For readers of true crime and books such as *See What You Made Me Do*, a shocking and movingly told portrait of the murder of suburban mum Tara Costigan and an examination of why domestic violence affects us all Tara Costigan was the woman next door. A hard worker. Quick to laugh and easy to like. She was happy, confident, strong. A woman who always looked after herself and her kids. Close with her family and her friends, she was much loved. Then, in 2013, she met Marcus Rappel. A local tradie, he was charming and sincere, they dated and fell in love. That should have been the end of a happy-ever-after story. But for Tara, it was much uglier. And for her family it would be devastating. A year later, Tara was pregnant to Marcus. Her family had been worried for a while, but Tara didn't tell anyone how Marcus's jealousy

was souring the relationship. She tried to keep it quiet. Despite everything, she never imagined he would be physically violent - he would never hurt her. Tara was wrong. One fine day, the last day of summer in 2015, she was holding their newborn baby in her arms when he attacked her with an axe. Her murder seemed to come out of the blue. But as this extraordinary, often shocking book reveals, it did not. The First Time He Hit Her is an attempt to understand why dozens of women are murdered each year by men who profess to love them.

Every place is a product of the stories we tell about it—stories that do not merely describe but in fact shape geographic, so cultural spaces. Lone Star Vistas analyzes travelogues that created the idea of Texas. Focusing on the forty-year period between Mexico's independence from Spain (1821) and the beginning of the US Civil War, Astrid Haas explores accounts by Anglo-American, Mexican, and German authors—members of the region's three major settler populations—who recorded their journeys through They were missionaries, scientists, journalists, emigrants, emigration agents, and military officers and their spouses. They all contributed to the public image of Texas and to debates about the future of the region during a time of political and social transformation. Drawing on sources and scholarship in English, Spanish, and German, Lone Star Vistas is the first comparative of transnational travel writing on Texas. Haas illuminates continuities and differences across the global encounter with Texas also highlighting how individual writers' particular backgrounds affected their views on nature, white settlement military engagement indigenous resistance, African American slavery, and Christian mission.

Kee-To, Iron Hand is the one Sioux leader white soldiers have never been able to corner or capture. His daring raids and uncanny ability to avoid being behind bars have made him a priority for the cavalry officers to find and jail. But Kee-To has the blood of fighting ancestors and their mystical whispers to him to keep him free. He would rather die than let the horse soldiers pen up his people behind fences under guard. That climatic battle finally came in the Sioux's mass exodus to reach Canada and safety. Can he prevail one last time?

The third edition of the South Asia Defence and Strategic Year Book offers an analysis of defence, economic and social issues that impact regional security in South Asia. The wide ranging perspectives give a deep insight into the factors and linkages that impact the emerging international relations of the region, with particular emphasis on India which is an economic, military and political powerhouse with an expanding footprint in the World. South Asia is a region that is rife with geopolitics. By virtue of its population and location, it is a

