To answer these questions, Phil Rucker and Carol Leonnig reveal a dysfunctional and bumbling presidency's inner workings in unprecedented, stunning detail. Focused on Trump and the key players around him—the doctors, generals, senior advisers, and Trump family members—Rucker and Leonnig provide a forensic account of the most devastating year in a presidency like no other. Their sources were in the room as time and time again Trump put his personal gain ahead of the good of the country. When diplomacy fails and military intervention is inappropriate, our leaders sometimes take a third option and Mitch Rapp has been assigned just such an “unofficial” task—targeting a German industrialist who is supplying a notorious terror sponsor. But when the mission is dangerously compromised, Rapp quickly realizes he’s been deemed an expendable asset in a power struggle on home turf: the battle over who will become the successor of the dying CIA director. But no one counted on Mitch Rapp’s return...or how far he’ll go to find out who set him up. Mitch Rapp, the CIA's top operative, searches for a high-level mole with the power to rewrite the world order in this riveting thriller from #1 New York Times bestselling author Vince Flynn, written by Kyle Mills. distrustful of the influence Rapp and CIA director Irene Kennedy have in Washington. When Kennedy discovers evidence of a mole scouring the Agency's database for sensitive information on Nicholas Ward, the world's first trillionaire, she assigns Rapp the task of protecting him. In doing so, he finds himself walking an impossible tightrope: Keep the man alive, but also use him as bait to uncover a traitor who has seemingly unlimited access to government secrets. As the attacks on Ward become increasingly dire, Rapp and Kennedy are dragged into a world where the lines between governments, multinational corporations, and the hyper-wealthy fade. An environment in which liberty, nationality, and loyalty are

From 2003 to 2008, he photographed at and around sites where fossil fuel, nuclear, hydroelectric, wind, and solar power are produced in the United States. The resulting photographs contain Epstein's signature complex wit, surprising detail, and formal rigor. These pictures illuminate the intersection between American society and American landscape.
