A sumptuously illustrated history of the Titanic, her sinking and its aftermath.

It was 2:00 A.M. on April 15, 1912, in the middle of the icy Atlantic Ocean. Eventeen year- old Jack Thayer stood on the slanted deck of the RMS Titanic and weighed his options—Jump, or die, he thought. The huge ship had just struck an iceberg and was taking on water. Making matters worse, all the lifeboats were full. Jack closed his eyes for a moment. Suddenly, a noise like a train crash startled him. This was it—the Titanic was going down! Titanic’s Passengers and Crew is a compilation of compelling stories about the people aboard the luxurious—and supposedly unsinkable—ship. From wealthy first-class passengers like Jack Thayer to third-class travelers and crew, readers will meet and learn the harrowing tales of some of the most noteworthy people on the ship. Large-format color images, maps, and fact boxes bring the fear and panic the passengers and crew faced into clear, terrifying focus. Titanic’s Passengers and Crew is part of Bearport’s Titanica series. The first critical analysis of the Titanic as modern myth, this book focuses on the second of the two Titanics . The first was the physical Titanic , the rusting remains of which can still be found twelve thousand feet below the north Atlantic. The second is the mythical Titanic which emerged just as its tangible predecessor slipped from view on 15 April 1912. It is the second of the two Titanics which remains the more interesting and which continues to carry cultural resonances today. The Myth of the Titanic begins with the launching of the 'unsinkable ship' and ends with the outbreak of the 'war to end all wars'. It provides an insight into the particular culture of late-Edwardian Britain and beyond this draws far greater conclusions about the complex relationship between myth, history, popular culture and society as a whole.

In this unparalleled investigation that deconstructs the modern hindsight that has tainted Titanic's legacy, Allen Gibson presents a comprehensive history with a refreshing argument, that Titanic represented a considerable achievement in maritime architecture. Telling the story of the 'unsinkable' ship against a backdrop of a tumultuous and rapidly emerging technological world, he exposes the people and the circumstances that contributed to the disaster, and the blame that went on in its aftermath. This expanded edition further unravels the mindset that willfully dispatched the world's largest ship out to sea with a famously deficient supply of lifeboats, and lays bare the technology so dramatically destroyed.

The complete story day by day of the fateful voyage with facsimile newspaper headlines and columns reporting the history of the construction, launch and aftermath as events unfolded. Prolifically illustrated with rare contemporary photographs.

Four children aboard the Titanic--Sophie, Paddy, Juliana, and Alfie--believe the famed killer Jack the Ripper is on the ship with them, and the urgency of their mystery deepens as the "unsinkable" ship hits an iceberg.

An absorbing, minute-by-minute account of the demise of the "unsinkable" Titanic, the massive luxury liner that housed a French "sidewalk cafe" and a grand staircase, among other extravagances, but failed to provide enough lifeboats for the 2,207 passengers on board. Reissue.

Violet Jessop's life is an inspiring story of survival. Born in 1887 in Argentina, the eldest child of Irish immigrants, at the age of 21 she became the breadwinner for her widowed mother and five siblings when she commenced a career as a stewardess and nurse on some of the most famous ocean going vessels of the day. Throughout her 40 year time at sea she survived an unbelievable series of events including the sinking of the TITANIC. "One awful moment of empty, misty blackness enveloped us in its loneliness, then an unforgettable, agonizing cry went up from 1500 despairing throats, a long wail and then silence and our tiny craft tossing about at the mercy of the ice field." For most people one sinking would be enough. But four years later Violet, now a nurse with the British Red Cross, was on board the World War I hospital ship BRITANNIC when it struck a mine and sank to the bottom of the Aegean. To her, this disaster was even more horrifying-- "Just as life seeming nothing but a whirling, choking ache, I rose to the light of day, my nose barely above the little lapping waves. I opened my eyes on an indescribable scene of slaughter, which made me shut them again to keep it out." By the end of her story we have met a woman who could handle whatever life threw at her with determination and good humor. She knew that only by her own strength of character would she survive. But Titanic Survivor is much more. A unique autobiography for those who want to know how it really felt, a story that could be told only by a Titanic Survivor.

Return to Titanic: An Unsinkable Ship

George and Catherine Stewart share not only the burden of Catherine's heart disease, which could cause her death at any time, but the memory of Jerome Martell, her first husband and George's closest friend. Martel, a brilliant doctor passionately concerned with social justice, is presumed to have died in a Nazi prison camp. His sudden return to Montreal precipitates the central crisis of the novel. Hugh MacLennan takes the reader into the lives of his three characters and back into the world of Montreal in the thirties, when politics could send an idealist across the world to Spain, France, Auschwitz, Russia, and China before his return home.

The ultimate action/adventure trilogy begins, with #1 bestselling author Gordon Korman plunging readers into the heart of the Titanic. The Titanic is meant to be unsinkable, but as it begins its maiden voyage, there's plenty of danger waiting for four of its young passengers. Paddy is a stowaway, escaping a deadly past. Sophie's mother is delivered to the ship by police - after she and Sophie have been arrested. Juliana's father is an eccentric whose riches can barely hide his madness. And Alfie is hiding a secret that could get him kicked off the ship immediately. The lives of these four passengers will be forever linked with the fate of Titanic. And the farther they get from shore, the more the danger looms. . . .

