During the late 18th and early 19th centuries, there was a tubercular 'moment' in which perceptions of the consumptive disease became inextricably tied to contemporary concepts of beauty, playing out in the clothing fashions of the day. With the ravages of the illness widely regarded as conferring beauty on the sufferer, it became commonplace to regard tuberculosis as a positive affliction, one to be emulated in both beauty practices and dress. While medical writers of the time believed that the fashionable way of life of many women actually rendered them susceptible to the disease, Carolyn A. Day investigates the deliberate and widespread flouting of admonitions against these fashion practices in the pursuit of beauty. Through an exploration of contemporary social trends and medical advice revealed in medical writing, literature and personal papers, Consumptive Chic uncovers the intimate relationship between fashionable women's clothing, and medical understandings of the illness. Illustrated with over 40 full color fashion plates, caricatures, medical images, and photographs of original garments, this is a compelling story of the intimate relationship between the body, beauty, and disease - and the rise of 'tubercular chic'.

Between 1512 and 1570, Florence underwent dramatic political transformations. As citizens jockeyed for prominence, portraits became an essential means not only of recording a likeness but also of conveying a sitter's character, social position, and cultural ambitions. This fascinating book explores the ways that painters (including Jacopo Pontormo, Agnolo Bronzino, and Francesco Salviati), sculptors (such as Benvenuto Cellini), and artists in other media endowed their works with an erudite and self-consciously stylish character that made Florentine portraiture distinctive. The Medici family had ruled Florence without interruption between 1434 and 1494. Following their return to power in 1512, Cosimo I de' Medici, who became the second Duke of Florence in 1537, demonstrated a particularly shrewd ability to wield culture as a political tool in order to transform Florence into a dynastic duchy and give Florentine art the central position it has held ever since. Featuring more than ninety remarkable paintings, sculptures, works on paper, and medals, this volume is written by a team of leading international authors and presents a sweeping, penetrating exploration of a crucial and vibrant period in Italian art.

From the internationally acclaimed and bestselling historians William Dalrymple and Anita Anand, the first comprehensive and authoritative history of the Koh-i-Noor diamond, arguably the most celebrated jewel in the world. On March 29, 1849, the ten-year-old leader of the Sikh kingdom of the Punjab was ushered into the magnificent Mirrored Hall at the center of the British fort in Lahore, India. There, in a formal Act of Submission, the frightened but dignified child handed over to the British East India Company swathes of the richest land in India and the single most valuable object in the subcontinent: the celebrated Koh-i-Noor diamond, otherwise known as the Mountain of Light. To celebrate the acquisition, the British East India Company commissioned a history of the diamond woven together from the gossip of the Delhi Bazaars. From that moment forward, the Koh-i-Noor became the most famous and mythological diamond in history, with thousands of people coming to see it at the 1851 Great Exhibition and still more thousands repeating the largely fictitious account of its passage through history. Using original eyewitness accounts and chronicles never before translated into English, Dalrymple and Anand trace the true history of the diamond and disperse the myths and fantastic tales that have long surrounded this awe-inspiring jewel. The resulting history of south and central Asia tells a true tale of greed, conquest, murder, torture, colonialism, and appropriation that shaped a continent and the Koh-i-Noor itself.

The Gilded Years of the late nineteenth century were a vital and glamorous era in New York City as families of great fortune sought to demonstrate their new position by building vast Fifth Avenue mansions filled with precious objects and important painting collections and hosting elaborate fetes and balls. This is the moment of Mrs. Astor’s “Four Hundred,” the rise of the Vanderbilts and Morgans, Maison Worth, Tiffany & Co., Duveen, and Allard. Concurrently these families became New York’s first cultural philanthropists, supporting the fledgling Metropolitan Museum of Art and the Metropolitan Opera, among many institutions founded during this period. A collaboration with the Museum of the City of New York, Gilded New York examines the social and cultural history of these years, focusing on interior design and decorative arts, fashion and jewelry, and the publications that were the progenitors of today’s shelter magazines.

