenant will show the lawgiver, the manna and the tree of life. He gives us the witness of death and taxes and the resurrection of the just and the unjust. He tells us the wages of sin is death, and the gift of God is eternal life our debt is paid in full. The greatest mystery.(I Timothy 3:16) And without controversy great is the mystery of godliness; God was manifest in the flesh, justified in the Spirit, seen of angels, preached unto the Gentiles, believed on in the world, received up into glory (I John 1:2) For the life was manifested, and we have seen it, Comfort one another with these words this day could be the day in Jerusalem.

Bringing Back the Ark of the Covenant to His Church is a responsibility each Christian should undertake, especially for those working towards dining with the Lord at the Last Supper of the Lamb. The Ark of the Covenant as God's presence is the most precious blessing the Church can ever have. It's all about the Lord Jesus Christ being formed in our lives, for the Church to grow into His fullness. This is the only way His Church will manifest His presence. His manifest presence is a reality that His Remnant Church is living each day. Many who have broken into the Holy of Holies have tasted, seen, and heard the mysteries and secrets of the Lord God that have made them keep in there. The New Jerusalem is a Church that is being made by the Lord Himself. She must keep in His presence to be beautified.

The Chemistry of the Blood is one of Dr. M. R. De Haan's most widely read books. In it, his scientific background is uniquely combined with his skillful exposition of Scripture to correlate Scripture and science. In addition to the title chapter on The Chemistry of the Blood, Dr. De Haan also discusses such intriguing themes as 'The Chemistry of Tears, ' 'The Chemistry of the Bible, ' 'The Chemistry of Man, ' and other striking truths.

Can you imagine this scene - Arthur Griffith, in the esteemed company of William Butler Yeats, George Moore and Douglas Hyde standing on the Hill of Tara? Not out for a walk or a discussion about contemporary culture, but waging a protest about the exploratory dig on the hill for the Ark of the Covenant, the gold encrusted oak box which contains the stone tablets that Moses brought down from Mount Sinai. Then Maud Gonne arrives, lights a bonfire and starts singing "A Nation Once Again" at the top of her voice. Then the man who owns that land arrives and threatens to shoot them! This actually happened at the turn of the century in Co. Meath. Between 1899 and 1902, a group known as the British-Israelites dug the Hill of Tara in their quest to find the Ark of the Covenant. Tara and the Ark of the Covenant describes the story of this excavation and places it in its archaeological, historical, cultural and political context. It describes the reasons for the British-Israelites expedition and the involvement of the Freemasons in their quest.

Someone once said, "I see JESUS in your eyes." My prayer is that you will see Jesus in all that you read in this book. This book is based completely upon the word of God and a few metaphors that carry truths. We are going to answer questions such as: Why Must The Ones God Loves Suffer? Can a person be Born Again? We are going to clarify the true meaning of being Born Again. I am going to share an unusual night out on a dark highway in Adairsville, Georgia when my Mother pointed north and said, "We Are Going North." In this book we will Rebuild Our Inner House and refurnish it with Gods furniture. For generations, various people have searched for the Ark of the Covenant. There have been many theories but no absolutes. This book will show where the "New Ark of the Covenant" was Found! Jimmy Clayton a former athlete with All-American honors in football, A. A. U. wrestling champ, and California championship body builder. He began his ministry of teaching and preaching Gods saving grace in churches, and missions on the streets of Los Angeles in 1973. He was ordained in 1981

in a church named the Garden of Prayer. His main objective is to follow the leading of the Holy Spirit: to do the will of his Father through His Son, Jesus Christ. Jimmy has a unique style in using the same method a builder would use to rebuild a house to live in, and correlating it to the rebuilding of ones own inner house or the way we think. His attitude is like that of Paul the Apostle. "I am not ashamed of the gospel of Christ: for it is the gospel of God unto salvation to every one that believeth."

