

Trains: A Pop Up Railway Book

Fans of Stephen King's *The Dark Tower* will definitely want this picture book about a train engine and his devoted engineer. Engineer Bob has a secret: His train engine, Charlie the Choo-Choo, is alive...and also his best friend. From celebrated author Beryl Evans and illustrator Ned Dameron comes a story about friendship, loyalty, and hard work.

The perfect introduction to the world of trains for preschoolers, complete with 8 enticing pop-up flaps and 1 incredible sound button. Learn more about steam trains, underground trains and double-decker trains, as well as who kids could expect to meet at the station, from the train guard to the passengers themselves. In *My Best-ever Pop-up Train Book* discover the sound of a train door beeping, a steam train chugging by and a buzzer announcing the next station. With so much to look at, and lots of early learning, this lively, read-aloud book will appeal to both preschoolers and parents, whilst also increasing a child's vocabulary and encouraging picture and word association. *My Best-ever Pop-up Train Book's* sturdy card and chunky board format makes this noisy, lift-the-flap book ideal for preschool play.

From the great cathedral-like railway stations of the steam age to obscure lines built through spectacular landscapes to open up countries before the advent of motorised road transport, this book is a celebration of our lost railway heritage and the lines that can no longer be travelled. Through stunning images, *Lost Railway Journeys from Around the World* evokes the romance and drama of these journeys, taking the reader as close as they can possibly get to this lost world of dining cars, sleeping cars, station porters and international rail travel. Organised by continent, all of these routes have stories to tell and the lost journeys are captured in the old postcards and posters that accompany photographs drawn from collections and archives across the world. The whistle on the train goes whoo whoo whoo The wheels on the train go clackety clack The gates across the track go ding ding ding This rollicking railroad pop-up, an homage to the favorite preschool song, "The Wheels on the Bus," features spectacular pops on every page!

When Thomas the Tank Engine decides not to make his usual station stops one day, he learns that faster is not always better. On board pages.

Ride the rails of the night train in this beautifully rendered journey conducted by renowned artist Wendell Minor and frequent collaborator Robert Burleigh. Rhyming, lyrical text describes the sights and sounds of a nighttime journey from country to city on a passenger train in the 1940s. Largely painted in black and white, breathtaking illustrations feature pops of color as the train continues its trip until the full-color spectrum appears as dawn breaks and passengers arrive at the station. A nostalgic and innovative choice for readers fascinated by trains.

A Thomas the Tank Engine Story

Stop, Train, Stop!

*A New York Times Notable Book for 2011 One of The Economist's 2011 Books of the Year One of NPR's 10 Best Novels of 2011 Denis Johnson's *Train Dreams* is an epic in miniature, one of his most evocative and poignant fictions. Robert Grainer is a day laborer in the American West at the start of the twentieth century—an ordinary man in extraordinary times. Buffeted by the loss of his family, Grainer struggles to make sense of this strange new world. As his story unfolds, we witness both his shocking personal defeats and the radical changes that transform America in his lifetime. Suffused with the history and landscapes of the American West—its otherworldly flora and fauna, its rugged loggers and bridge builders—the new novella by the National Book Award-winning author of *Tree of Smoke* captures the disappearance of a distinctly American way of life.*

*From London across Europe through India and Asia, this was a trip of discovery made in the mid-seventies, a time before the West had embraced the places, peoples, food, faiths and cultures of the East. To visit the lands of *The Great Railway Bazaar* is an encounter with all that is truly foreign and exotic.*

When were the first trains built? How do some trains go uphill? What's it like to drive a train? Specially written for children who are just beginning to read alone this fact-filled

book has all the answers and more. Includes full-colour photographs and links to recommended websites to find out more. This is a highly illustrated ebook that can only be read on the Kindle Fire or other tablet. "Excellent for helping children to learn to use books for research. Short chunks of text and plenty of pictures make these books really fun to read." - Parents in Touch

The incredible biography of the most famous steam locomotive in the world. Think of the Golden Age of Steam and one train leaps to mind above all others: the Flying Scotsman, Nigel Gresley's elegant masterpiece of a locomotive. She broke the world speed record in 1934 and has enthralled millions with her beauty and power. Uniquely, her post-war career has been even more varied and exciting than her early triumphs. Now Andrew Roden tells the Scotsman's remarkable story, from her construction and the glory days between the wars through the decline of steam and her rollercoaster fortunes in the subsequent years: nearly abandoned on a tour of the United States after the money ran out, crossing the Australian interior, then put up for sale yet again when the company that owned her went bankrupt in 2003. A massive public campaign saved her for the nation and the Flying Scotsman's restoration began in 2005 at the National Railway Museum. With the aid of numerous interviews with those involved with the Scotsman over the years, Roden brings her story memorably to life. Above all, he asks: why do grown men risk their life savings to own her? Why do thousands of people still line the trackside when she's due to race past? And just what is the eternal appeal of the Flying Scotsman?