reflection of the challenges of the interconnected, integrated and interdependent world. Its security environment is relatively unsettled and is a reason for both hope and despair. Its issues, which have international as well as regional relevance, have their own dynamics and trends that need a deeper understanding. The Year Book aims to provide a comprehensive overview of the security environment in the region by focusing on an in-depth analysis of military capabilities and strategic imperatives obtaining in the region. Apart from outlining the general security environment, detailed military balance, trends in weapon systems and technology, defence industry, missile and nuclear capabilities and terrorism issues have been highlighted. Growing strategic linkages and independence of nation states make it imperative to consider the region as a whole to incorporate a holistic approach. The Year Book also contains studies on China and other Southeast Asian nations to that effect. Thus the underlying theme of this publication is to enable 'understanding through information'. While the threat of terrorism remains at the forefront of most analyses, the move towards popular and democratically elected governments in South Asia has not eclipsed the existing challenges to governance in all the countries of the region. Poverty and economic disparities, coupled with ethnic and social divisions, have created political and social fault lines that have been exploited by non-state actors with their own agendas. Thus we hope to promote peace through understanding by delineating the issues of concern in the region. Filling in the missing spaces left by traditional textbooks on American political thought, Reconsidering American Political Thought uses race, gender, and ethnicity as a lens through which to engage ongoing debates on American values and intellectual traditions. Weaving document-based texts analysis with short excerpts from classics in American literature, this book presents a re-examination of the political and intellectual debates of consequence throughout American history. Purposely beginning the story in 1619, Saladin Ambar reassesses the religious, political, and social histories of the colonial period in American history. Thereafter, Ambar moves through the story of America, with each chapter focusing on a different era in American history up to the present day. Ambar threads together analysis of periods including Thomas Jefferson 's aspiration to create an "Empire of Liberty," the ethnic, racial, and gender-based discourse instrumental in creating a "Yankee" industrial state between 1877 and 1932, and the intellectual, cultural, and social forces that led to the political rise of Ronald Reagan and Barack Obama in recent decades. In closing, Ambar assesses the prospects for a new, more invigorated political thought and discourse to reshape and redirect national energies and identity in the Trump presidency. Reconsidering American Political Thought presents a broad and subjective view about critical arguments in American political thought, giving future generations of students and lecturers alike an inclusive understanding of how to teach, research, study, and think about American political thought. Based on Kelly's memoirs and correspondence, this is the first full-length biography of an extraordinary man of the American West.

Link Bonner never wanted to gain a reputation as a fast hand with a six-gun and the will to use it. But sometimes circumstances drive the lives of men even beyond their own desires. Bonner was such a man, always in the middle of trouble he was not looking for. It took a woman to change Bonner and losing her

made life and death of little consequence to him. But the man he was also changed the West for the better. Without his kind, many more innocent people would have died. To the end he fought for what he thought right, down to the last bullet.

First appearing in Beadle's Half-Dime Library in 1877, Wheeler wrote thirty-three Deadwood Dick novels. Wheeler's work, while not the first to serialize the new genre of the Western Frontier, was easily the most popular. Part of that popularity might be attributed to the regular appearance of Calamity Jane, the hard-drinking, straight-shooting female protagonist and to Wheeler's fictionalized vision of the American West, a place that the author never actually visited.

Dewey Roscoe Jones was a pioneering African American journalist. While working for the Chicago Defender, the most widely read black newspaper in the United States, he edited a book review column and a poetry column whose contributors included Langston Hughes, Countee Cullen, Frank Marshall Davis, and Gwendolyn Brooks. Jones personally wrote about fifty reviews, becoming Black Chicago's premier literary critic and commentator on the Harlem Renaissance. Frequently disappointed by the novels emanating from New York, he endeavored to create his own masterwork of fiction. Dark Days is the fruit of his labors. Ishmael, the novel's protagonist, comes to age in Oklahoma, "a wild territory" where former slaves and their offspring vie with former plantation owners and their offspring to make a new life. Theirs is a common legacy of frontier violence and frontier dreams, born in the aftermath of the Civil War, forcible removal of Native Americans, and the 1889 Land Rush. Black Ishmael loves white Denise, and their interlocked fates are the center of the tale. Ishmael's turbulent journey follows Jones's own path from Muskogee to Chicago to the trenches of war-torn France. Dark Days was completed midway between 1930 publication of Langston Hughes's novel Not Without Laughter and Richard Wright's Native Son in 1940. That chronology situates it in the closing days of Harlem's Renaissance and on the cusp of Black Chicago's creative flowering. By recovering his father's novel, Dewey Roscoe Jones II has performed a service to all readers interested in the trajectory of African American creative expression in the early twentieth century. Richard A. Courage, Professor of English, Westchester Community College/SUNY; co-author of The Muse in Bronzeville: African American Creative Expression in Chicago, 1932-1950.

