

## Wrong Time, Wrong Place (Quick Reads 2013)

The second Danny McRae thriller finds him in a perfect partnership—gang-busters by day, lovers by night. What could go wrong?Danny McRae is a private detective scraping a living in ration-card London. Eve Copeland, crime reporter, is looking for new angles to save her career. It’s an alliance made in heaven—until Eve disappears, a contact dies violently, and an old adversary presents McRae with some unpalatable truths. His desperate search for his lover draws him into a web of black marketeers, double agents, and assassins, and hurls him into the shattered remains of Berlin, where terrorism and espionage foreshadow the bleakness of the Cold War. And McRae begins to lose sight of the thin line between good and evil.

INSTANT NEW YORK TIMES BESTSELLER “One of the most important books I’ve ever read—an indispensable guide to thinking clearly about the world.” – Bill Gates “Hans Rosling tells the story of ‘the secret silent miracle of human progress’ as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly.” —Melinda Gates “Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases.” - Former U.S. President Barack Obama Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world’s population live in poverty; why the world’s population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don’t know what we don’t know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn’t mean there aren’t real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- “This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn’t enough. But I hope this book will be.” Hans Rosling, February 2017.

**#1 NEW YORK TIMES BESTSELLER • NEWBERY MEDAL WINNER • NATIONAL BOOK AWARD WINNER** Dig deep in this award-winning, modern classic that will remind readers that adventure is right around the corner--or just under your feet! Stanley Yelnats is under a curse. A curse that began with his no-good-dirty-rotten-pig-stealing-great-great-grandfather and has since followed generations of Yelnatses. Now Stanley has been unjustly sent to a boys' detention center, Camp Green Lake, where the boys build character by spending all day, every day digging holes exactly five feet wide and five feet deep. There is no lake at Camp Green Lake. But there are an awful lot of holes. It doesn't take long for Stanley to realize there's more than character improvement going on at Camp Green Lake. The boys are digging holes because the warden is looking for something. But what could be buried under a dried-up lake? Stanley tries to dig up the truth in this inventive and darkly humorous tale of crime and punishment—and redemption. "A smart jigsaw puzzle of a novel."

Staying in is my favorite thing to do. So, if you relate, you'll understand my reticence about leaving the quiet comfort of my home for a night out at a noisy drag club. But it's for a good cause. My big brother is in town, and this is a chance to get to know his new girlfriend. I can't really say no without looking snotty like the rest of the Wright family comes across. My aim in life is to be everything my father is not. Lucky for me, there's another reason to attend tonight too. A tall, dark and handsome piece of man candy going by the name of Banks Johnson. We met briefly this afternoon and let me tell you, the air sizzled. I'm likely to get burned if I get too close. But while I swore off men when my last relationship went south, when I find myself in the wrong place and it's just Banks and me who'll know, I decide it's the right time to throw caution to the wind. One night can't hurt, right? Unless I somehow lose my heart.... As with all Megan Wade books, this installment of the Wrong/Wright series comes with her Sugar Promise. High heat, low drama, guaranteed.

The Challenge Built to Last, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the verybeginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. "Some of the key concepts discerned in the study," comments Jim Collins, "fly in the face of our modern business culture and will, quite frankly, upset some people." Perhaps, but who can afford to ignore these findings?

BRUBAKER and PHILLIPS return to their multiple award-winning series for two interlinked tales of the Lawless family in the 1970s. One of the world's most esteemed and influential psychologists, Roy F. Baumeister, teams with New York Times science writer John Tierney to reveal the secrets of self-control and how to master it. "Deep and provocative analysis of people's battle with temptation and masterful insights into understanding willpower: why we have it, why we don't, and how to build it. A terrific read." —Ravi Dhar, Yale School of Management, Director of Center for Customer Insights Pioneering research psychologist Roy F. Baumeister collaborates with New York Times science writer John Tierney to revolutionize our understanding of the most coveted human virtue: self-control. Drawing on cutting-edge research and the wisdom of real-life experts, Willpower shares lessons on how to focus our strength, resist temptation, and redirect our lives. It shows readers how to be realistic when setting goals, monitor their progress, and how to keep faith when they falter. By blending practical wisdom with the best of recent research science, Willpower makes it clear that whatever we seek—from happiness to good health to financial security—we won't reach our goals without first learning to harness self-control.