A groundbreaking work that overturns the conventional understanding of the Israeli-American relationship and, in doing so, explores how fundamental debates about American identity drive our country's foreign policy. In this bold examination of the Israeli-American relationship, Walter Russell Mead demolishes the myths that both pro-Zionists and anti-Zionists have fostered over the years. He makes clear that Zionism has always been a divisive subject in the American Jewish community, and that American Christians have often been the most fervent supporters of a Jewish state, citing examples from the time of J.P. Morgan and John D. Rockefeller to the present day. He spotlights the almost forgotten story of left-wing support for Zionism, arguing that Eleanor Roosevelt and liberal New Dealers had more influence on President Truman's Israel policy than the American Jewish community--and that Stalin's influence was more decisive than Truman's in Israel's struggle for independence. Mead shows how Israel's rise in the Middle East helped kindle both the modern evangelical movement and the Sunbelt coalition that carried Reagan into the White House. Highlighting the real sources of Israel's support across the American political spectrum, he debunks the legend of the so-called "Israel lobby." And, he describes the aspects of American culture that make it hostile to anti-Semitism and warns about the danger to that tradition of tolerance as our current culture wars heat up. With original analysis and in lively prose, Mead illuminates the American-Israeli relationship, how it affects contemporary politics, and how it will influence the future of both that relationship and American life.

David Childress, popular author and star of the History Channel ' s show Ancient Aliens, takes us on an incredible journey in search of the truth about (and science behind) the fantastic Biblical artifact known as the Ark of the Covenant. This object made by Moses at Mount Sinai—part wooden-metal box and part golden statue—had the power to create “ lightning ” to kill people, and also to fly and lead people through the wilderness. Featured in such popular movies as Raiders of the Lost Ark by Lucas and Spielberg, the Ark of the Covenant is probably the most mysterious object in the Old Testament—what was it? Was it an ancient electrical device? The Ark of the Covenant suddenly disappears from the Bible record and what happened to it is not mentioned. Was it hidden in the underground passages of King Solomon ' s temple and later discovered by the Knights Templar? Was it taken through Egypt to Ethiopia as many Coptic Christians believe? Childress looks into hidden history, astonishing ancient technology, and a 3,000-year-old mystery that continues to fascinate millions of people today.

Offers compelling evidence that the Knights Templar may have taken the Ark of the Covenant to the British Isles □ Presents scientific evidence affirming the powers attributed to the Ark □ Traces the Ark and the Stones of Fire from Jerusalem to Jordan and finally to central England, where the Knights Templar hid them in the 14th century According to legend the Ark of the Covenant was an ornate golden chest that was both a means of communicating with God and a terrible weapon used against the enemies of the ancient Israelites. In order to use it the high priest had to wear a breastplate containing twelve sacred gemstones called the Stones of Fire. These objects were kept in the Great Temple of Jerusalem until they vanished following the Babylonian invasion in 597 B.C.E. At the ancient ruins of Petra in southern Jordan, Graham Phillips uncovered evidence that 13th-century Templars found the Ark and the Stones of Fire, and that they brought these treasures back to central England when they fled the persecution of French king Philip the Fair a century later. The author followed ciphered messages left by the Templars in church paintings, inscriptions, and stained glass windows to what may well be three of the Stones of Fire. When examined by Oxford University scientists these stones were found to possess odd physical properties that interfered with electronic equipment and produced a sphere of floating light similar to ball lightning. The Bible asserts that the Ark had the power to destroy armies and bring down the walls of cities. Now Graham Phillips provides scientific evidence that these claims may be true and offers compelling documentation that the Ark may be located in the English countryside, not far from the birthplace of William Shakespeare at Stratford-upon-Avon.

WAS THE ARK OF THE COVENANT A NUCLEAR DEVICE CAPABLE OF KILLING MILLIONS? DID IT POSSESS SUPERNATURAL POWERS? WAS IT RESPONSIBLE FOR THE COLLAPSE OF THE WALLS OF JERICHO THUS ALLOWING THE ISRAELITES TO TAKE CONTROL OF THE CITY? WAS MOSES ABLE TO SPEAK DIRECTLY TO GOD THROUGH THE TWO CHERUBIM (ANGELS) POSITIONED ON THE ARK'S TOP? Here is proof the ancients possessed "secret technology" that made them exceptional warriors. They might even have had the capability to annihilate their formidable foes utilizing nuclear-like devices. The question is how did they come about such an innovative science? Did they develop such devices on their own? Did God give the "chosen" unheralded power over their enemies? Or were ancient astronauts somehow involved? David Medina, along with Sean Casteel, Tim Beckley, Olav Phillips, Brad Steiger and Tim R. Swartz tackle an intriguing subject that gives evidence to the fact that the ancients had supernatural powers that were often lethal. For the first time, here is a detailed analysis of the mysterious Ark of the Covenant. Learn how the Ark was built and housed, and how the priests that tended it were required to wear protection clothing to shield them from what we call today nuclear energy. Moses even used the Ark to create a "controlled earthquake" to punish a rebellion by some of the Israelites. The desert ground opened up and swallowed the rebels, and of course it is said to have been responsible for the collapse of the walls of Jericho. Discover also astounding air battles, and a very advanced type of "Thunderbolt Energy" that caused catastrophic disasters. There are also the issues of Magical Swords and superior aircraft mentioned in various ancient texts. This work contains fascinating insight into high-tech, death-dealing devices that predate our own by millennia. Did humankind develop such an "advanced technology" on its own? Or did beings from other worlds we have come to identify as Ancient Astronauts responsible for such a wondrous but catastrophic advance in the military sciences and weaponry?

