*The Years of Alienation in Italy offers an interdisciplinary overview of the socio-political, psychological, philosophical, and cultural meanings that the notion of alienation took on in Italy between the 1960s and the 1970s. It addresses alienation as a social condition of estrangement caused by the capitalist system, a pathological state of the mind and an ontological condition of subjectivity. Contributors to the edited volume explore the pervasive influence this multifarious concept had on literature, cinema, architecture, and photography in Italy. The collection also theoretically reassesses the notion of alienation from a novel perspective, employing Italy as a paradigmatic case study in its pioneering role in the revolution of mental health care and factory work during these two decades.*

*Luca Del Baldo's Visionary Academy of Ocular Mentality is an extraordinary testament in the recent history of visual studies. It brings together a group of outstanding scholars who have devoted their lives to art history, philosophy, history, ethnology, focussing predominantly on questions of human perception and imagination. Working from photographs provided by the scholars, Luca del Baldo painted his series of 96 portraits reproduced in this book. The portraits are accompanied by texts written by the persons portrayed, in response to their portrayal, and as an exchange: the artist gifted the original painting to the portrayed person, and the portrayed gifted her or his response. "The result is a unique and profound conversation between image and text focussed on the enigma of the human face in all its mediations." (W.J.T. Mitchell)*

Having a good relationship with money is tough—whether you have millions in the bank or just a few bucks to your name. Why? Because just like any other relationship, your life with money has its ups and downs, its twists and turns, its breakups and makeups. And just like other relationships, living happily with money really comes down to love—which is why love is the basis of money maven Kate Northrup's book. After taking the Money Love Quiz to see where on the spectrum your relationship with money stands—somewhere between "on the outs" and "it's true love!"—Northrup takes you on a rollicking ride to a better understanding of yourself and your money. Step-by-step exercises that address both the emotional and practical aspects of your financial life help you figure out your personal perceptions of money and wealth and how to change them for the better. You'll learn about thought patterns that may be holding you back from earning what you're worth or saving what you can. You'll learn how to chart your current financial life and create a plan to get you to where you want to be—whether that's earning enough to live in a penthouse in Manhattan or a cabin in the Rockies. Using client stories and her own saga of moving from \$20,000 of debt to complete financial freedom by the age of 28, Northrup acts as a guide in your quest for personal financial freedom. She'll teach you how to shift your beliefs about money, create a budget, spend in line with your values, get out of debt, and so much more. In short, she'll teach you to love your money, so you can love your life.

Treat yourself to an epic #1 New York Times bestselling love story that spans decades and continents as two people at a crossroads -- one from North Carolina and one from Zimbabwe -- experience the transcendence and heartbreak of true love. Hope Anderson has some important choices to make. At thirty-six, she's been dating her boyfriend, an orthopedic surgeon, for six years. With no wedding plans in sight, and her father recently diagnosed with ALS, she decides to use a week at her family's cottage in Sunset Beach, North Carolina, to ready the house for sale and mull over some difficult decisions about her future. Tru Walls has never visited North Carolina but is summoned to Sunset Beach by a letter from a man claiming to be his father. A safari guide, born and raised in Zimbabwe, Tru hopes to unravel some of the mysteries surrounding his mother's early life and recapture memories lost with her death. When the two strangers cross paths, their connection is as electric as it is unfathomable . . . but in the immersive days that follow, their feelings for each other will give way to choices that pit family duty against personal happiness in devastating ways. Illuminating heartbreaking regrets and enduring hope, *Every Breath* explores the many facets of love that lay claim to our deepest loyalties while asking a life-changing question: How long can a dream survive?

MENTE QUANTICA Sapevi che la nostra mente può entrare in connessione con la coscienza universale e interagire con la materia, modificandola? In questo numero di Scienza e Conoscenza scoprirai come ciò sia possibile... La coscienza è un tutto: il nostro cervello, il nostro cuore, la nostra memoria e, al contempo, l'impronta genetica del mondo in tutta la sua storia. Le frontiere della scienza d'avanguardia, relative ai fenomeni quantistici non-locali nei sistemi viventi, ci conducono in un viaggio di esplorazione sempre più profondo nei misteri del mondo fisico, permettendoci di aprire il nostro panorama verso una visione complessiva e potente del cosmo e della nostra mente, ossia quella che li vede come una rete dinamica ed integrata di campi energetici interdipendenti, regolata attraverso uno scambio di informazioni sottili a livello quantistico. Ciò vuol dire che viviamo e respiriamo in un Universo fatto di pensieri, un universo concettuale un ordine implicito che muove le trame della manifestazione della vita contemplando la creazione di un ventaglio infinito di possibilità. Scopri Scienza e Conoscenza n. 76 per comprendere gli incredibili poteri della Mente Quantica.

