Syllables In Tashlhiyt Berber And In Moroccan Arabic

Moroccan Arabic Phrasebook & Dictionary 5: Lonely Planet

A dictionary of Moroccan Arabic

This text teaches the basic structure of Moroccan Arabic through Lessons and Dialogues. The four-part lessons include phrase and sentence texts, grammatical notes, exercises, and vocabulary.

Annotation Originally offered in two separate volumes, this staple of Georgetown University Press's world-renowned Arabic language program now handily provides both the English to Arabic and Arabic to English texts in one volume.

This book is intended primarily as an original contribution to the investigation of the phonology of the two main languages spoken in Morocco. Its central topic is syllable structure. Our theoretical outlook is that of generative phonology. Most of the book deals with Tashlhiyt Berber. This language has a syllable structure with properties which are highly unusual, as seen from the vantage point of better-studied languages on which most theorizing about syllabification is based. On the one hand, complex consonant sequences are a common occurrence in the surface representations. On the other hand, syllable structure is very simple: only one distinctive feature bundle (phoneme) may occur in the onset, the nucleus or the coda. The way these two conflicting demands are reconciled is by allowing vowelless syllables. Any consonant may act as a syllable nucleus. When a string is syllabified, nuclear status is preferentially assigned to the segments with a higher degree of sonority than their neighbours. Consider for instance the expression below, which is a complete sentence meaning 'remove it (m) and eat it (m)': /kks=t t-ss-t=t/ [k. st. s . t:']. k. k~t. t. s. . slt. The sentence must be pronounced voiceless throughout, as indicated by the IPA transcription between square brackets; the syllabic parse given after the IPA transcription indicates that the sentence comprises four syllables (syllable nuclei are underlined). The differences between the dialects of Berber have to do primarily with the phonology and the lexicon.

"The Georgetown Dictionary of Moroccan Arabic" is a modernized, up-to-date dialectal Arabic language resource that promotes successful daily communication with native Moroccan speakers. Created using the latest computational linguistics ideas, the dictionary represents a new generation of Arabic language reference materials designed to help English speakers gain proficiency in colloquial Arabic. This dictionary supersedes the seminal Moroccan dictionaries originally published by Georgetown University Press in the 1960s. More than just a phrasebook, it now includes new words and phrases (including commonly borrowed words), Arabic script and organization by root, pronunciation in IPA format, among other features. Students, teachers, and scholars of Arabic will welcome this resource, which has a firm base of Moroccan words so they may grow their vocabulary and learn more about the Moroccan Arabic variety.

A Dictionary of Moroccan Arabic presents, in a range, the core vocabulary of everyday life in Morocco - from the kitchen to the mosque, from the hardware store to the natural world of plants and animals. It contains myriad examples of usage, including formulaic phrases and idiomatic expressions. Understandable throughout the nation, it is based primarily on the standard dialect of educated Moroccans from the cities of Fez, Rabat, and Casablanca. All Arabic citations are in an English transcription, making it invaluable to English-speaking non-Arabists, travelers, and tourists - as well as being an important resource tool for students and scholars in the Arabic language-learning field.

In this book, you will not just be able to learn the basic Moroccan dialect but also you will be able to practice what you learned through the several exercises that this book includes for every single lesson. Moreover, you will find the answers to each exercise in the keywords section. At the end of this book, you will find "the final exercises" which I have put especially through considering that you have passed all of the previous lessons and exercises, so they are challenging than the previous ones. You will also find many expressions for the same meaning, so you will not miss anything that you may need to know about speaking in Moroccan darija. Besides, you will have the possibility to know the explanation of some words at the bottom of some pages (footnotes) and in the dictionary section. Furthermore, the Moroccan characters which used in this book are the exact Moroccan dialect that Moroccans use every single day in their writing and conversations. In this book, you will be able to read Moroccan darija by English characters and also by Arabic characters besides the English translation.

THIS BOOK DOESN'T CONTAIN ANY ARABIC LETTERS! ALL ARABIC WORDS IN THIS BOOK WERE WRITTEN IN ENGLISH-TRANSLITERATION! Have you always wanted to learn how to speak the Saudi Hijazi Arabic dialect but simply didn't have the time? Well if so, then, look no further. You can hold in your hands one of the most advanced and revolutionary method that was ever designed