This book discusses The Ark of the Covenant closely associated with the Holy Bible; its history, role, and use, its construction. It also discusses excavational history leading up to what could be the answer to the question concerning its current location. It further talks about the astonishing adventures of Ron Wyatt, his discovery of the Ark in 1982, and The Blood of Christ that ended up sprinkled onto the Mercy Seat of the Ark of The Covenant.

After 2,500 Years of Mystery, the Truth About the Ark of the Covenant Is Revealed The Lost Ark of the Covenant is the real-life account of an astounding quest—professor Tudor Parfitt's effort to recover the revered artifact that contained the Ten Commandments, sacred to Judaism, Christianity, and Islam. The Ark of the Covenant in Its Egyptian Context: An Illustrated Journey invites readers on a journey of discovery that will change the way they view the Ark of the Covenant forever! Although much has been written about the Ark of the Covenant, few authors engage the wealth of information available that pertains to Egyptian material culture. The Ark of the Covenant in Its Egyptian Context: An Illustrated Journey is the first book to explore the complex history of sacred ritual furniture in Egypt that predated the ark by hundreds of years. Within Egyptian culture, over four hundred examples of ritual furniture exist that shed light on the design and appearance of the ark. These examples form patterns that provide context for the Israelites' understanding of the ark at the time of its construction. That understanding would have been obvious to the Israelites of the time, but has since become obscured over the millennia. This groundbreaking book is the first to connect the Ark of the Covenant with the archaeology and chronology of ancient Egypt, and it does so in an accessible way with straightforward text and dozens of full-color photographs and graphics. Key points and features: - A groundbreaking work of scholarship--the first of its kind to connect the Ark of the Covenant with its ancient Egyptian context. - High-level scholarship is paired with straightforward text, making it an accessible volume for students and curious laypeople, as well as experts in the field. - Includes dozens of full-color photographs and graphics depicting ancient Egyptian artifacts and art. - Durable hardcover is built to withstand heavy use in classrooms and libraries.

The Presence of the Ark of the Covenant was a holy and respected thing just as the Eucharistic Tabernacle is today. Both of these bring us the presence of God. The scriptures show us that Mary has become the new ark of the covenant and this work shows this connection. Mary is the Ark of the Lord, the Ark of the Covenant, 'The Ark' in various different symbolisms in the Bible. Both Luke and John directly relate Mary to the Ark, numerous other texts also bring out the beauty of this relationship. This book is basically a combination of two approaches to Scripture: the scholarly historical critical method (The Way of Truth) and the artistic historical intuitive method (The Way of Beauty). It is a theological exegesis and a poetic meditation; a scriptural science and a biblical art. A very complete understanding of Mary as the Ark is found in this book.

From ancient texts to local stories, from the Bible to the writings of sixteenth and seventeenth-century Jesuits, this book traces the extraordinary legend of Ethiopia's Ark. It scrutinises various mentions of the Ark in Ethiopian records and tests various theories before reaching the conclusion.