I never wanted to be a hero, but I pride myself on always doing the right thing. Would you? Seems quite an easy question when we're talking hypothetically. I bet most of you sitting there would think that you always do the right thing. I am not here to judge, far from it, but ask yourself this... if doing the right thing came at a cost, would you still do it? Not quite the easy answer now is it?! I did the right thing and I think it's safe to say that it cost me... everything! Who am I? That doesn't matter, what matters is what happens next...

Noisy at the wrong times

The Wrong Family

Wrong Time, Wrong Place

An Alaskan Mystery

Criminal Vol. 7

Against a backdrop of nuns, hit men, gangsters, rugby and ice-cream, Noisy at the wrong times is an inspiring memoir by Michael Volpe, General Manager and founder of Opera Holland Park, now one of the UK’s finest and most popular opera festivals. Volpe’s fatherless Italian family in London is hardly recognised as being one from which champions of the high, classical arts emerge, but at the heart of this story is his time at Woolverstone Hall, a prestigious state boarding school that took bright inner city boys and their style education - with culture at the heart of the curriculum. Volpe’s sudden immersion in a world of rules, traditions and high expectation produced some surprising – and not so surprising – results. With brutal honesty, Noisy at the wrong times charts Volpe’s extraordinary school: his countless misdemeanours, the tragedies he experienced, his often shameful behaviour and his endless conflicts - both emotional and physical - with authority. Noisy at the wrong times is a lesson for modern educationalists at all levels. Children from poor backgrounds are often written off even before they begin, when cultural education is diminishing and aspirational leadership of young people is little more than a platitude.

**NEW YORK TIMES BESTSELLER** The complete, uncensored history of the award-winning *The Daily Show* with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, *The Daily Show* with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today’s most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show’s behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of *The Daily Show*’s most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show’s highlights, from its origins as Comedy Central’s underdog late-night program to Trevor Noah’s succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O’Reilly and Fox, and provocative takes on Wall Street and racism, *The Daily Show* has been a cultural touchstone. Now, for the first time, the people behind the show’s seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America’s most groundbreaking shows.

**National bestselling author of APOCALYPSE NEVER skews progressives for the mishandling of America’s faltering cities. Progressives claimed they knew how to solve homelessness, inequality, and crime. But in cities they control, progressives made those problems worse. Michael Shellenberger has lived in the San Francisco Bay Area for thirty years. During that time, he advocated for the decriminalization of drugs, affordable housing, and alternatives to jail and prison. But as homeless encampments spread, and overdose deaths skyrocketed, Shellenberger decided to take a closer look at the problem. What he discovered shocked him. The problems had grown worse not despite but because of progressive policies. San Francisco and other West Coast cities — Los Angeles, Seattle, Portland — had gone beyond merely tolerating homelessness, drug dealing, and crime to actively enabling them. San Fransicko reveals that the underlying problem isn’t a lack of housing or money for social programs. The real problem is an ideology that designates some people, by identity or experience, as victims entitled to destructive behaviors. The result is an undermining of the values that make cities, and civilization itself, possible.**

**"Unsettled is a remarkable book—probably the best book on climate change for the intelligent layperson—that achieves the feat of conveying complex information clearly and in depth."** —*Claremont Review of Books* **"Surging sea levels are inundating the coasts."** **"Hurricanes and tornadoes are becoming fiercer and more frequent."** **"Climate change will be an economic disaster."** **You've heard all this presented as fact. But according to science, all of these statements are profoundly misleading. When it comes to climate change, the media, politicians, and other prominent voices have declared that "the science is settled." In reality, the long game of telephone from research to reports to the popular media is corrupted by misunderstanding and misinformation. Core**

*questions—about the way the climate is responding to our influence, and what the impacts will be—remain largely unanswered. The climate is changing, but the why and how aren't as clear as you've probably been led to believe. Now, one of America's most distinguished scientists is clearing away the fog to explain what science really says (and doesn't say) about our changing climate. In **Unsettled: What Climate Science Tells Us, What It Doesn't, and Why It Matters**, Steven Koonin draws upon his decades of experience—including as a top science advisor to the Obama administration—to provide up-to-date insights and expert perspective free from political agendas. Fascinating, clear-headed, and full of surprises, this book gives readers the tools to both understand the climate issue and be savvy consumers of science media in general. Koonin takes readers behind the headlines to the more nuanced science itself, showing us where it comes from and guiding us through the implications of the evidence. He dispels popular myths and unveils little-known truths: despite a dramatic rise in greenhouse gas emissions, global temperatures actually decreased from 1940 to 1970. What's more, the models we use to predict the future aren't able to accurately describe the climate of the past, suggesting they are deeply flawed. Koonin also tackles society's response to a changing climate, using data-driven analysis to explain why many proposed "solutions" would be ineffective, and discussing how alternatives like adaptation and, if necessary, geoengineering will ensure humanity continues to prosper. **Unsettled is a reality check buoyed by hope, offering the truth about climate science that you aren't getting elsewhere—what we know, what we don't, and what it all means for our future.***

