The story of Richard III

Sir Winston Leonard Spencer-Churchill is known chiefly for his leadership of the United Kingdom during World War Two. He served as Prime Minister from 1940 to 1945 and again from 1951 to 1955. A noted statesman and orator, Churchill was also an officer in the British Army, a historian, writer and artist. To date, he is the only British Prime Minister to have received the Nobel Prize in Literature, and the second person to be recognized as an Honorary Citizen of the United States. During his army career, Churchill saw military action in India, the Sudan and the Second Boer War. He gained fame and notoriety as a war correspondent

and through contemporary books he wrote describing the campaigns. He also served briefly in the British Army on the Western Front in World War One, commanding the 6th Battalion of the Royal Scots Fusiliers. At the forefront of the political scene for almost fifty years, he held many political and cabinet positions. After losing the 1945 election, he became Leader of the Opposition. In 1951 he again became Prime Minister, before finally retiring in 1955. Upon his death, the Queen granted him the honor of a state funeral, which saw one of the largest assemblies of statesmen in the world. This unique images title contains many rare and unpublished photographs of Churchill throughout his military and political career.

Hanna Fenichel Pitkin has made key contributions to the field of political philosophy, pushing forward and clarifying the ways that political theorists think about action as the exercise of political freedom. In so doing, she has offered insightful studies of the problems of modern politics that theorists are called to address, and has addressed them herself in a range of theoretical genres.. This collection of her works approaches each of these dimensions of Pitkin's contributions in turn: The Modern Condition and the

Impetus to Theorize: Pitkin has offered sustained reflection on what aspects of modern political life prompt the impulse to theorize politics. Highlighting the pitfalls that modern life and philosophy also present for that enterprise, she suggests an agenda for political theorizing that engages the dilemmas of modernity in ways that grasp the importance of paradox as a portal of insight into the modern condition, and eschews attempts at easy resolution. Moral Philosophy, Judgment, Justice: Pitkin has turned at several points in her career to the concept of justice as one that particularly brings together questions of agency and responsibility, the insights of moral philosophy, and judgment. Drawing upon a variety of methodological resources and theoretical inspirations, her work engages ordinary language philosophy, pedagogical practice, and textual study, to yield a complex and subtle set of observations, all of which open moral philosophy and matters of judgment to questions of action and responsibility in the exercise of political freedom. Action: Political agency and its obstacles are a key theme in Pitkin's work and a main area of her theoretical innovation. She has examined the appeal of autonomy as

a picture of political agency, explored the ways that the institutional arrangements of modern liberal societies attempt to link of individual and political agency and offered a picture of political freedom as maintaining the tension between individual "parts" and collective "wholes," Finally, Pitkin has meditated on the political and social conditions that most impede our ability to grasp agency as a practice of political freedom, and gestured to paths that may lead forward.

The English Civil War was a great convulsion of political and military violence, which quickly spread to Scotland, Ireland and Wales. This attractive Pitkin Guide looks at the war, how it came about and progressed, its battles, the opposing sides and notable figures in them, and the outcome. A must for all visitors to the UK, and lovers of history. Look out for more Pitkin

Guides on the very best of British history, heritage and travel.

Union general John Reynolds was one of the most beloved and respected military leaders of the Civil War, yet beyond the battlefield, the captivating true story of his secret romance with Catherine "Kate" Mary Hewitt remains etched into his legacy. Clandestinely engaged before John marched off to war, the couple's love remained a secret. Kate made a poignant "last promise," a commitment to enter into a religious life if her beloved were to be killed. Tragically, Reynolds lost his life leading troops into action during the opening phases of the Battle of Gettysburg. Within days Kate was embraced by the Reynolds family and soon began to honor her promise of a religious life. Yet a few years later she seemed to disappear. Author Jeffrey J. Harding unveils new findings on Kate's life before and after John's death as he recounts Gettysburg's saga of star-crossed love.

The world continues to be fascinated with Marilyn Monroe who dazzled with her beauty and captivated the hearts of millions, worldwide, with her innocence, charm, generosity, and kindness, and yet, who died tragically at the age of only 36. Hollywood columnist, film critic, and author of 'The Fifty Year Decline and Fall of Hollywood', Ezra Goodman, writing in 1961, the year prior to her death, declared, 'The riddle that is Marilyn Monroe has not been solved'. Aside from the fact

that Marilyn's so-called autobiography cannot be relied upon, making sense of her is certainly problematical, not least because in her early years, she was insecure and introspective, and unable even to make sense of herself. There has been much debate, in particular, about the frame of mind that Marilyn was in when, on the night of 5 August 1962, she knowingly or unknowingly took her own life. With his medical background, the author is in a position to shed new light on the enigmatic character of Marilyn Monroe, this fascinating, yet deeply troubled, former Hollywood icon who is regarded, arguably, as the world's most famous ever movie star.