British history records that there were two major migrations from the near east into Britain in antiquity. One was the fleet migration from Syria led by Albyne around 1560 BC, and the other was the second fleet migration from the Trojan Dardanelles areas in Western Turkey led by Brutus around 504 BC. Ancient alphabet inscriptions and other tangible and written records show that the second migration was that of the Ten Tribes of Israel. The same ancient Alphabet is found all the way along the British migration routes from Palestine, to Assyria, through Asia Minor to the Aegean and to Etruscan Italy and Rhaetian Switzerland. In Britain the Ten Tribes were known as the Khumry. This research began in 1976 some 31 years ago and it has met with nothing but opposition and obstruction. Around 1360 BC Moses has the fabulous box called the Ark of the Covenant made. This holy box was the national talisman of the Hebrew nation. It was revered as the place of the presence of the god Yahweh and the most holy thing belonging to the Hebrew nation. A series of events that included the Ark being seen as an invincible means of military success and in one disaster being captured by the Philistines ended when King David placed the Ark in the care of the family of Obed Edom, and he took the Ark to Jerusalem around 975 BC along with the family of Obed Edom, The next King was Solomon and he built a celebrated temple in Jerusalem to house the Ark, where annually the high priest entered the holy of holies chamber to serve the divine box. Nothing much is said of the Ark until c.790 BC the Judean King Ahaziah attacked the Israelite King Jehoash and was totally defeated. The victorious Jehoash then went to Jerusalem where he took everything from the palace and everything from the temple, and he also took away the family of Obed Edom who are the family mentioned several times in the Bible as guardians of the Ark guardians of the Ark. Therefore, Jehoash removed the Ark from Jerusalem and took it north to Samaria. Nothing is said in the Biblical record of the Ark being anywhere near Jerusalem after this event in circa 790 BC. In 740-736 BC the Judean King Ahaz paid a huge bribe to the Assyrian Emperor Tiglathpileser III to attack King Pekah of Ten Tribe Israel, and as a result Israel was totally crushed by the Assyrian army. A large number of Israelite nobles and leaders were immediately deported north to areas around Harran from where the patriarch Abraham has begun his migrations. In successive campaigns by the Assyrian emperors Shalmaneser IV, Sargon II, and Sennacherib great numbers of the Israelite nation were deported north and up into the areas north of Harran. In 702 BC Sennacherib recorded how he deported 200, 120 people in one mass exodus. The Assyrian records unmistakably and persistently call the Ten Tribes as the Khumry, It is a virtual certainty that these deported Ten Tribes took the Ark with them from Israel. Sennacherib was murdered by two of his sons in c. 687 BC and civil war convulsed the Assyrian Empire and as the heir Esarhaddon fought the murders the massed Ten Tribes took the opportunity to move westwards across both the upper branches of the "Y" shaped Euphrates river as described in the Book of Esdras II. They moved slowly and unstoppably through Siasia Minor and the Greeks recorded their migration as that of the Kimmerio-Khumry. There is a record of the Khumry having the Ark with them on this journey from north of Assyria through Asia Minor and to the Dardanelles. Finally around 650 BC the nation split into two and

one half migrated to Italy whilst the other half remained in the areas around Byzantium until circa 504 BC when they gathered on the island of Lemnos before sailing to Britain in the fleets. An inscribed stone that was found on Lemnos in 1876 and now in the Athens museum that records this gathering and the intent to sail to Britain. Either the Ark was taken to Etrurian Italy in circa 650 BC or it remained near the Dardanelles until around 504 BC before being brought into Britain. The fact is that the Greal or Holy Greal is simply a record, and a comparison would be that the Bible, the Koran, the American Declaration of Independence, or the Two Tablets brought down the mountain by Moses, would all be greals. Britain is the land of the Holy Greal. The search was begun to locate the Ark in Britain and this proved to be relatively straightforward but technically different. The persistent ancient legend in the area north of Cardiff is that a great chest lies buried and this chest is guarded by two Cigfrangawr - Giant Ravens. It is not difficult to perceive that this great chest is the Ark that has two golden Cherubim- fearsome dragons figures. What emerged was that these had been a direct transfer of culture from Israel to Britain and all across the hills of South Wales there are gigantic mounds, and these huge mounds are named and set out in a pattern to mirror the pattern of the major stars in the heavens. Then there are several ancient tales that tell of the great plants moving on their orbits and being in conjunction with the main stars of the various constellations. The journeys of the planets- seen as moving and not fixed stars- are tracing out routes that can be followed around the Star t Mound Maps on the ground. In short our British ancestors left us clear records of where to go. The Ark is at a place where the giant mound marks the start Regulus in Leo the Lion, the Judean emblem. The ancient place name is The Enclosure of the Ark and the central area is The Place of Worship. The top of the large hillock has clearly been molded by the hand of man, and satellite photography showed spoil heaps tumbling down the slopes form a tunnel excavated horizontally to underground chambers. Five very ancient drainage systems of the type used in antiquity to drain and keeps chambers dry are clearly evident/ Amazingly the Above sea Levels readings of satellite photography proved absolutely that the top 60 feet of this low dome shaped hill is a man-made construction. This is unassailable, incontrovertible, and absolute scientific proof of the highest order. Ground penetrating radar and other methods shows at least two underground chambers, and deep reading g electronic metal detection identifies a large non-ferrous box of around four feet + long and two feet + wide. This is the precise size of the Ark of the Covenant. An approach has been made to the Welsh National Assembly and hopefully something positive will at last be done to restore Khumric British heritage, cultures, and history.