*This is true story of the second raid on Schweinfurt, Germany by the Eighth Air Force 1st and 3rd Bombardment Divisions on 14 October 1943. On this day, the Eighth Air Force lost air superiority to the German Luftwaffe in a continuous air battle that lasted over three hours. Many refer to it as the greatest one-day air battle of World War II. **Wrong Place, Wrong Time** is a study of the 1st Bombardment Division and specifically the 305th Bomb Group on that fateful day. Record numbers of German fighters swarmed over the unescorted B-17s and their crews. Compelling new evidence never before published indicates that mistakes and poor leadership by several air commanders within the 1st Division caused unnecessary losses for a number of bombers and their crews. This, together with major new revelations by crew members of the 305th who flew the mission, shed light on why the 1st Division lost 45 out of 60 B-17s that day. Information for this book comes from the National Archives, the US Air Force Historical Research Center, overseas sources, and 53 surviving 305th crew members who flew this mission.*

*George C. Kuhl was a pilot in the 305th Bomb Group during World War II. He lives in Augusta, Georgia. A powerful investigation into a grisly political murder and the authoritarian regime behind it: **Do Not Disturb** upends the narrative that Rwanda sold the world after one of the deadliest genocides of the twentieth century. We think we know the story of Africa's Great Lakes region. Following the Rwandan genocide, an idealistic group of young rebels overthrew the brutal regime in Kigali, ushering in an era of peace and stability that made Rwanda the donor darling of the West, winning comparisons with Switzerland and Singapore. But the truth was considerably more sinister. Vividly sourcing her story with direct testimony from key participants, **Wrong** uses the story of the murder of Patrick Karegeya, once Rwanda's head of external intelligence and a quicksilver operator of supple charm, to paint the portrait of a modern African dictatorship created in the chilling likeness of Paul Kagame, the president who sanctioned his former friend's assassination.*

Four women—friends, family, rivals—turn to online dating for companionship, only to find themselves in the crosshairs of a tech-savvy killer using an app to target his victims in this harrowing thriller from the New York Times bestselling author of *See Jane Run* and *The Bad Daughter*. Online dating is risky—will that message be a sweet greeting or an unsolicited lewd photo? Will he be as handsome in real life as he is in his photos, or were they taken ten years and twenty pounds ago? And when he asks you to go home with him, how do you know it's safe? The man calling himself “Mr. Right Now” in his profile knows that his perfect hair, winning smile, and charming banter put women at ease, silencing any doubts they might have about going back to his apartment. There, he has a special evening all planned out: steaks, wine, candlelight . . . and, by the end of the night, pain and a slow, agonizing death. Driven to desperation—by divorce, boredom, infidelity, a beloved husband's death—a young woman named Paige, her cousin and rival Heather, her best friend, Chloe, and her mother, Joan, all decide to try their hand at online dating. They each download an app, hoping to right-swipe their way to love and happiness. But one of them unwittingly makes a date with the killer, starting the clock on a race to save her life. New York Times bestselling author Joy Fielding has written a complex, electrifying thriller about friendship, jealousy, and passion—a deadly combination.