Britain's Kings & Queens

William the Conqueror

In 1277, Llywelyn ap Gruffudd, Prince of Gwynedd, met with Edward I of England in Aberconwy to finalise a treaty that would change the fate of both nations. His hand forced by Edward's invasion earlier that year, Llywelyn's acceptance of the terms confirmed not only short-term peace but also that the rule of Wales would pass to Edward on his death. To augment his rising dominance, the English king embarked on a building project that saw the rise of some of the most recognisable fortresses in Europe. Quite literally, an **Iron Ring** of castles. Even before the

construction of Edward's infamous Iron Ring, castles were by no means rare in Wales. Both before and simultaneous to William the Conqueror's establishment of timber and stone fortresses in the south and borderlands, a process continued by many of his descendants, native structures also existed. Though often more palatial than protective, such constructions proved decisive to the ongoing wars and were often chosen as sites for future castles. Just as had been the case in England, the story of the castle crosses many centuries. Many began as Roman forts, whereas others date from more modern times. While many are now romantic ruins, others remain cherished family homes, if not hotels or museums. By adopting an identical approach to that seen in Castles of England, the purpose of this book is to throw light on the stories behind them. For as long as there have been castles in Wales, there have been mysteries within their walls. Murders that remain unsolved, treasures unfound, prisoners left to rot in the darkest pits and valiant warriors whose heroic deeds have become a cherished part of the Welsh identity. From blood-soaked heroes to long-lost legends, despotic pirates to wailing hags, Castles of Wales offers a fresh investigation into many of its fascinating fortresses. No country has more castles per square mile than Wales. Even today, there are more than 200 to be enjoyed. Inspired by such a rich tapestry of tales, this book provides an essential introduction to the nation many regard as The Land of Castles.

Britain in Queen Victoria's reign grew in power and

prestige to become the richest nation on earth through its trade and Empire. Britain also ruled half the world, and Victoria herself reigned gloriously over her dominion. Life in Victorian Britain describes and vividly illustrates the Victorians at work, at home, at school and at leisure against a background of astonishing scientific and industrial progress. Most of the characters in the book were real seventeenth century people, the majority living in Manchester, a town that did not have a Member of Parliament. Charles I was an autocratic king who believed that there was no one above him but God, and so when Parliament asked for a greater say in running the country he refused, leading to disenchantment in many parts of the country, especially in the South-East of Lancashire. When Lord Strange, the son of the 6th Earl of Derby, and the King's representative for Lancashire, marched into Manchester with his troops to demand the retrieval of his armoury, Richard Perceval a hand-loom weaver from Kirkmanshulme, a hamlet situated between Manchester & Stockport, pulled a Royalist of his horse and was shot. Lord Strange was later to be hung in Bolton for this crime, and when Parliament heard of Richard Perceval's death they announced that a 'Civil War' has begun. Jenny Grimshawe, a member of a fictitious family living on the Ancoats Hall Estate of Nicholas

Mosley, Lord of the Manor of Manchester, was due to marry Richard Perceval, but on hearing of his killing, avowed to avenge his death. She cross-dressed, joined the Royalist army, was present at the siege of Liverpool, the massacre at Bolton and obtained revenge at the battle of Marston Moor, three miles West of York.

The name King Arthur echoes loudly down the centuries, conjuring up rich images of mystery and power, chivalry and romance. This fascinating Pitkin guide, here in German, examines the facts of the legends in search of the shadow of Arthur. [The Wars of the Roses](#) which took place in England during the 15th century have passed into folk-memory as bloody, vicious struggles for power, with the throne as the prize and ordinary people as the victims. William Shakespeare's propaganda for the Tudor dynasty played a great part in creating this legend.

Yet the truth was rather more complex.

Read Free The Civil War (Pitkin Guides)

Although power changed hands often, and sometimes with bewildering speed, English society in general was relatively stable, and prosperous. The Wars of the Roses represent a stage in the evolution of a British nation, emerging from the long shadow of medieval France that had lain over these islands since the Norman Conquest. This popular book covers the period beautifully.