One hundred and sixty minutes. That is all the time rescuers would have before the largest ship in the world slipped beneath the icy Atlantic. There was amazing heroism and astounding incompetence against the backdrop of the most advanced ship in history sinking by inches with luminaries from all over the world. It is a story of a network of wireless operators on land and sea who desperately sent messages back and forth across the dark frozen North Atlantic to mount a rescue mission. More than twenty-eight

ships would be involved in the rescue of Titanic survivors along with four different countries. At the heart of the rescue are two young Marconi operators, Jack Phillips 25 and Harold Bride 22, tapping furiously and sending electromagnetic waves into the black night as the room they sat in slanted toward the icy depths and not stopping until the bone numbing water was around their ankles. Then they plunged into the water after coordinating the largest rescue operation the maritime world had ever seen and thereby saving 710 people by their efforts. The race to save the largest ship in the world from certain death would reveal both heroes and villains. It would begin at 11:40 PM on April 14, when the iceberg was struck and would end at 2:20 AM April 15, when her lights blinked out and left 1500 people thrashing in 25-degree water. Although the race to save Titanic survivors would stretch on beyond this, most people in the water would die, but the amazing thing is that of the 2229 people, 710 did not and this was the success of the Titanic rescue effort. We see the Titanic as a great tragedy but a third of the people were rescued and the only reason every man, woman, and child did not succumb to the cold depths is due to Jack Phillips and Harold McBride in an insulated telegraph room known as the Silent Room. These two men tapping out CQD and SOS distress codes while the ship took on water at the rate of 400 tons per minute from a three-hundred-foot gash would inaugurate the most extensive rescue operation in maritime history using the cutting-edge technology of the time, wireless.

In the bestselling tradition of Indianapolis and In Harm's Way comes a "captivating...gripping" (Kirkus Reviews, starred review) account of the USS Plunkett—a US Navy destroyer that sustained the most harrowing attack on any Navy ship by the Germans during World War II, later made famous by John Ford and Herman Wouk. "A reflection on the nature of storytelling itself" (The Wall Street Journal), Unsinkable traces the individual journeys of five men on one ship from Casablanca in North Africa, to Sicily and Salerno in Italy and then on to Plunkett's defining moment at Anzio, where a dozen-odd German bombers bore down on the ship in an assault so savage, so prolonged, and so deadly that one Navy commander was hard-pressed to think of another destroyer that had endured what Plunkett had. After a three-month overhaul and with a reputation rising as the "fightin'est ship" in the Navy, Plunkett (DD-431) plunged back into the war at Omaha Beach on D-Day, and again into battle during the invasion of Southern France—perhaps the only Navy ship to participate in every Allied invasion in the European theatre. Featuring five incredibly brave men—the indomitable skipper, who will receive the Navy Cross; the gunnery officer, who bucks the captain every step of the way to Anzio; a first lieutenant, who's desperate to get off the ship and into the Pacific; a seventeen-year-old water tender, who's trying to hold onto his hometown girl against all odds, and another water tender, who mans a 20mm gun when under aerial assault—the dramatic story of each plays out on the decks of the Plunkett as the ship's story escalates on the stage of the Mediterranean. Based on Navy logs, war diaries, action reports, letters, journals, memoirs, and dozens of interviews with the men who were on the ship and their families, Unsinkable is a timeless evocation of young men stepping up to the defining experience of their lives. "If you were moved by Norman Maclean's A River Runs Through It, by William Kent Krueger's This Tender Land...by the values we hold dear, decency, sacrifice, steadfastness, then Unsinkable will take you to a place long dead in your soul, and flood it with light" (Doug Stanton, #1 New York Times bestselling author of Horse Soldiers).

This tale of an Irish teenager aboard the doomed ship, from a Caldecott Medal winner, is a "taut disaster story . . . nearly impossible to put down" (Publishers Weekly). Fifteen-year-old Barry O'Neill is journeying to New York to reunite with his parents on the maiden voyage of the great ship Titanic. He's homesick, and worried about the Flynn boys traveling in steerage, who have threatened to throw him overboard. Little does Barry know that a struggle with the Flynn is the least of the dangers that await him. This "fast-paced" and suspenseful young adult adventure story is based on the true and terrible events that occurred as the Titanic sank, and "immerses readers in the many human tragedies" (Booklist).

Titanic Facts

In this New York Times bestseller, the author of A Night to Remember and The Miracle of Dunkirk revisits the Titanic disaster. Walter Lord's A Night to Remember was a landmark work that recounted the harrowing events of April 14, 1912, when the British ocean liner RMS Titanic went down in the North Atlantic Ocean, a book that inspired a classic movie of the same name. In The Night Lives On, Lord takes the exploration further, revealing information about the ship's last hours that emerged in the decades that followed, and separating myths from facts. Was the ship really christened before setting sail on its maiden voyage? What song did the band play as water spilled over the bow? How did the ship's wireless operators fail so badly, and why did the nearby Californian, just ten miles away when the Titanic struck the iceberg, not come to the rescue? Lord answers these questions and more, in a gripping investigation of the night when approximately 1,500 victims were lost to the sea.

Transported back to the Titanic shortly after the collision, Tucker and Maya have to try and convince people that the supposedly unsinkable ship is actually sinking--can they find Liam and his parents and get them and the other third-class passengers to the lifeboats in time? The sinking of the Titanic impacts many lives, as Lydia and Caroline both suffer tragic losses when the "unsinkable" ship goes down, and decades later, Alan searches for his identity with Joanna, Caroline's granddaughter.

The first modern work to give a comprehensive picture of the RMS Titanic and the people intertwined with her fate, from disaster to recovery. Drawn from primary sources and contemporary accounts and updated to coincide with the April 2012 anniversary, this new heart-rending narrative allows readers to come to their own conclusions about this legendary vessel. Daniel Allen Butler spend more than 30 years researching the work, delving into the lives of every principal participant. In addition to examining the roles played by individual, he also looks into the problems of equipment and errors in technical data that resulted in the deaths of 1502 people. Rather than focussing on the night of the tragedy alone, he also investigates the events leading up to and following the fateful night.