Could everything we know about fossil fuels be wrong? For decades, environmentalists have told us that using fossil fuels is a self-destructive addiction that will destroy our planet. Yet at the same time, by every measure of human well-being, from life expectancy to clean water to climate safety, life has been getting better and better. How can this be? The explanation, energy expert Alex Epstein argues in *The Moral Case for Fossil Fuels*, is that we usually hear only one side of the story. We're taught to think only of the negatives of fossil fuels, their risks and side effects, but not their positives—their unique ability to provide cheap, reliable energy for a world of seven billion people. And the moral significance of cheap, reliable energy, Epstein argues, is woefully underrated. Energy is our ability to improve every single aspect of life, whether economic or environmental. If we look at the big picture of fossil fuels compared with the alternatives, the overall impact of using fossil fuels is to make the world a far better place. We are morally obligated to use more fossil fuels for the sake of our economy and our environment. Drawing on original insights and cutting-edge research, Epstein argues that most of what we hear about fossil fuels is a myth. For instance . . . Myth: Fossil fuels are dirty. Truth: The environmental benefits of using fossil fuels far outweigh the risks. Fossil fuels don't take a naturally clean environment and make it dirty; they take a naturally dirty environment and make it clean. They don't take a naturally safe climate and make it dangerous; they take a naturally dangerous climate and make it ever safer. Myth: Fossil fuels are unsustainable, so we should strive to use "renewable" solar and wind. Truth: The sun and wind are intermittent, unreliable fuels that always need backup from a reliable source of energy—usually fossil fuels. There are huge amounts of fossil fuels left, and we have plenty of time to find something cheaper. Myth: Fossil fuels are hurting the developing world. Truth: Fossil fuels are the key to improving the quality of life for billions of people in the developing world. If we withhold them, access to clean water plummets, critical medical machines like incubators become impossible to operate, and life expectancy drops significantly. Calls to "get off fossil fuels" are calls to degrade the lives of innocent people who merely want the same opportunities we enjoy in the West. Taking everything into account, including the facts about climate change, Epstein argues that "fossil fuels are easy to misunderstand and demonize, but they are absolutely good to use. And they absolutely need to be championed. . . . Mankind's use of fossil fuels is supremely virtuous—because human life is the standard of value and because using fossil fuels transforms our environment to make it wonderful for human life."

Part personal development guide, part adventure tale, *Tribe of Millionaires* teaches readers six timeless lessons about the power of those around us to transform our lives. When Ethan Martinez receives a mysterious invitation after the death of his father, he embarks on an adventure not only to save his struggling business, but to discover his past. Traveling to a tropical island with the mysterious "Tribe of Millionaires," Ethan finds his whole approach to business and life shifting with each lesson. The more time Ethan spends with the enigmatic members of the tribe, the more he comes to realize that the answers he seeks are, as they are for all of us, hidden in plain sight.

If you want your biggest goals to move from possible, to probable, to inevitable, you better read The Miracle Equation."--Mel Robbins, bestselling author of The 5-Second Rule

Examining the urban and architectural developments in Rome during the Pontificate of Julius II (1503–13) this book focuses on the political, religious and artistic motives behind the changes. Each chapter focuses on a particular project, from the Palazzo dei Tribunali to the Stanza della Segnatura, and examines their topographical and symbolic contexts in relationship to the broader vision of Julian Rome. This original work explores not just historical sources relating to buildings but also humanist/antiquarian texts, papal sermons/eulogies, inscriptions, frescoes and contemporary maps. An important contribution to current scholarship of early sixteenth century Rome, its urban design and architecture.

