

Wolves Like Us Portraits Of The Angulo Brothers

A portrait of the visual historian illuminates his role in establishing photography as a valued documenting tool, analyzing his portraits of period dignitaries and his self-sacrificing effort to capture images of the Civil War.

This is a wonderful children's animal book about the Wolves of North America. It has amazing photos of wolves and it provides fun facts. Children are often fascinated with many different types of animals. They like to look at pictures of different animals whether in books or just pictures by themselves. However, a book would be more beneficial than just looking at pictures of animals. One of the animals that seem to be very interesting to kids, is a wolf. This book would be a great book for kids who are interested in learning more about wolves in North America. It would be a great educational tool and children of all ages would benefit from reading this kind of book.

In 2010, photographer Dan Martensen was introduced to the Angulo brothers by filmmaker Crystal Moselle, who had just begun work on the hit documentary "The Wolfpack." Chronicling the lives of the six home-schooled boys who recreated cult-classic films, fashioning props as well as costumes all from the confines of their Lower East Side apartment (inside of which their father once locked them for a year), Moselle's unflinching portrayal documents the power of imagination to overcome the realities of a troubled upbringing. At the same time, Martensen began photographing the boys, capturing the cinema-inspired world they had created, while also documenting their first forays into to the world outside. Taken between 2010 and 2015, the resulting collection of intimate portraits and still lifes that comprise Martensen's "The Wolfpack" adds yet another layer to the captivating story of the Angulo brothers and is a bold testament to the enduring spirit of creativity. Dan Martensen was born and raised in Pleasantville, New York, and studied photography at the Rhode Island School of Design. Since the early 2000s, he has been travelling and photographing across America, principally in the Southwest, seeking out the visual paradoxes and embedded histories of the region, taking cues from legendary chroniclers of the American vernacular such as William Eggleston, Joel Sternfeld and Stephen Shore. A selection of 60 photographs from this project was published in Martensen's book "Photographs from the American Southwest" (Damiani).

Legend, Enemy, Icon

The death of a mysterious young woman in a quiet Orensan neighbourhood, will drag a young investigator through a dark world of corruption and intrigue. This is not just the story of a crime, it is also the story of two friends who have chosen different paths. One that of the good: journalism and writing, the other that of the evil: drug trafficking and organized crime. Sentenced to eight years in prison, Lucia decides to hide under a false identity in the mountains, far from the city, where she wouldn't be easily recognized. There she is reunited with her old childhood friend Mireia, behind were the days when Lucia and her gang controlled the streets: the sidewalks trembled as she passed and the politicians on duty ate from her hand. The novel is a tribute to the American black cinema, to the luxurious slums that hide a mystical background of corruption and deception. The criminal intrigue is entangled in a meticulous and infallible rhythm. Lucia was trapped in the system, she knew from experience that once inside it was impossible to leave, "Families" would never allow her to leave the world of narcotics. No one important would ever escape from the circle. This had always been and would continue to be until death, "once inside it is impossible to leave," her father had warned her at first. But she never wanted to hear that warning.

Sophie Mercer thought she was a witch. That was the whole reason she was sent to Hex Hall, a reform school for delinquent Prodigium (aka witches, shapeshifters, and fairies). But that was before she discovered the family secret, and that her hot crush, Archer Cross, is an agent for The Eye, a group bent on wiping Prodigium off the face of the earth.

Extraordinary photos that expose the elusive world of fur and teeth, light and shadow, and wolf behavior seldom seen by the human eye.

Sophie Mercer's first term at Hex Hall turned out to be quite eventful. First the ghost of her evil grandmother haunted her every move, then her best friend was accused of murder and of course there was the discovery that Archer Cross, aka the boy of her dreams, was actually an undercover demon hunter - which would probably be something she could have worked on, if she hadn't also discovered that she was actually the demon Archer was hunting... So, despite their issues, Sophie is actually relieved to be spending the summer in London with her father. But when your father is Head of The Council of Prodigium and your summer is being spent at the headquarters of everything magical, then a quiet holiday isn't really that likely. And, as Sophie struggles to come to terms with her new found demon powers, she finds herself thrust once again into a world of dark magic and conspiracies. The only thing that could possibly make things more complicated would be for Archer Cross to show up again, which of course he wouldn't, would he?