*A New York Times bestseller! "Lively and absorbing. . ." — The New York Times Book Review "Engrossing." —Wall Street Journal "Entertaining and well-researched . . ." —Houston Chronicle Three noted Texan writers combine forces to tell the real story of the Alamo, dispelling the myths, exploring why they had their day for so long, and explaining why the ugly fight about its meaning is now coming to a head. Every nation needs its creation myth, and since Texas was a nation before it was a state, it's no surprise that its myths bite deep. There's no piece of history more important to Texans than the Battle of the Alamo, when Davy Crockett and a band of rebels went down in a blaze of glory fighting for independence from Mexico, losing the battle but setting Texas up to win the war. However, that version of events, as *Forget the Alamo* definitively shows, owes more to fantasy than reality. Just as the site of the Alamo was left in ruins for decades, its story was forgotten and twisted over time, with the contributions of Tejanos--Texans of Mexican origin, who fought alongside the Anglo rebels--scrubbed from the record, and the origin of the conflict over Mexico's push to abolish slavery papered over. *Forget the Alamo* provocatively explains the true story of the battle against the backdrop of Texas's struggle for independence, then shows how the sausage of myth got made in the Jim Crow South of the late nineteenth and early twentieth century. As uncomfortable as it may be to hear for some, celebrating the Alamo has long had an echo of celebrating whiteness. In the past forty-some years, waves of revisionists have come at this topic, and at times have made real progress toward a more nuanced and inclusive story that doesn't alienate anyone. But we are not living in one of those times; the fight over the Alamo's meaning has become more pitched than ever in the past few years, even violent, as Texas's future begins to look more and more different from its past. It's the perfect time for a wise and generous-spirited book that shines the bright light of the truth into a place that's gotten awfully dark.*

Lisa and Francesca are back with another collection of warm and witty stories that will strike a chord with every woman. This six book series is among the best reviewed humor books published today and has been compared to the late greats, Erma Bombeck and Nora Ephron. Delia Ephron said of the fifth book in the series, *Have a Nice Guilt Trip*, "Lisa and Francesca, mother and daughter, bring you the laughter of their lives once again and better than ever. You will identify with these tales of guilt and fall in love with them and fierce (grand) Mother Mary." This seventh volume will not disappoint as it hits the humorous and poignant note that fans have come to expect from the beloved mother-daughter duo.

Luis takes *The Book of Memories* home and things get crazy in this third zany novel, part of the all-new *In Due Time* series. When librarian Valerie Tremt gives student Luis Ramirez a chance to go back in time, he knows just what he wants to do. He plans to go back to 1696 and see exactly where Captain William Kidd left buried treasure, and then return to the spot and retrieve it. He'll be rich and famous! But when he returns from his time-traveling adventure without any treasure, he is inconsolable. To make matters worse, his older brother Rafael doesn't believe he time-traveled at all. Luis decides there's only one way to convince him. He brings *The Book of Memories* home to show Rafael, despite Ms. Tremt's warning that the book is never to leave the library without her permission. Luis ignores her warning—after all, it's just a book. What could possibly go wrong? Turns out—a lot. When Luis wakes up to find a Viking, Charlie Chaplin, and King Tut wandering around his house, he realizes Ms. Tremt's warning was no joke. The good news is now Rafael believes him. The bad news is that it's not going to be easy to get these historical figures back to their proper time periods, especially because none of them want to go home! Can Luis find a way to put everything—and everyone—in the right place before time runs out?

Sally Montgomery anticipated a romantic weekend getaway. What she got instead was a nightmare of unrelenting terror. The murder of her companion and the torching of their cabin sends Sally into hiding—from the police, who believe she's a suspect . . . and from the killer, who wants her dead. Desperate and alone in the woods, Sally has nowhere to run and nowhere to turn—except to her ex-husband, former NYPD detective-turned-private investigator Pete Montgomery, and their daughter Devon, who inherited her father's investigative instincts. Devon's search for the truth takes her dangerously close to the powerful Pierson clan and its enigmatic heir apparent, Blake Pierson. But with Olympic show-jumping gold at stake and his family's empire threatened, whose side is Blake on? Time is rapidly running out for Devon. Racing the clock, she must prove her mother's innocence and outmaneuver the killer before her tactics put her in the wrong place, and one more step will mean certain death.

Wrong Place, Right Time

The Story of a Political Murder and an African Regime Gone Bad

A totalitarian regime has ordered all books to be destroyed, but one of the book burners suddenly realizes their merit.

Jenny's single-parent life revolves around her kids and her job, which means that hours of *Animal Planet* and strings of computer code are about all she has time for. Not that Jenny's looking for adventure or romance--she's the type of woman who believes in playing it safe. When Jenny is called upon to do some consulting for the Bourbon Street Boys--a New Orleans private security firm--she knows she should stay away. They conduct surveillance on known criminals and put themselves in harm's way pretty much every day, so No is the obvious answer...Problem is, there's a guy on the team with a body to die for and a dimple that just won't quit luring Jenny in, tempting her to throw all caution to the wind. Will Jenny take the risk or will she do what she's always done--play it safe and wait for the right time?

Criticizes the way history is presented in current textbooks, and suggests a more accurate approach to teaching American history.
