In late November 2006 the world was shaken by the ruthless assassination in London of Alexander Litvinenko, a former Lt Col of the Russian security service (FSB). The murder was the most notorious crime committed by the Russian intelligence on foreign soil in over three decades. The author, Boris Volodarsky, who was consulted by the Metropolitan Police during the investigation and remains in close contact with Litvinenko's widow, is a former Russian military intelligence officer and an international expert in special operations. His narrative reveals that since 1917 – beginning with Lenin and his Cheka – the Russian security services have regularly carried out bespoke poisoning operations all over the world to eliminate the enemies of the Kremlin. The author proves that the

Litvinenko's poisoning is just one episode in the chain of murders that continues until the present day. Some of these assassinations or attempted assassinations are already known, others are revealed here for the first time. Uniquely Volodarsky has had a personal involvement in almost every each of the 20 cases, from the radioactive thallium poisoning of the Soviet defector Nikolai Khokhlov in Frankfurt in September 1957 to the ricin 'umbrella murder' of the Bulgarian dissident Georgi Markov in London in 1978. was used in operations far more sinister than the public could ever imagine.

Among them, the book addresses what may be the single most important unanswered question of the entire Trump era: Is Donald Trump a Russian asset?

The answer, American Kompromat says, is yes, and it supports that conclusion with the first richly detailed narrative on how the KGB allegedly first “spotted” Trump as a potential asset, how they cultivated him as an asset, arranged his first trip to Moscow, and pumped him full of KGB talking points that were published in three of America’s most prestigious newspapers. Among its many revelations, American Kompromat reports for the first time that: •

According to Yuri Shvets, a former major

Happens Next After THE RED SPARROW Starring Jennifer Lawrence (Paul Spenser Trilogy)

in the KGB, Trump first did business over forty years ago with a Manhattan electronics store co-owned by a Soviet émigré who Shvets believes was working with the KGB. Trump's decision to do business there triggered protocols through which the Soviet spy agency began efforts to cultivate Trump as an asset, thus launching a decades-long "relationship" of mutual benefit to Russia and Trump, from real estate to real power. • Trump's invitation to Moscow in 1987 was billed as a preliminary scouting trip for a hotel, but according to Shvets, was actually initiated by a high-level KGB official, General Ivan Gromakov. These sorts of trips were usually arranged for "deep development," recruitment, or for a meeting with the KGB handlers, even if the potential asset was unaware of it. • Before Trump's first trip to Moscow, he

met with Natalia Dubinina, who worked at the United Nations library in a vital position usually reserved as a cover for KGB operatives. • In 1987, according to Shvets, the KGB circulated an internal cable hailing the successful execution of an active measure by a newly cultivated American asset who took out full page ads in The New York Times, The Washington Post, and The Boston Globe promoting policies promoted by the KGB. The ads had been taken out by Donald Trump, who, Shvets said, would become a “special unofficial contact” for the KGB, that is, an intelligence asset whose role has been compared to that of the late industrialist, Armand Hammer. A number of America’s highest national security officials have said they believe Trump is a Russian asset, but neither the Mueller Report nor the numerous congressional investigations throughout

Trump's presidency pursued that vital question. American Kompromat does. In addition to exploring Trump's ties to the KGB, American Kompromat also shows that from Donald Trump to Jeffrey Epstein, Russian kompromat operations documented the darkest secrets of the most powerful people in the world and transformed those secrets into potent weapons. It also reveals:

- How Jeffrey Epstein and Trump jostled for influence and financial supremacy for years. A college dropout let go from his prep school teaching job, Epstein became a millionaire in part with the help of Ghislaine Maxwell's father—media tycoon Robert Maxwell, who allegedly served as a Soviet and Israeli spy and likely gave Epstein a sum estimated between \$10 and \$20 million before his death in 1991.
- How the Jeffrey Epstein-Ghislaine Maxwell sex-trafficking

operation provided a source and marketplace for sexual kompromat--dirty secrets of the richest and most powerful men in the world. While Epstein had a rule when it came to selecting women, namely, "the younger, the better," he also knew that a multimillionaire--or future leader--caught committing adultery is nothing compared to getting caught on video in the act with a minor. • How the Epstein-Maxwell ring helped enable young women with possible ties to Russian intelligence to gain access to the highest levels of Silicon Valley and the worlds of artificial intelligence, supercomputers, and the internet. This, at a time when Vladimir Putin has asserted, "Whoever becomes the leader in this sphere [artificial intelligence] will become the ruler of the world." • How Epstein had ties to Russia through sex-trafficking. Epstein partnered with Jean-

Luc Brunel, head of MC2 modeling agency and a major sex trafficker, who, in turn, had worked with Peter Listerman, the celebrated procurer, or "matchmaker" as he prefers, for Russian oligarchs. • How John Mark Dougan, a former deputy sheriff in Mar-a-Lago's Palm Beach County, says he acquired 478 videos confiscated from the Jeffrey Epstein investigation, fled to Moscow, became only the fourth American to win asylum in Russia, and immediately gained access to Putin's inner circle, showing the ongoing power that comes from kompromat and how its value is highest before it is "used."

and when he did, he barely escaped with his life. His Russian lawyer Sergei Magnitsky wasn't so lucky: he ended up in jail, where he was tortured to death. That changed Browder forever. He saw the murderous heart of the Putin regime and has spent the last half decade on a campaign to expose it. Because of that, he became Putin's number one enemy, especially after Browder succeeded in having a law passed in the United States—The Magnitsky Act—that punishes a list of Russians implicated in the lawyer's murder. Putin famously retaliated with a law that bans Americans from adopting Russian orphans.
