

The Robert Half Way To Get Hired In Today's Job Market

A relentless alien bounty hunter encloses a Texas town under a dome to isolate, hunt, and kill its prey in “the ultimate horror novel” (The Philadelphia Inquirer). Ever since the copper mine closed, the West Texas desert hellholes of Inferno and Bordertown have been slowly dying. Snake River isn’t the only thing that divides them. Racism, gang wars, and anti-Mexican sentiment have turned the sun-scorched flatlands into a powder keg. If anything can unite them for now, at least in awe and wonder, it’s the UFO that comes soaring out of the clouds like a flaming locomotive. In the wake of the crash, a young alien named Daufin has arrived, too. A fugitive who has taken the form of a human, she knows the terror that awaits the inhabitants of this planet—because it is looking for her. When Stinger, the monstrous alien bounty hunter, arrives, it’s with a destructive fury and a devious plan to find Daufin—by entombing the residents in an impenetrable and inescapable dome. A relentless killing machine, Stinger has an infinite capacity for death and destruction. And over the next twenty-four hours, this town is going to bleed and burn. Now, the few remaining survivors must come together to protect Daufin, themselves, and the world beyond from total annihilation. From the New York Times best-selling and Bram Stoker Award-winning author of Swan Song, Stinger was called “one of the best suspense novels of recent years” by the Science Fiction Chronicle.

A practical, holistic approach to handling successfully periods of change, from surviving career shifts to starting over after a divorce, identifies the qualities that enable people to thrive amid stressful transitions. Original. 17,500 first printing.

"I Am Not" is author Robert E. Draper's attempt to provide insight into our age-old plight of finding ourselves "strangers in a strange land," as well as into the great difficulty we all have in accepting that if we are living in a world of virtual insanity, we are—at least partly—insane too. According to the author, this world is a dystopian battleground, a product of a collective amnesia that has burdened us all with the difficult task of living coherently while working our way back to the awareness of what we are: united; yet believing we are what we are not: separated—all of our hearts breaking over what we know not. The central theme of "I Am Not" is recognizing the futility of our efforts to improve the way we appear to be in, redirecting those efforts to the goal of waking up to what we are doing, saving not the world but ourselves. Only thus can we reverse our own course into madness, finding—and demonstrating—there is hope within, right in the middle of a place where there is none to be found without.

Like any muscle, creativity requires repetitive and challenging exercise to grow. The 30-day program provides an escalation of creative exercises that test our problem-solving prowess and train us to overcome the obstacles that inhibit ideation. The program tests regularly, both in idea quantity and quality, to ensure we are on track with our boot camp goals. But unlike the gym, these exercises aren't to be dreaded. They are light, fun, and take 10-15 minutes max. By the end

Dear reader, the first novel of this series is titled OHIO. And, maybe you are on your computer right now, trying to decide whether or not to purchase it. Maybe you are in a bookstore and holding it in your hands; you have studied its cover, you've already read the opening lines, and you've flipped to the middle and read something there. Maybe you have read the last paragraph. Maybe you have done the same with all three novels. Dear reader, the novels are not for you, unless you possess the desire to listen with all your heart to the words you will find in them. If this desire is yours, I, Jonathan Kensett, welcome you into a world I could not have known if I had not listened with all my heart, as well, that fateful evening when I had dinner with Abby Vredenburg in Sunbury, Ohio. That night the real journey began for me. Dear reader, I would invite you to journey with me through OHIO, and then to continue the journey through IN THE DAYS OF CORONADO and TERRAM NOVAM. After you have read the first three there are more. NOWHERE, soon to be released is the story of a ghost town in Southeast Utah, but it is much more than just a story about a ghost town. ROSE OF SHARON 1896-1974, also soon to be released, is the story of a little town in Northern Ohio established in 1866 in the novel OHIO; it is the story of the town seen through the eyes of three generations of another family, and it too is much more than a story about a small town. And, the next novel in the series, THE SIX POINTS OF THE STAR, is still a shadowy sketch inside my mind. But, it can't remain a sketch for much longer. Sometimes I wish I had never gone to Ohio to observe that Civil War Battlefield Reenactment of the Battle of Second Bull Run and to write that series of articles for Stars and Stripes Magazine. Sometimes I wish I had not met Abby Vredenburg, may he rest in peace. Sometimes I wish I had not gone to New Mexico and found what I found on the mesa. Sometimes I look into the mirror and wish so many things could have been different. I wish I would not have to think about certain things like war and death, like pain and loss and grief, and deception and betrayal. I wish life could be free of such things. I long for redemption and freedom from suffering. I long for a world where nothing is hidden because there is no reason to hide. And, I long for the day when this story is finished but the more I write the more I understand it can never be finished until... Jonathan Kensett was born in 1952 and spent his youth traveling and living in many, many places on planet earth. At age seventeen, he lied to get into the U.S. Army, was sent to Viet Nam and served in Company D, 1st Battalion, 501st Infantry Regiment, 101st Airborne Division, 1969-1970. After that, he went to Harvard and earned degrees in journalism and law. He has not practiced law, choosing instead to be a free-lance writer. He will always wonder if he made the right choice. Now that he is too old to change he might as well try to enjoy every day as much as possible. No one writes like him. No one.

