Ever felt like the last item left on the clearance rack? As a successful patent attorney Ashley Stockingdale has all the makings of a perfect catch: the looks, the brains, even a convertible. But at 31, she's beginning to wonder if she's been passed over for good. Deciding to adopt a new attitude, Ashley suddenly becomes the romantic interest of three men within a matter of days. While her heart enjoys turning the tables on the dating game, the rest of her previously predictable world is being turned upside down. Is it more than Ashley can handle? Or is it exactly what she wants? Award-winning author Kristin Billerbeck combines comedy with spunk to create a memorable story in *What a Girl Wants*—an all-too-realistic picture of a single girl's search for being content with who she is . . . with or without a man.

NATIONAL BESTSELLER What would actually make America great: more people. If the most challenging crisis in living memory has shown us anything, it's that America has lost the will and the means to lead. We can't compete with the huge population clusters of the global marketplace by keeping our population static or letting it diminish, or with our crumbling transit and unaffordable housing. The winner in the future world is going to have more—more ideas, more ambition, more utilization of resources, more people. Exactly how many Americans do we need to win? According to Matthew Yglesias, one billion. From one of our foremost policy writers, *One Billion Americans* is the provocative yet logical argument that if we aren't moving forward, we're losing. Vox founder Yglesias invites us to think bigger, while taking the problems of decline seriously. What really contributes to national prosperity should not be

controversial: supporting parents and children, welcoming immigrants and their contributions, and exploring creative policies that support growth—like more housing, better transportation, improved education, revitalized welfare, and climate change mitigation. Drawing on examples and solutions from around the world, Yglesias shows not only that we can do this, but why we must. Making the case for massive population growth with analytic rigor and imagination, *One Billion Americans* issues a radical but undeniable challenge: Why not do it all, and stay on top forever?

The "hilarious and compelling" breakout surprise of 2017 has an even-more-addictive sequel! It's been seven years since all the ghosts came back.

Now, in four days, they'll all be invisible again. The clock is ticking.

Meanwhile the ghost of Abraham Lincoln has been prominently annihilated in mid-speech. And he's not the only one; other ghosts are also being obliterated from the face of the Earth. All the evidence points to the Post-Mortal Services Clinic, where Ryan Matney happens to be a lowly, bored lab assistant. So Ryan and the brilliant scientist Margie join forces with their incompetent and semi-corporeal detective Lowell and a sketchy psychic medium whose powers truly are medium at best. Together they race to stop the Clinic from falling into the wrong hands before the lights go out on the haunted world. And maybe, just maybe, Ryan won't die this time. Yes he will. More than once. The second book in the series that has been called "crazy-fun and cleverly written", "hugely imaginative", and "the most fun I've had in fiction in a long time".

There are a billion reasons why you can't. Focus on the few reasons you can. The last thing I need is a personal assistant. I'm good at my job, and, no matter what my interfering Mom thinks, I don't need help with that. Yet, somehow, I've ended up with Lilah as my PA. And I like her. She's smart, she's funny, and she's making my life a hell of a lot easier. But one business trip together, and everything changes. I never wanted this woman in my life, but now she's here, and I can't imagine it without her. Now that feels dangerous... *Assisting the Boss Series Book 1 – Billion Reasons Book 2 – Duke of Delegation Book 3 – Late Night Meetings Book 4 – Delegating Love Book 5 – Suitors & Admirers*

We are told that high cholesterol levels can lead to heart disease, and the consumption of foods containing saturated fat increase the risk of heart disease - the Cholesterol Idea. This idea has led to the mass prescription of cholesterol-lowering drugs, but do we need them and what are the risks associated with lowering cholesterol?

Nick A man like me has certain tastes. And needs. I ' ll pay top dollar for whatever I ' m craving. No price is too high if it means I get what I want. What I desire. Until one day when a certain blonde walks in and turns my life upside down. All I need is one month to get her out of my system forever. At least that ' s what I

hope. Cherry Lying on my back for rich guys is not my idea of a dream job. Ever since my world imploded, I ' ve had to do what I ' ve had to do. I ' m not proud of it. But I ' m a survivor. I ' ll do whatever it takes. Until I lay eyes on my billionaire client, Nick. The things he does to me—and the way he makes me feel, blows my mind and shakes my reality. When he asks for one month of exclusivity—I can ' t say no. My head tells me I can keep it professional. My heart isn ' t so sure. After all, it ' s just another job. Right?