Throughout the world, people regard Peter Sellers purely as a comedic genius: surely, one of the greatest ever to have lived. But, the astute observer will notice that he always appeared to be acting, even when being interviewed. So, who was Peter Sellers? Sellers once said, 'I could never be myself you see. There is no "Me". I do not exist. There used to be me, but I had it surgically removed'. Clearly, this was not intended to be taken literally. Instead, the inference is that somehow, he had lost his sense of identity. To discover the real Peter Sellers is no easy task, and when we do, what we encounter is a totally different persona from the comedic

characters that he portrayed on the screen. Sellers had celebrity status: a succession of beautiful wives; immense wealth; magnificent motor cars; expensive yachts; a house in Mayfair, and various palatial residences. But far from being happy, he was plagued by self-doubt; ambitious, but never satisfied. And so, he resorted to superstition, clairvoyance, and drugs to get himself through the day. For all Sellers' worldwide fame as 'Inspector Clouseau', many regard the film *Being There*, in which he played the character 'Chance', a gardener, as his masterpiece. In fact, the film was a damning indictment of the false god of materialism. Sellers' obsession with the character of 'Chance', makes it seem likely that this was the kind of person he aspired to be, and wished that he had been.

Born of an American mother amid the splendors of Blenheim Place in the English countryside in 1874, Winston Leonard Spencer Churchill was to leave a unique mark on history. Throughout a distinguished army career, marriage, war and peace, he gained the love and

respect of the British nation, being honored with a state funeral upon his death in 1965. In this illustrated biography we discover not only the soldier and politician, but also the artist and writer, whose skill with the written word is legendary.

A fascinating look at the life of one of England's favourite novelists, Charles Dickens.

Top Ten Rankings of the Best, Worst, Largest, and Most Lethal People and Events of World War II

The loss of East Indiaman HCS `Halsewell' on the coast of Dorset in southern England in January 1786, touched the very heart of the British nation. `Halsewell' was just one of many hundreds of vessels which had been in the service of the Honourable East India Company since its foundation in the year 1600. In the normal course of events, `Halsewell' would have been expected to serve

out her working life, before passing unnoticed into the history books. However, this was not to be. Halsewell's loss was an event of such pathos as to inspire the greatest writer of the age Charles Dickens, to put pen to paper; the greatest painter of the age J. M. W. Turner, to apply brush to canvas, and the King and Queen to pay homage at the very place where the catastrophe occurred. Artefacts from the wreck continue to be recovered to this very day which, and for variety, interest, curiosity, and exoticism, rival those recovered from Spanish armada galleons wrecked off the west coast of Ireland two centuries previously. Such artefacts shed further light both on 'Halsewell' herself, and on the extraordinary lives of those who sailed in her.

This revised guide tells the complete story of the Norman Conquest, from William's claim to the throne to the impact of the Normans on Britain's culture and landscape. This classic Pitkin Guide includes illustrations from the Bayeux tapestry and a diagram of the armies and their struggles. The Pitkin Guide to Britain's Kings & Queens presents a concise, informative history, in words and pictures, of Britain's 56 sovereigns from Alfred the Great in the 9th century to our reigning monarch, Queen Elizabeth II. Beautifully illustrated, this book includes family trees and details of where and when each monarch was born, where they were crowned, the dates they reigned and where they are buried. Now fully updated with the discovery of Richard III's bones, the birth of HRH Prince George and the 2013 Succession to the Crown Act, this Pitkin Guide contains all you need to know on Britain's Kings & Queens. This beautifully illustrated book is part of the Pitkin Royal Collection series, celebrating the lives of the British royal family. Other notable titles in this insightful series include Royal Babies, The Queen and Her Family and Queen Elizabeth II.

Written by an authority on Adolf Hitler, this book charts new ground and shows how the writings of a deluded ex-monk, Lanz von Liebenfels and the pseudo-science of Liebenfels and other writers, convinced Hitler that Germany's destiny was to save the world from a Jewish-Bolshevik conspiracy. It was this perverted sense of destiny that

Read Free The Civil War (Pitkin Guides)

drove the Nazi Party and led to the outbreak of WWII and the deaths of some sixty million people as well as the destruction of much of Europe. Using the writings of Liebenfels from his magazine Ostara, Dr Andrew Norman demonstrates how the mass murders of Jews, Gypsies, mentally-ill people and those regarded as less than human had its roots in articles written by Liebenfels. An index of Ostara articles is included and their very titles indicate the malign influences that shaped Hitler's Germany.