From the dawn of time, ruby and sapphire have both attracted and fascinated humans in ways that few other items could.While objects of desire are found throughout the natural world, physical beauty is too often ephemeral. From the allure of a man, woman, flower or butterfly, through the fleeting moments of a sunset, there is little that lasts and practically nothing that can be passed down to our descendants. The exception is precious stones. Not only are they the most durable creations of mother nature, but their visual splendor is truly eternal.In this companion to his 2013 book, Ruby & Sapphire--A Collector’s Guide, Richard Hughes examines these gems from the gemological standpoint, delving into these gems not just from the aesthetic, but also from the scientific point of view.The product of nearly 40 years of firsthand experience, it covers every aspect of the subject from A-Z. History, sources, prices, quality analysis, synthetics and treatments, everything is here. Ruby & Sapphire--A Gemologist's Guide represents the most comprehensive book ever written on a single precious stone. With over 1000 photos, maps and illustrations and 3500 references, it is nothing less than a tour-de-force of gemological scholarship.

Reenactor Dr. Charlotte Mallory has spent years perfecting the portrayal of her ancestor, Civil War Confederate surgeon Major Carlton Mallory. In the middle of the 150th anniversary reenactment of the Battle of Cedar Creek, she is hurled back in time and lands in the middle of the battle itself, and from there is catapulted into dangers that threaten her life and shatter her heart. Charlotte is captured by Union soldiers during the battle and hauled before General Sheridan. The General only sees a Confederate surgeon who can solve a challenging problem for him, so he threatens Charlotte with the destruction of her two-hundred-year-old ancestral home unless "he" agrees to rescue a Union spy from a Confederate hospital. To save her home and possibly her own life, she reluctantly agrees. After a harrowing journey to Chimborazo Hospital in Richmond, she finds her target, a handsome, green-eyed spy with a Minie ball in his gut and is now at death's door. Without a thought for long-term consequences, she returns with him to the future, where she has the technology to save his life. While recovering from his gunshot wound in Charlotte's ancestral home, the spy, Major Michael Abraham "Braham" McCabe learns the man he works for, President Lincoln, was assassinated. Now Braham is determined to return to his century to prevent the assassination. When Charlotte refuses to help him, because it will change the future, he finds another way to get back to his own time. Now Charlotte must find the courage to follow her heart into the past, and fix the mess she created before it unravels and changes the course of history. What began as the rescue of a dying man explodes into an eight-month, terrifying, and spellbinding escapade that carries Charlotte across the boundaries of time, honor, and duty to protect history and those she loves, putting everything she cherishes at risk, her heart, her home, and her life. From the Badlands to the Bluegrass, this perilous, potentially deadly adventure changes the lives of everyone involved and puts at risk the survival of the Clan and all the Celtic brooches. While dressing for a dinner date with her cousin and James Cullen Fraser, Ensley Williams picks through her jewelry box for some bling to add to her outfit and chooses her late mother’s sunstone brooch. Engraved on the inside of the stone is an inscription. When she recites the Celtic words, she's engulfed in a pea-scented fog and transported back to the Dakota Badlands in 1885 where she meets Teddy Roosevelt at his Elkhorn Ranch. When James Cullen discovers Ensley has disappeared, he decides not to tell his family that he's going back to rescue her, which is the worst decision he's ever made. After finding TR at his ranch, Ensley's not in a hurry to return to the future. She grew up in North Dakota near the Theodore Roosevelt National Park, and this is a dream come true. She wants to go on a roundup with TR, while JC wants to go to MacKlenna Farm and "borrow" some gold from Braham McCabe's secret cache. JC makes the second worst decision of his life and leaves Ensley in Roosevelt's hands. While Ensley struggles with bad weather, bad food, stampedes, and wild animals, JC goes up against an evil force that plunges him into a crucible of terror and agony that could bring down the entire MacKlenna Clan. "A dynamic group biography studied with design history and high-society dash . . . [This] elegantly wrought narrative bears the Cartier hallmark."--The Economist The captivating story of the family behind the Cartier empire and the three brothers who turned their grandfather's humble Parisian jewelry store into a global luxury icon--as told by a great-granddaughter with exclusive access to long-lost family archives "Ms. Cartier Brickell has done her grandfather proud."--The Wall Street Journal The Cartiers is the revealing tale of a jewelry dynasty--four generations, from revolutionary France to the 1970s. At its heart are the three Cartier brothers whose motto was "Never copy, only create" and who made their family firm internationally famous in the early days of the twentieth century, thanks to their unique and complementary talents: Louis, the visionary designer who created the first men's wristwatch to help an aviator friend tell the time without taking his hands off the controls of his flying machine; Pierre, the master dealmaker who bought the New York headquarters on Fifth Avenue for a double-stranded natural pearl necklace; and Jacques, the globe-trotting gemstone expert whose travels to India gave Cartier access to the world's best rubies, emeralds, and sapphires, inspiring the celebrated Tutti Frutti jewelry. Francesca Cartier Brickell, whose great-grandfather was the youngest of the brothers, has traveled the world researching her family's history, tracking down those connected with her ancestors and discovering long-lost pieces of the puzzle along the way. Now she reveals never-before-told dramas, romances, intrigues, betrayals, and more. The Cartiers also offers a behind-the-scenes look at the firm's most iconic jewelry--the notoriously cursed Hope Diamond, the Romanov emeralds, the classic panther pieces--and the long line of stars from the worlds of fashion, film, and royalty who wore them, from Indian maharajas and Russian