The tenth edition of Keen's Latin American Civilization inaugurates a new era in the history of this classic anthology by dividing it into two volumes. This first volume retains most of the colonial period sources from the ninth edition but with some significant additions including two new sets of images (representations of Brazilian cannibals and 'casta paintings' of mixed race families), an alternative conquest narrative, two new readings on imperial governance, and three new readings on gender and sexuality, including selections from the autobiography of a Spanish nun who took on a male persona to fight as a soldier in the American colonies. The 88 excerpts in volume one provides foundational and often riveting first-hand accounts of life in colonial Latin America. Concise introductions for chapters and excerpts provide essential context for understanding the primary sources.

Judd Miller and his brother work to start a small ranch outside the town of Red Bluffs. But other interests in their valuable property lead to the powerful mayor of the town, working with other crooked officials, to fleece the brothers of their deeded ground, culminating in the killing of Judd's brother, Randall. Unknown to Judd, the transcontinental railroad is coming through, with an interest in buying his property to shorten their route through the mountains. Judd flees attempts to kill him, turning instead to a gunfighter to avenge Randall's death, while exposing the men who conspired against him. Can a young widow and a reformed preacher be enough to battle and beat the odds?

The work was created as a continuation of Catlin's previous works on the life and manners of Native Americans. After several years spent with the Indians on the American plains, Catlin collected a significant number of paintings and engravings, which he brought to Europe, where he organized exhibitions and spread his affection for the culture and lifestyle of Native Americans. Shortly after his travel to Europe, three Indians visited London to give performances and familiarize Europeans with their culture. This visit lasted eight years, in which George Catlin and his western friends experienced numerous fascinating adventures.

Will Keen is a western man living his life in two different worlds - one white, one Piate Indian. He dresses in white man's clothes and adopts many of his habits and mannerisms. Only high cheekbones and dark eyes that miss nothing give a hint of the Indian blood coursing through his veins. Will knows the western wilderness like no other because he was raised in it, and guides wagon trains westwards into Oregon Territory, braving savage lands and equally savage men - of all races - who prey on innocent wagon families. After a decade of guiding long lines of canvas-topped Conestoga wagons west, Will has no idea that his future will take a different turn when one person in a wagon train forces him to decide who he is and how will live from that point forward.

One hundred fifty years ago the McCoy brothers of Springfield, Illinois, bet their fortunes on Abilene, Kansas, then just a slapdash way station. Instead of an endless horizon of prairie grasses, they saw a bustling outlet for hundreds of thousands of Texas Longhorns coming up the Chisholm Trail—and the youngest brother, Joseph, saw how a middleman could become wealthy in the process. This is the story of how that gamble paid off, transforming the cattle trade and, with it, the American landscape and diet. The Chisholm Trail follows McCoy's vision and the effects of the Chisholm Trail from post-Civil War Texas and Kansas to the multimillion-dollar beef industry that remade the Great Plains, the American diet, and the national and international beef trade. At every step, both nature and humanity put roadblocks in McCoy's way. Texas cattle fever had

dampened the appetite for longhorns, while prairie fires, thunderstorms, blizzards, droughts, and floods roiled the land. Unscrupulous railroad managers, stiff competition from other brokers, Indians who resented the usurping of their grasslands, and farmers who preferred growing wheat to raising cattle all threatened to impede the McCoy's vision for the trail. As author James E. Sherow shows, by confronting these obstacles, McCoy put his own stamp upon the land, and on eating habits as far away as New York City and London. Joseph McCoy's enterprise forged links between cattlemen, entrepreneurs, and restaurateurs; between ecology, disease, and technology; and between local, national, and international markets. Tracing these connections, *The Chisholm Trail* shows in vivid terms how a gamble made in the face of uncontrollable natural factors indelibly changed the environment, reshaped the Kansas prairie into the nation's stockyard, and transformed Plains Indian hunting grounds into the hub of a domestic farm culture.