***A 2016 National Parenting Product Awards (NAPPA) winner You've never seen a book like this before! It's the story of a train moving

across the American landscape—but with an actual three-dimensional miniature train that loops up and down and across each spread, traveling along an interior track from front to back without ever leaving the pages. Move the red steam engine out of the depot and to the front of the book, where the sun is just coming up over a bay, and then take a journey across wide plains, up mountains and down hills, into a city at night with its beacons of light—and finally, back to the rail yard. The panoramic landscapes are filled with marvelous details that young children will delight in discovering, and the sweet, simple rhyming language pulls the story along and will be happily repeated when it's time to start the journey all over again. All aboard!

Ingenious and amusing illustrated inventions from the brilliant mind of Dominic Wilcox 'I love this book. Laugh-out-loud funny. I want a salty thumb lolly now!' Harry Hill As we go about our day-to-day business, we see the same stuff every day. The bath, the fridge, the lamp post, the bicycle, the tree... so far, so humdrum. But not if you are Dominic Wilcox. Dominic sees things a little differently. For him, inside each of these everyday things are hundreds of surprising ideas waiting to be discovered. The Portable Bottom Seat, the Sick Bag Beard, Wrist Nets for the Butterfingers – Dominic's unexpected inventions, confections and modifications promise to make your life that little bit easier, or at least more amusing. Normal will never seem quite so normal again.

This book takes readers on a tour of what's inside a train. Each car has something to find—things that make loud noises, things in different shapes—and along the way, a little child searches for his missing hat. The back of the book is a running landscape dotted with objects for children to find and count. All Aboard! Let's Ride a Train is a fun, interactive ride from beginning to end.

An outcast even among her fellow Africans, she is on the cusp of womanhood--where greater pain awaits. And so when Caesar, a slave who has recently arrived from Virginia, urges her to join him on the Underground Railroad, she seizes the opportunity and escapes with him. In Colson Whitehead's ingenious conception, the Underground Railroad is no mere metaphor: engineers and conductors operate a secret network of actual tracks and tunnels beneath the Southern soil. Cora embarks on a harrowing flight from one state to the next, encountering, like Gulliver, strange yet familiar iterations of her own world at each stop. As Whitehead brilliantly re-creates the terrors of the antebellum era, he weaves in the saga of our nation, from the brutal abduction of Africans to the unfulfilled promises of the present day. The Underground Railroad is both the gripping tale of one woman's will to escape the horrors of bondage--and a powerful meditation on the history we all share.

The impact of constant technological change upon our perception of the world is so pervasive as to have become a commonplace of modern society. But this was not always the case; as Wolfgang Schivelbusch points out in this fascinating study, our adaptation to technological change—the development of our modern, industrialized consciousness—was very much a learned behavior. In The Railway Journey, Schivelbusch examines the origins of this industrialized consciousness by exploring the reaction in the nineteenth century to the first dramatic avatar of technological change, the railroad. In a highly original and engaging fashion, Schivelbusch discusses the ways in which our perceptions of distance, time, autonomy, speed, and risk were altered by railway travel. As a history of the surprising ways in which technology and culture interact, this book covers a wide range of topics, including the changing perception of landscapes, the death of conversation while traveling, the problematic nature of the railway compartment, the space of glass architecture, the pathology of the railway journey, industrial fatigue and the history of shock, and the railroad and the city. Belonging to a distinguished European tradition of critical sociology best exemplified by the work of Georg Simmel and Walter Benjamin, The Railway Journey is anchored in rich empirical data and full of striking insights about railway travel, the industrial revolution, and technological change. Now updated with a new preface, The Railway Journey is an invaluable resource for readers interested in nineteenth-century culture and technology and the prehistory of modern media and digitalization. Trains Coming Through!

My First Book of Trains

"Bewes' breezy prose makes him a pleasant traveling companion ... he clearly knows Switzerland inside and out." - The Spectator In June 1863 an English lady set off by train on the trip of a lifetime: Thomas Cook's first Conducted Tour of Switzerland. A century and a half later, travel writer Diccon Bewes, author of the bestselling *Swiss Watching*, decided to go where she went and see what she saw. Guided by her diary, he followed the same route to discover how much had changed and how much hadn't. She went in search of adventure, he went in search of her, and found far more than he expected. *Slow Train to Switzerland* is the captivating account of two trips through the Alps: hers glimpsing the future of travel, his revisiting its past. Together they make a journey to remember. This is a tale of trains and tourists, of the British and the Swiss, of a Victorian traveller and a modern-day Englishman abroad. It is the story of a tour that changed both Switzerland and the world of travel forever.

The story of a young Chinese girl who arrives in North America only to discover that her father has died building the railway. This powerful, unforgettable and multi-award-winning tale is based on the lives of the Chinese who settled on the west coast of North America in the early 1900s. Left behind in China by her father, who has gone to North America to find work, Choon-yi has made her living by selling her paintings in the market. When her father writes one day and asks her to join him, she joyously sets off, only to discover that he has been killed. Choon-yi sees the railway and the giant train engines that her father died for, and she is filled with an urge to paint them. But her work disappoints her until a ghostly presence beckons her to board a train where she meets the ghosts of the men who died building the railway. She is able to give them peace by returning their bones to China where they were born. Ghostly, magical and yet redeeming, this tale by Paul Yee is superbly illustrated by Harvey Chan.