THE MILLION COPY INTERNATIONAL BESTSELLER Drawn from 3,000 years of the history of power, this is the definitive guide to help readers achieve for themselves what Queen Elizabeth I, Henry Kissinger, Louis XIV and Machiavelli learnt the hard way. Law 1: Never outshine the master Law 2: Never put too much trust in friends; learn how to use enemies Law 3: Conceal your intentions Law 4: Always say less than necessary. The text is bold and elegant, laid out in black and red throughout and replete with fables and unique word sculptures. The 48 laws are illustrated through the tactics, triumphs and failures of great figures from the past who have wielded - or been victimised by - power.

(From the Playboy interview with Jay-Z, April 2003) PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In The 48 Laws of Power, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, Volume Three, was wack. People set higher standards for me, and I love it.

The life force, also known as "spirit," is the essence of being and the conscious and most important form of energy. Living energy is personal and within our conscious control, and by learning about it, we can use it to transform our life into vibrant and meaningful expressions of who we really are. Consciousness is purely energetic and therefore difficult to quantify in mechanistic terms. It is the characteristic of living energy and is the foundation of awareness. Consciousness is the thread running through all life. Living Energy is an introduction to the process of mystic spirituality. The reader is encouraged to attain a deep and meaningful connection to the divine with expanded awareness. The principles given in this book are equally relevant to the novice and the advanced practitioner. Robert explains how we may reveal our hidden potential by shifting our perception away from what is customary and comfortable to open the doors to greater spiritual awareness.

Illustrated with 15 maps and 6 portraits The 1807-14 war in the Iberian Peninsula was one of the most significant and influential campaigns of the Napoleonic Wars. Arising from Napoleon's strategic need to impose his rule over Portugal and Spain, it evolved into a constant drain on his resources.

Sir Charles Oman's seven-volume history of the campaign is an unrivalled and essential work. His extensive use and analysis of French, Spanish, Portuguese and British participants' accounts and archival material, together with his own inspection of the battlefields, provides a comprehensive and balanced account of this most important episode in Napoleonic military history. During this period, the outcome of the war was effectively decided by Wellington's advance from Portugal into Spain. The operations that took place at this time included the French campaigns of late 1811, the Allied offensive, and Wellington's great victory at Salamanca. Other notable actions included that at Garcia Hernandez, and there were also smaller operations such as those on the east coast of Spain. Orders of battle, lists of strength and casualties, and an account of Wellington's intelligence officer and code-breaker Sir George Scovell, whose efforts contributed greatly to Wellington's plans of campaign, are given in the appendices to this volume.

Instructive and enlightening. Fun, too. D30 is a workout book. In addition to dozens of readily applicable tips, tricks and informational tidbits, D30 contains thirty exercises designed to develop and strengthen the creative powers of graphic designers, artists and photographers in a variety of intriguing and fun ways. What will you need to begin? Not much. Most of the book's step-by-step projects call for setting aside an hour or two, rolling up your sleeves and grabbing art supplies that are probably already stashed somewhere in your home or studio--things like pens, drawing and watercolor paper, India ink, paint, scissors and glue. Digital cameras and computers are also employed for several of the exercises but--and this should be welcome news to those readers who spend their days looking at computer monitors--the majority of the book's activities make use of traditional media to illuminate creative techniques and visual strategies that can be applied to media of all sorts.