Charles Dickens' novels are read and loved throughout the world, written at a time of struggle with the French emperor Napoleon and in an England at the peak of its power and prosperity through commerce, industry and the vigour of a fervently respectable middle class. The novels bear the stamp of the turbulent period in which Dickens' life was lived, conveying a strong sense of progress and reform. This colourful and well-written guide conducts the reader through Dickens' world via his life, both personal and professional. It includes a list of important dates in Dickens' life and work, and a gazetteer of places to visit for a glimpse into the man himself and what inspired his novels.

The eighteenth century laid the foundations for Britain's worldwide empire and economic prosperity. It was a period of great contrasts: between poverty and wealth, elegance and riotous ribaldry. This Pitkin

Dance is part of the art of theatre, a part which connects to movement, to communication, to improvisation, and to performance. It cannot exist on its own in the context of dramatic performance, but works in conjunction with other elements to enable meanings to be created in performance. Dramatic Dance sets a programme for actors to perform dance as part of the drama, offering several approaches which can contribute to developing this understanding, to training this skill, and always ensuring that the whole active and thinking body and mind are fully engaged with the task of making dance an integral and vital part of theatre. To study dance in this way allows students to develop further their understanding of logic and structure in a

dramatic text. Many books deal with one aspect of dance or another: some on dance training, some on dance history, some on Rudolf Laban's ideas, some as dance manuals, and some as academic papers. Dramatic Dance is the first book to act as a comprehensive guide for theatre practice, bringing together these different, complementary disciplines. "The single best kickoff to the American Civil War...I can't imagine a better guide for any of us, whether student or scholar." -Robert Hicks author of the New York Times bestselling novel The Widow of the South "A detailed and enjoyable set of facts and stories that will engage every reader from the newest initiate to the Civil War saga to the most experienced historian. This book is a must have for any Civil War reading collection." - James Lewis, Park Ranger at Stones River National Battlefield Do You Think You Know the Civil War? The History Buff's Guide to the Civil War clears the powder smoke surrounding the war that changed America forever. What were the best, the worst, the largest, and the most lethal aspects of the conflict? With over thirty annotated top ten lists and unexpected new findings, author Thomas R. Flagel will have you debating the most intriguing questions of the Civil War in no time. From the top ten causes of the war to the top ten bloodiest battles, this invaluable guide to the great war between the states will delight and inform you about one of the most crucial periods in

American history.

Walk in the footsteps of history with this stunning volume that brings more than thirty Civil War battlefields to life. From the “ First Battle of Bull Run ” to Lee ’ s surrender at Appomattox Court House four years later, this book celebrates the history and scenic beauty of these hallowed grounds in a large-format, beautifully produced volume. Explore more than thirty Civil War battlefields— from Antietam to Chancellorsville, Gettysburg to Shiloh—including the first five national battlefield parks preserved by veterans in the 1890s. Each battlefield features extensive photos of the key sites and monuments, as well as beautiful landscapes and historic archival photography. The essays enable the reader to understand each battlefield from a strategic perspective—its topography, geography, and military value—the battle ’ s seminal moments, and its historical significance, and guide the reader on how best to tour the grounds on foot. With maps, rarely seen archival photos, and stunning contemporary photography, this photo- and information-packed book is an inspirational bucket list for Civil War and history buffs, as well as those who wish to walk in the literal boot steps of American history.

This interdisciplinary study explores the evolution, structure, and uses of the image of Georgian Bath, from its genesis in the eighteenth century to its renaissance in the twentieth century. In recent decades there has been both a popular resurgence of interest in heritage and tradition, and a growing academic awareness of the power of imagery in shaping the lives of individuals and societies. There is perhaps no city in Britain so saturated in history and layered with historic imagery

as Bath. It therefore provides an ideal case-study to investigate the dynamic fusion and impact of the forces of past and representation. The dominant perception of Bath today is that of a classical and particularly Georgian city. In this stimulating and scholarly study, Peter Borsay examines the construction and development of this image. Its principal components, biography and architecture, are explored, together with the media through which it was constructed and transmitted, as well as its commercial, social, political, and psychological uses. Dr Borsay concludes by relating the findings for Bath to current debates on towns, heritage, and the nature of history.

The ancient city of Chester has attracted visitors since Roman days - and still does. Its medieval walls, Victorian streets, Civil War sites and the famous Rows all give a sense of history and peace.
