The Sissy Baby is an incredibly important and common aspect of ABDL life. These four novels are

not books that are a full-on sissy extravaganza from the first word until the last. They are – like in real life – a step-by-step journey that follows the story of a young man who finds femininity erupting in his life, just as infancy is also developing. The twin aspect merge and a sissy baby is formed. And in every case, the sissy baby needs to find a life where they are able to live, develop, grow and be part of a relationship that works and matters. I hope you enjoy these four novels as much as the authors enjoyed writing them and it is worth remembering that while they are fiction, they do represent part of the canvas of real life and some scenes are based in part on actual events. Enjoy your travels through the world of the sissy adult baby.
