environmental and public policy decision making. Written for government officials, public and community leaders, and professional facilitators, The Public Participation Handbook is a toolkit for designing a participation process, selecting techniques to encourage participation,

Get Free Winning Through Participation: Meeting The Challenge Of Corporate Change With The Technology Of Participation

facilitating successful public meetings, working with the media, and evaluating the program. The book is also filled with practical advice, checklists, worksheets, and illustrative examples. This book critically examines the public participation processes in urban planning and development by

Get Free Winning Through Participation: Meeting The Challenge Of Corporate Change

evaluating the operations of Planning
Advisory Committees (PACs) through
two meta-criteria of fairness and
effectiveness. Traditional models of
public participation in planning have
long been criticized for separating
planners from the public. This book
proposes a novel conceptual model to

Get Free Winning Through Participation: Meeting The Challenge Of Corporate Change With The Technology Of Participation

address the gaps in existing practices in order to encourage greater public involvement in planning decisions and policymaking. It assesses the application of the evaluative framework for PACs as a new approach to public participation evaluation in urban planning. With a