grand duchesses to Wallis Simpson, Coco Chanel, and Elizabeth Taylor. Published in the two-hundredth anniversary year of the birth of the dynasty's founder, Louis-François Cartier, this book is a magnificent, definitive, epic social history shown through the deeply personal lens of one legendary family.

Claire Randall is leading a double life. She has a husband in one century, and a lover in another... In 1945, Claire Randall, a former combat nurse, is back from the war and reunited with her husband on a second honeymoon—when she innocently touches a boulder in one of the ancient stone circles that dot the British Isles. Suddenly she is a Sassenach—an "outlander"—in a Scotland torn by war and raiding border clans in the year of our Lord...1743. Hurlled back in time by forces she cannot understand, Claire's destiny is soon inextricably intertwined with Clan MacKenzie and the forbidden Castle Leoch. She is catapulted without warning into the intrigues of lairds and spies that may threaten her life ...and shatter her heart. For here, James Fraser, a gallant young Scots warrior, shows her a passion so fierce and a love so absolute that Claire becomes a woman torn between fidelity and desire...and between two vastly different men in two irreconcilable lives.

Described by Virginia Woolf herself as 'easily the best of my books', and by her husband Leonard as a 'masterpiece', *To the Lighthouse*, first published in 1927, is one of the milestones of Modernism. Set on the Isle of Skye, over a decade spanning the First World War, the narrative centres on the Ramsay family, and is framed by Mrs Ramsay's promise to take a trip to the lighthouse the next day - a promise which isn't to be fulfilled for a decade. Flowing from character to character and from year to year, the novel paints a moving portrait of love, loss and perception. Bearing all the hallmarks of Woolf's prose, with her delicate handling of the complexities of human relationships, *To the Lighthouse* has earned its reputation - frequently appearing in lists of the best novels of the twentieth century, it has lost not an iota of brilliance.

Now with an Historical Afterword by Ron Miller Featured in Ron Miller's *The Conquest of Space Book Series*. Ó One of the earliest books to accurately describe in detail the uses to which rockets might be put in space exploration, John Munro's novel is also an exciting, humorous adventure on another world.