*An international team of scholars from different academic disciplines address some of the most important issues, texts, and objects in the study of ancient magic. The volume is divided into three primary sections. The first part offers new approaches to some of the major theoretical and methodological questions in the study of ancient magic. Most importantly, the authors offer a defense of the term "magic" as a scholarly rubric in the study of antiquity. The contributors to the second part provide novel interpretations of some of the most significant defixiones, amulets, recipes and rituals from the ancient world. The essays also engage with questions of gender, materiality, visibility, and scribal practice. The final section*

*examines the transmission of magical practice, both in antiquity and in later periods. Accordingly, the chapters in this final section allow scholars to approach the study of magic over the longue duree. By placing into dialogue the interests, concerns, and methods of scholars from diverse academic fields, this volume provides an interdisciplinary perspective to the study of premodern magic.*

*The book shows how the Franciscans in Jerusalem in the fourteenth to sixteenth centuries wrote works which standardized the cultural memory of the Holy Land. The experience of the late medieval Holy Land was deeply connected to the presence of the Franciscans of the Convent of Mount Zion in Jerusalem, who welcomed and guided pilgrims. This book analyses this construction of a shared memory based on the continuous availability of these texts in the Franciscan library of Mount Zion, where they were copied and adapted to respond to new historical contexts. This book shows how the Franciscans developed a representation of the Holy Land by elaborating on its history and describing its religious groups and the geography of the region. This representation circulated among pilgrims and influenced how contemporaries imagined the Holy Land*

There's no such thing as "just" a mom. Despite the routine tasks and mundane to-do lists, motherhood is anything but insignificant. God has designed motherhood as part of his greater plan to draw people to himself—instilling all women, whether called to traditional mothering or not, with an eternal purpose in nurturing others. In this book, Gloria Furman searches the Scriptures for the mission of God in motherhood. She opens our eyes to God's life-giving promises—promises intended to empower each and every woman as she makes disciples in her home, in her neighborhood, and around the world.

This book challenges critical approaches that argue for Giacomo Leopardi's and Samuel Beckett's pessimism and nihilism. Such approaches stem from the quotation of Leopardi in Beckett's monograph Proust, as part of a discussion about the removal of desire. Nonetheless, in contrast to ataraxia as a form of ablation of desire, the desire of and for the Other is here presented as central in the two authors' oeuvres. Desire in Leopardi and Beckett is read as lying at the cusp between the theories of Jacques Lacan and Emmanuel Levinas, a desire that splits as much as it moulds the subject when called to address the Other (inspiring what Levinas terms 'infinity' as opposed to 'totality,' an infinity pitted against the nothingness crucial to pessimist and nihilist readings).

**Biographical note: Sascha Bru, Genth University, Belgium; Peter Nicholls, University of Sussex, UK.**

**Trenta semplici pratiche per trasformare la tua vita una mattina alla volta. Nelle nostre vite indaffarate, è molto comune svegliarsi sentendosi già sopraffatti dalla giornata che dobbiamo affrontare, e magari gettarsi a capofitto sullo smartphone, o sul primo impegno di una lunga serie, senza un attimo di respiro. Ma il modo in cui cominciamo ogni mattina è fondamentale: dà l'impronta al resto del giorno e influisce sul nostro umore, sulla nostra capacità di concentrazione, sulla nostra produttività. In questo libro, Kate e Toby Oliver ci mostrano che può bastare**

davvero poco per imprimere una svolta alle nostre mattine, e di conseguenza alle nostre vite: si tratta di adottare delle piccole abitudini che ci facciano iniziare la giornata con il piede giusto. È per questo che hanno messo a punto il metodo s.h.i.n.e., basato su cinque componenti fondamentali (Silenzio, Felicità, Intenzione, Nutrimento ed Esercizio), che ci aiuta a creare una nuova morning routine. Attraverso trenta pratiche da scegliere, svolgere e combinare a piacimento, ciascuno di noi potrà costruire la morning routine più adatta alle proprie esigenze, al tempo a disposizione e al risultato che vuole ottenere. Prendersi del tempo per sé all'inizio di ogni giornata – per esempio scrivendo in un diario i propri pensieri, meditando con una candela accesa o preparandosi una buona colazione – è la chiave per cominciare a sentirsi meglio e rimanere resilienti e positivi nel corso delle ore successive. Il potere della morning routine è il libro da tenere sul comodino per sentirci più motivati e ispirati a ogni risveglio, per non scoraggiarci di fronte alle sfide e al ritmo stressante delle nostre giornate, per diventare a poco a poco la versione migliore di noi stessi. E scoprire che cambiare le nostre mattine può trasformare in modo sorprendente la nostra vita.