In Charles River Editors' Legends of the Bible series, readers can get caught up to speed on the lives of the Bible's most important men and women in the time it takes to finish a commute, while learning interesting facts long forgotten or never known. The Ark of the Covenant is perhaps the most legendary and mysterious relic mentioned in the Bible, fascinating Jews and Christians for thousands of years and even spurring some to search for it. It is mentioned in both the Old Testament and the New Testament, as well as the Qu'ran, and in Revelation it is described as "the golden pot that had manna, and Aaron's rod that budded, and the tablets of the covenant", while the Book of Kings described it as only containing the two Tablets of the Law that Moses carried down from Mount Sinai. What the sources did agree on is that the Ark was the holiest relic in possession of the Israelites, and it was carried with the utmost care by priests during the exodus out of Egypt. Exodus also described the Ark in detail and the elaborate manner in which it was adorned with gold and set up in its own temple, the Tabernacle, when the Israelites stopped. Naturally, it was always well out in front of the rest of the processions as the Israelites moved. The Ark's whereabouts and history are documented in the Bible through several generations until the Babylonian conquest, during which the 3rd Book of Ezra (1 Esdras) claimed the Babylonians "took all the holy vessels of the Lord, both great and small, and the ark of God, and the king's treasures, and carried them away into Babylon." Since the Babylonian conquest, the location of the Ark has been one of religion's most legendary mysteries, with scholarly theories ranging from the Ark being carried off into Babylon to the idea that the Ark was secretly hidden and kept in Jerusalem, cared for by holymen. As a result, there have been endless quests in search of the Ark, speculation about its possible locations, and even claims that it's actually in possession of churches as widespread as Ireland and Ethiopia. The paper in this volume are organized in three parts: scriptural, contextual and theological. The central question being addressed is: how do Christians living in contexts, where Islam is a majority or minority religion, experience, express or think of the Cross? This is, therefore, an exercise in listening. As the contexts from where these engagements arise are varied, the papers in drawing scriptural, contextual and theological reflections offer a cross-section of Christian thinking about Jesus and the Cross.

An examination of the tradition exists that the Ark of the Covenant was held in a Roman church, and how it developed.

True Raiders is The Lost City of Z meets The Da Vinci Code, from critically acclaimed author Brad Ricca. This book tells the untold true story of Monty Parker, a British rogue nobleman who, after being dared to do so by Ava Astor, the so-called "most beautiful woman in the world," headed a secret 1909 expedition to find the fabled Ark of the Covenant. Like a real-life version of Raiders of the Lost Ark, this incredible story of adventure and mystery has almost been completely forgotten today. In 1908, Monty is approached by a strange Finnish scholar named Valter Juvelius who claims to have discovered a secret code in the Bible that reveals the location of the Ark. Monty assembles a ragtag group of blueblood adventurers, a renowned psychic, and a Franciscan father, to engage in a secret excavation just outside the city walls of Jerusalem. Using recently uncovered records from the original expedition and several newly translated sources, True Raiders is the first retelling of this group's adventures— in the space between fact and faith, science and romance.

For 800 years, the Ark of the Covenant was the most sacred object in the world. In 586 BC it vanished. 2,500 years later, American amateur archaeologist Ron Wyatt claimed to have found it. Jonathan Gray doubted Wyatt's claims. However, intense investigation and privileged viewing of evidence left him totally convinced.

A recent Word of Knowledge message given in a dream-vision led him to the answer of a question that J.L. had been pondering concerning Jesus' blood that flowed from him when the Roman soldier pierced his side. The question was, "Why would God the Father let Jesus' holy and incorruptible blood flow to the ground and dry up there?" The Father answered the question when J.L.'s research led to the discovery of a hidden mystery unknown to the Christian Church until discovered in 1982 by biblical archeologist and apostle Ron Wyatt. Wyatt discovered that the blood released by a Roman soldier's spear that pierced Jesus' side flowed through a fissure in the earth and became sprinkled upon the Mercy Seat of the hidden Ark of the Covenant secreted in a cave 40 feet below the cross hole where Jesus was crucified.

At the heart of the city of Aksum in Ethiopia stands a small chapel, whose entrance is constantly guarded.