Tonya Fielding has made a career out of writing about ordinary people that do extraordinary things. Just this once she wishes she could be the person that does something extraordinary and show her billionaire brother that she really can make it on her own merits. When she learns that someone has been sabotaging the campground owned by sweet, cookie-baking Ruby Burrows, she realizes she can finally get her extraordinary moment by using her journalistic skills to catch the culprit. The last thing on her mind is falling in love... until she meets mysterious newcomer, Brandon Denton. Brandon Denton never gets attached, his job as undercover DEA agent isn't conducive to long-term relationships. He has one mission - to catch the leader of a drug ring suspected to be operating in a small Montana mountain town. There's one catch, people in the small town are suspicious of strangers and no one will give him information. When a selfless act puts Brandon on Tonya's radar and she wants to write an article about him, he sees a way to earn trust from the whole town. Brandon and Tonya keep their investigations secret, but when those investigations have them turning up in the same places, sparks fly. Suddenly there is a lot more at stake than either of them bargained for. But can love blossom when it's built on a lie?

NEW YORK TIMES BESTSELLER • “Endlessly inventive . . . [a] hybrid of Alice in Wonderland, The Wizard of Oz, and The Phantom Tollbooth.”—Salon *What is Un Lun Dun? It is London through the looking glass, an urban Wonderland of strange delights where all the lost and broken things of London end up . . . and some of its lost and broken people, too—including Brokkenbroll, boss of the broken umbrellas; Obaday Fing, a tailor whose head is an enormous pin-cushion, and an empty milk carton called Curdle. Un Lun Dun is a place where words are alive, a jungle lurks behind the door of an ordinary house, carnivorous giraffes stalk the streets, and a dark cloud dreams of burning the world. It is a city awaiting its hero, whose coming was prophesied long ago, set down for all time in the pages of a talking book. When twelve-year-old Zanna and her friend Deeba find a secret entrance leading out of London and into this strange city, it seems that the ancient prophecy is coming true at last. But then things begin to go shockingly wrong. BONUS: This edition contains an excerpt from China Mieville’s Embassytown. 50 Billion Reasons to Grow Your Practice is the first book of its kind—not only helping investment advisors with their professional success but also supporting them in their personal lives. A proper work/life balance is absolutely essential when growing a stable, sustainable investment practice. Author Robert A. DiMeo understands that better than anyone. Imparting words of wisdom and new techniques to help

achieve this balance, he focuses on six facets of business: leadership, practice management, hiring and managing, marketing, investments, and life balance. Based on lessons he learned himself after thirty years in investment advising, DiMeo shows readers how to build a strong foundation for leadership, create a forward-thinking firm, identify and hire quality employees, focus on effective marketing, and make sound investments. Case studies, anecdotes, and even comics keep *50 Billion Reasons to Grow Your Practice* fun and engaging. Each chapter ends with a short passage that helps readers absorb the advice and apply it to their own lives and businesses, and action items included at key points impel readers further forward in their journey. Capped off with simple but essential life-balance tactics, this book will allow readers to relieve stress and gain perspective—and achieve ultimate success.

A wayward billionaire looking for love. An activist who also happens to write the most scorching dark romance novels to ever hit the bookshelves. Every time they think they're clicking, they're reminded of the differences that shackle them to the same old lives. That's what happens when Phoebe Dahl walks into the office of Preston Bradley, the man who owns her publisher. What's a mere formality for her turns into the best day of Preston's life. Because he's found the one. Phoebe's distrust of capitalism and drive to help those less fortunate than her puts her at instant odds with the man who lives by himself in a huge mansion in Portland's affluent hills. Yet he wants her. He's pretty sure she wants him too. Otherwise, how is she ending up in his bed? But there's one thing Preston doesn't know about Phoebe. He's not her first ride at the billionaire boyfriend rodeo... and the last rich boyfriend nearly destroyed her ability to love. While Phoebe plugs away at her next bestseller, Preston comes up with a plan to prove to her – and the world – that they are destined to be together. Even if there are a billion reasons telling them to give it up.