for quickly becoming conversational in a language. In creating this time-saving program, master linguist Yatir Nitzany spent years examining the twenty-seven most common languages in the world and distilling from them the three hundred and fifty words that are most likely to be used in real conversations. These three hundred and fifty words were chosen in such a way that they were structurally interrelated and, when combined, form sentences. Through various other discoveries about how real conversations work—discoveries that are detailed further in this book—Nitzany created the necessary tools for linking these words together in a specific way so that you may become rapidly and almost effortlessly conversant—now. If your desire is to learn complicated grammatical rules or to speak perfectly proper and precise Arabic, this book is not for you. However, if you need to actually hold a conversation while embarking on a pilgrimage to Mecca, to impress that certain someone, or to be able to speak with your grandfather or grandmother as soon as possible, then the Nitzany Method is what you have been looking for. This book is recommended for those who already have some prior knowledge of the pronunciation of Arabic accents (such as the Arabic accents: ayin, ghayn, ha, and khaf). For those of you who do not, this book does indeed provide some great, in-depth techniques on the pronunciation and recognition of these accents, that you will encounter throughout the program. These techniques have proven extremely beneficial for beginner students who were previously unfamiliar with these accent pronunciations. But keep in mind this isn't a pronunciation book! Keep in mind that Saudi dialect is not an official language, but rather is a colloquial dialect. The purpose of my method is solely to give you the tools to create your own sentences in order to become conversational, while in regards to grammar, pronunciation, etc., you are on your own! This method is designed for fluency in a foreign language, while communicating in the first person present tense. Nitzany believes that what's most important is actually being able to understand and be understood by another human being right away. Therefore, unlike other courses, all words in this program are taught in English transliteration, without having to learn the complex alphabet. More formalized training in grammar rules, etc., can come later. This is one of the several, in a series of instructional language guides, the Nitzany Method's revolutionary approach is the only one in the world that uses its unique language technology to actually enable you to speak and understand native speakers in the shortest amount of time possible. No more depending on volumes of books of fundamental, beginner, intermediate, and advanced levels, all with hundreds of pages in order to learn a language. With Conversational Arabic Quick and Easy, all you need are forty-six pages. Learn Arabic today!

This volume provides a detailed analysis of language contact in North Africa and explores the historical presence of the languages used in the region, including the different varieties of Arabic and Berber as well as European languages. Using a wide range of data sets, it provides a comprehensive analysis of the mechanisms of language contact under classical diglossia and societal bilingualism, examining multiple cases of oral and written code-switching. It also describes contact-induced lexical and structural change in such situations and discusses the possible appearance of new varieties within the context of diglossia. Examples from past diglossic situations are examined, including the situation in Muslim Spain and the Maltese Islands. An analysis of the current situation of Arabic vernaculars, not only in the Maghreb but also in other Arabic-speaking areas, is also presented. This book will appeal to anyone interested in language contact, the Arabic language, and North Africa.

Moroccan Arabic was written by a dogged student of the language (and a natural teacher) and it was edited by a native speaker and equally wonderful teacher. Finally, a straight-forward and easy to use primer for learning Moroccan Arabic - and now, new and improved in this 2nd edition. It incorporates reader suggestions and features more details on the transliteration system, additional words, new word lists, and the text has been completely revised and re-edited. Practical and witty, it's basically the equivalent of a VCR repair manual, just a bare-bones list of how to do the important things: here's the present tense, here's the future tense, etc, etc. In other words, it's a reference book with simple examples, none of the filler, and a few youthful surprises. It's just the kind of cheat-sheet everyone craves. Best of all, and unlike the others, everything is provided side-by-side in English, transliteration, and

Arabic. And it uses a simple real-word transliteration system that is simply written the way things sound without the use of exotic linguistic symbols. It's the perfect book for everyone with an interest in contemporary Morocco: travelers, tourists, students, diplomats, business people, academics, artists, Peace Corp volunteers, Fulbright Scholars and student grantees, etc. Praise for Moroccan Arabic from students, scholars and travelers on both side of the Atlantic: "Fills a gaping hole in Moroccan Arabic instruction. Based on the first-hand immersion experiences of a native English-speaker who navigated Moroccan culture and language for a year... and as a researcher in Morocco myself, I found it handy." --Nabil Khan, Fulbright Student Grantee "I love the sense of humor woven throughout - it's an enjoyable read. A great example of collaboration." --Edwin Bodensiek, Dir. of Outreach and Public Relation, CIES - Fulbright, Washington, DC "A great resource. I wish had this book when I was traveling and researching in Morocco." --Dr Jennifer A Roberson, Professor of Islamic Art, Sonoma State University, California "Written by a born teacher. This book enhances effective language instruction and builds a collection of everyday conversation resources for Anglo-American students and scholars." --Dr Khalid Amine, Universite Abdelmalek Essaadi and President, ICPS - Tangier Many people contributed to making this book a reality - and by agreement of all those involved, the proceeds from the sale of this book go to support the publishing program at the International Centre for Performance Studies (ICPS) - Tangier, Morocco. Initial research for the book was conducted during a Fulbright graduate student grant. The ongoing project (encourage more people to learn Darija, provide improved study materials, and provide a funding stream for ICPS-Tangier) is sustained by the generosity of numerous all-volunteer partners - kindly lend your assistance by sending an email to collaborative.media@gmail.com
