Lisa Thompson's debut novel is a page-turning mystery with an emotionally-driven, complex character study at its core -- like *Rear Window* meets *The Curious Incident of the Dog in the Night-Time*.

Matthew Corbin suffers from severe obsessive-compulsive disorder. He hasn't been to school in weeks. His hands are cracked and bleeding from cleaning. He refuses to leave his bedroom. To pass the time, he observes his neighbors from his bedroom window, making mundane notes about their habits as they bustle about the cul-de-sac. When a toddler staying next door goes missing, it becomes apparent that Matthew was the last person to see him alive. Suddenly, Matthew finds himself at the center of a high-stakes mystery, and every one of his neighbors is a suspect. Matthew is the key to figuring out what happened and potentially saving a child's life... but is he able to do so if it means exposing his own secrets, and stepping out from the safety of his home?

From the winner of the National Book Critics Circle Award comes a story about the Holocaust that "burns itself into the reader's imagination with almost surreal powers" (The New York Times). "Read this great little book of Cynthia Ozick's: It contains dazzling staggering pages filled with sadness and truth." —Elie Wiesel, Chicago Tribune A devastating vision of the Holocaust and the unfillable emptiness it left in the lives of those who passed through it.

This collection, which won the 2015 Costa Poetry Award, is an exhibition of the Dundee-born poet's stunningly accomplished adoption of the sonnet's ancient structure This collection from Don Paterson, his first since the Forward Prize-winning Rain in 2009, is a series of forty luminous sonnets. Some take a traditional form, while others experiment with the reader's conception of the sonnet, but they all share the lyrical intelligence and musical gift that has made Paterson one of our most celebrated poets. Addressed to friends and enemies, the living and the dead, children, musicians, poets, and dogs, these poems are as ambitious in their scope and tonal range as in the breadth of their concerns. Here, voices call home from the blackout and the airlock, the storm cave and the silence, the coal shed, the war, the highway, the forest, and the sea. These are voices frustrated by distance and darkness, which ring with

the “ sound that fades up from the hiss, / like a glass some random downdraught had set ringing, / now full of its only note, its lonely call. ” In 40 Sonnets, Paterson returns to some of his central themes—contradiction and strangeness, tension and transformation, the dream world, and the divided self—in some of the most powerful and formally assured poems of his career.

“ With the smarts of Nancy Drew and the charm of Eloise, Agatha is an exciting addition to the girl-detective canon. ” —School Library Journal A rare species of white giraffe, worshipped by the Masai tribe, has disappeared from the savannah. So Agatha and her cousin Dash head to Africa on their next adventure to help solve the mystery. There, they join forces with a third cousin—a safari expert—to track down the poacher who has stolen the priceless animal.

The word 'legitimacy' is seldom far from the lips of practitioners of international affairs. The legitimacy of recent events - such as the wars in Kosovo and Iraq, the post-September 11 war on terror, and instances of humanitarian intervention - have been endlessly debated by publics around the globe. And yet the academic discipline of IR has largely neglected this concept. This book encourages us to take legitimacy seriously, both as a facet of international behaviour with practical consequences, and as a theoretical concept necessary for understanding that behaviour. It offers a comprehensive historical and theoretical account of international legitimacy. It argues that the development of principles of legitimacy lie at the heart of what is meant by an international society, and in so doing fills a notable void in English school accounts of the subject. Part I provides a historical survey of the evolution of the practice of legitimacy from the 'age of discovery' at the end of the 15th century. It explores how issues of legitimacy were interwoven with the great peace settlements of modern history - in 1648, 1713, 1815, 1919, and 1945. It offers a revisionist reading of the significance of Westphalia - not as the origin of a modern doctrine of sovereignty - but as a seminal stage in the development of an international society based on shared principles of legitimacy. All of the historical chapters demonstrate how the twin dimensions of legitimacy - principles of rightful membership and of rightful conduct - have been thought about and developed in differing contexts. Part II then provides a trenchant analysis of legitimacy in contemporary international society. Deploying a number of short case studies, drawn mainly from the wars against Iraq in 1991 and 2003, and the Kosovo war of 1999, it sets out a theoretical account of the relationship between legitimacy, on the one hand, and consensus, norms, and equilibrium, on the other. This is the most sustained attempt to make sense of legitimacy in an IR context. Its conclusion, in the end, is that legitimacy matters, but in a complex way. Legitimacy is not to be discovered simply by straightforward application of other norms, such as legality and morality. Instead, legitimacy is an inherently political condition. What determines its attainability or not is as much the general political condition of international society at any one moment, as the conformity of its specific actions to set normative principles.