What do you do when you find out the man you've fallen in love with is a billionaire? You run, of course! At least, you do if you're Alana O'Neal. Sentenced to a life of poverty by wealthy grandparents who disowned her mother, Alana has embraced her fate. Sole heir to a family fortune, Brandon Lancaster would surrender it all for true love. He conceals his wealth from Alana to allow their love the chance to blossom without questioning her motives. A poorly-timed tabloid photo drives a wedge between Brandon and Alana, sending her on the run. When she discovers vital information that could prevent Brandon from losing his inheritance, will Alana watch from afar or intervene? In the universally acclaimed and award-winning *The Bottom Billion*, Paul Collier reveals that fifty failed states--home to the poorest one billion people on Earth--pose the central challenge of the developing world in the twenty-first century. The book shines much-needed light on this group of small nations, largely unnoticed by the industrialized West, that are dropping further and further behind the majority of the world's people, often falling into an absolute decline in living standards. A struggle rages within each of these nations between reformers and corrupt leaders--and the corrupt are winning. Collier analyzes the causes of failure, pointing to a set of traps that ensnare these countries, including civil war, a dependence on the extraction and export of natural resources, and bad governance. Standard solutions do not work, he writes; aid is often ineffective, and globalization can actually make matters worse, driving development to more stable nations. What the bottom billion need, Collier argues, is a bold new plan supported by the

Group of Eight industrialized nations. If failed states are ever to be helped, the G8 will have to adopt preferential trade policies, new laws against corruption, new international charters, and even conduct carefully calibrated military interventions. Collier has spent a lifetime working to end global poverty. In *The Bottom Billion*, he offers real hope for solving one of the great humanitarian crises facing the world today. "Set to become a classic. Crammed with statistical nuggets and common sense, his book should be compulsory reading." --*The Economist* "If Sachs seems too saintly and Easterly too cynical, then Collier is the authentic old Africa hand: he knows the terrain and has a keen ear.... If you've ever found yourself on one side or the other of those arguments--and who hasn't?--then you simply must read this book." --Niall Ferguson, *The New York Times Book Review* "Rich in both analysis and recommendations.... Read this book. You will learn much you do not know. It will also change the way you look at the tragedy of persistent poverty in a world of plenty." --*Financial Times*

A Billion Regrets

The Tariff Review

India - a land of a billion people; a nation for a billion reasons. India continues to mesmerise and surprise the rest of the world as much as she enchants and bewilders her own people. An ancient civilisation and a young nation at once, modern India is a thriving democracy, an economic powerhouse, an increasingly assertive global political player and a world leader in science and technology. At the same time, she remains rooted in tradition - her art, culture and literature continue to enrich her mind, body and soul, as also of the rest of humanity. This superbly-crafted book, adorned with rich and spontaneous photographs, unravels the beauty and enigma of India and her people in an unusually simple and uncomplicated manner, thereby providing an overview of what constitutes this great nation.

A Billion Reasons to stay, but you only need one to go ... Three months into a new job, Emily Greene has a chance encounter with a charming, older man in a London taxi. Alarmingly handsome, the perfect billionaire businessman, Martin Lyle is infatuating and a dream come true. At first unable to believe in his affections for her, Emily eventually casts aside her doubts and allows herself to be swept into a whirlwind romance that catapults her into a life of luxury. As she becomes accustomed to eating out at the best restaurants, splurging on expensive clothes and spending more money than she's ever had in her life, things start to unravel. Martin Lyle is all that he seems, and more. But is he hiding something? When Emily discovers a woman from his past, she begins to wonder if the man of her dreams is really as perfect as he seems. As dark secrets and hidden dangers reveal themselves, Emily isn't sure whom to trust. When women in Martin's company begin to mysteriously disappear, she grows concerned for his safety and in doing so, unearths an unimaginable truth. Will her love for Martin get her through or will one London taxi ride be her biggest ever regret? She's armed—with hot irons, sharp shears, and a flair for color. She's dangerous—truly bad news for bad hair. And she's going to do whatever it takes to make a place for herself in the exclusive Beverly Hills salon. Even if that means sweeping hair, emptying trash, scrubbing dummy heads, and making soy lattes for the stars that come to Yoshi's salon. Even if it means hiding the fact that she's not really an up-and-comer from New York, but a drunk's daughter from small-town Wyoming. Even if it means ignoring her attraction to a tall, dark stranger in a fedora who just stepped off the elevator . . . and into her heart. But can a talented hairdresser from the sticks really make it in image-obsessed L.A.? And can she ever find true love and real success in a town that wrote the book on fake?
