and those who were changed by them, Jordan Easley shows how the power of God helps us begin to change what we can't change ourselves.

What is the thought you thinking right now? Is it an empowering thought? Is it a thought about the argument you had yesterday? Is it a thought about what you have to do tomorrow? Is it a thought about what you saw in the news? Whatever that thought is; you are using it to create your own reality. We are deeply engrossed in a time trap called a past, a present and a future. For many of us, we lock ourselves into internal and external conversations that revisit the past or speak about a future; filtered through our past memories. Through continuous internal dialogues, we tend attract to

We get out of one relationship and find ourselves engaged with the same type of person. At points we ask ourselves: Why am I experiencing this again? Why do I keep attracting the same thing over and over again? Why ME every time? You are destined to be happy and joyful, you are destined to enjoy the true nectar of life called abundance, you are destined to be in perfect health and wellness and you are destined to be wealthy and ever prosperous. incur over the course of their lives, and how those "cuts" subsequently shape their lives. (Cuts are hurts, experiences, tragedies, and/or various pains incurred).

Unfortunately, people will inevitably incur hurts and pains in life, which most are beyond their own control. One simply cannot control what happens to them at the hands of another. People hurt other people. It's not so much the hurt that causes the problem, but more so the effects of the hurt. Oftentimes, people ignore the hurt. They try to live their lives as if the hurt never occurred. Many are oblivious to their deep hurt because they've mastered the art of disguising the

pain. The problem ensues when the severely wounded people interact with others, then they subsequently inflict others with the residual hurt that they've been harboring. Because of this, many fail to realize that they've been "cut" and are in need of healing. The purpose of this book is to aid in identifying and healing cuts from one's life (including their past, present, or possibly their future), as these cuts will affect one's life in some regard. Oftentimes, people need healing to recover from some trauma or tragedy that they've endured, yet they're too afraid to ask for help. Many internalize their feelings, never properly articulating their mental anguish, ultimately

The place to begin is mindful awareness of our pure potentials. If we want to understand our strengths, we must awaken a deep, rich connection with our inner leader - we must set free the wealth of our value to express who we are and what we are compelled to do**

When tax bills arrived for over \$1m for his illegal deals, her ex left the country, her father refused to help, and Huson—who’d always been “scared and intimidated by money”—realized she had to grow up financially, fast. *BACK COVER OF BOOK Learn to heal  
yourself and others. Are You a Healer?  
Everyone has the ability to heal but most  
people do not pay attention to this  
wondrous skill. To heal with energy is to  
believe the spiritual truism that energy  
comes first and all else stems from it. Most  
people believe in the world that they see  
with their eyes but not the internal world  
that they feel with their hearts and spirit.*

*It is your energy that creates who you are and what happens to you. Who can be a healer? Everyone is a healer. All of us are Light Beings. Each one of us holds the magical key of reaching the healer within, the part of you that is whole and always in touch with the oneness of the universe, which is what we call your Higher Self. Healing is the art of bringing a person's energy back to a true balance. We all have the ability to heal ourselves, and others. Energetic Healing introduces you to the skills of being able to diagnose to heal; to understand the nature of Karma and Free Will; to heal without taking on the other person's pain, energy or problem; and to heal from a place of neutral cosmic love. Healing is a very powerful skill. It is the type of skill you will get to practice more than any other skill since people seem always to be encountering one healing problem or another in life! Sometimes it is a healing of a physical problem but it can also be a healing of an emotional, mental or spiritual nature too. What the Healer learns from Healing: Healing is the ability to change or shift energy. If you can shift your own energy or someone else's to heal yourself of a physical problem you can also shift your energy to "heal" yourself of an emotional, mental, financial or spiritual problem too. Many people study Energetic Medicine, and go on in life to use these skills to improve their financial situation, to create better relationships with spouses and family members, to change outmoded, rigid or stuck ways of thinking, to clear old emotional patterns and feelings and to release physical pain and trauma in their*

*When it comes to disease, who beats the odds — and why? When it comes to spontaneous healing, skepticism abounds. Doctors are taught that “miraculous” recoveries are flukes, and as a result they don’t study those cases or take them into account when treating patients. Enter Dr. Jeff Rediger, who has spent over 15 years studying spontaneous healing, pioneering the use of scientific tools to investigate recoveries from incurable illnesses. Dr. Rediger’s research has taken him from America’s top hospitals to healing centers around the world—and along the way he’s uncovered insights into why some people beat the odds. In Cured, Dr. Rediger digs down to the root causes of illness, showing how to create an environment that sets the stage for healing. He reveals the patterns*

Next, we need to mentally heal our stress response and our identities. Through rigorous research, Dr. Rediger shows that much of our physical reality is created in our minds. Our perception changes our experience, even to the point of changing our physical bodies—and thus the healing of our identity may be our greatest tool to recovery. Ultimately, miracles only contradict what we know of nature at this point in time. Cured leads the way in explaining the science behind these miracles, and provides a first-of-its-kind guidebook to both healing and preventing disease.*
