

A Drop In The Potion Spellbound Paranormal Cozy Mystery Book 8

Andrew Frisardi's essays in Ancient Salt are about several modern and contemporary poets -British, American, and Italian. Frisardi offers close readings of these poets, and considers their work in light of the challenges of living and writing amid the extraordinary transformations of the modern era. Some of the poets are religious, some are agnostic or perhaps atheist, but all of them articulate a human-poetic response to modernity: its pluralism, mobility, scientific discoveries, innovations, and unprecedented global awareness; as well as its rootlessness, fragmentation, dehumanizing mechanization, materialism, environmental catastrophes, and even systematic genocide. The subjects of the essays are Scottish poet Edwin Muir (1887-1959); Italian modernist Giuseppe Ungaretti (1888-1970); Irish poet W. B. Yeats (1865-1939); Welsh poet Vernon Watkins (1906-1968); English poet and Blake scholar Kathleen Raine (1918-2003); American poet and Alaskan homesteader John Haines (1924-2011); English poet Richard Berengarten (formerly Burns) (1943-); and American poet-critic David Mason (1954-). Frisardi's accessible style and extensive knowledge of the thought and learning of these poets as well as of the craft of poetry makes these essays substantial nourishment for poetry lovers and students.
This novel, destined to be a libertarian classic on the level of Atlas Shrugged, challenges you to reconsider what you've always known. Evolution is an unchallengeable scientific fact. Isnt it? Not in this noveland not in this world, either. If evolution is a scientific fact, wouldnt we have lots of fossils of intermediate life forms by now? Take the classic idiom we were all taught, that dolphins and whales are "mammals that returned to the sea." Really? If mammals "returned to the sea," wouldnt you expect to find at least one fossil of a creature half way between a whale and a land mammal? But try to picture what such a poor creature would look like, and you realize such a thing couldnt be viable. A horse with fins? A dolphin with legs? Whos kidding whom? Species dont change form gradually over time, as we were all taught, but suddenly/dramatically. This might happen some day, even to our own species. What if women the world over started having babies who were different in appearance, in abilitiesand in the way they think? Would such a new species be mankind's salvation/ mankind's destroyer? This is the world of the near future, a world in which a great Transfiguration complete change in life formshas occurred. But before I tell you any more about the setting of the novel, consider where you learned about how the world works: the public schools. Did it ever strike you that, when children loathe school, when a five year old cries and screams at the prospect of leaving home and has to be literally dragged off to school like a lamb to the slaughterthat he may be trying to tell you something? It may be that children understand the true nature of school much more profoundly than adults. For public schools, you see, are not so much centers of learning as centers of indoctrination. The lessons learned in public schools are obedience to authority and subservience to the group. Children, when they are young, resist this with all the rebellion they can muster. We, as adults, accept it. But suppose our new humanoid speciescalled the Kethdon think the way most of us do? Suppose they resisted all the attempts to indoctrinate them? Oh, they pretend to go along with submission to authority, but at heart, theyre rebels. They develop their own hearts and minds, and they wait. Like the Keth, the Founding Fathers were rebels at heart. Unfortunately, their ingenious system for restraining tyrantsconstitutional lawshas been eroded over time. Today, were only a crisis away from having full tyranny restored. Great thinkers like the founding fathers are rebels in the deepest sense. They are the states worst nightmare. That nightmare is one in which people understand things as they are, stand up, and say no. The usual reaction to free people saying no is total subjugation, as when the South tried to go its own way. But usually, the state tries to prevent such actions by using a thousand ingenious mind tricks. Like Patriotism: the unquestioning support for your rulers wishes. Or Service to Country: the willingness to march off to far corners of the globe to be blown to bits in service to democracy. The Keth, being gifted in understanding, dont fall for such games. Not even the most common trick: believing you can be better off by accepting stolen loot from the government, like a dog panting for a few more scraps from his master. The Keth pretend to go along, waiting for their chance. Most people, of course, fall for these old games, but if youve read this far, youre probably one of the rare ones who dont. The story of Transfiguration is the story of breaking free. You will read how the Keth are rounded up and sent to specialized schools to make them more pliable and socialized. You will read how they struggle to improve their minds, despite the efforts of their teachers to hold them back.

Just an average witch, trying to get her soulmate to fall in love with her... Alice Balfour is just an average witch, trying to get her soul mate to fall in love with her. Every day, she happily goes about minding her own business, tending to her coffee shop, avoiding her batty aunts, and loving her magical harbor town of Lantern Lane. Until her world literally shakes. Theo Parker is new in town for a reason. A small town means fewer people - more specifically, fewer women. But from the moment Theo rolls into town, a beautiful woman begins haunting his days and his dreams. Drawn together by unexplained powers (and delicious fall lattes), both Alice and Theo have to face the facts. Theo can't deny his attraction or the fireworks he feels when he's around Alice, and Alice has to do something about her family curse before it's too late. With the Fall Festival approaching and her time running out, Alice has to make a decision. And with the curse looming over her head and strikingly handsome Theo Parker still avoiding her, a love potion seems like her only option. Of course, she doesn't try to give the love potion intended for Theo to everybody who drinks her apple cider at the Fall Festival, but she does. So, now Alice needs to avoid the townspeople of Lantern Lane and get Theo to fall in love before it's too late. Katie Bachand's writing shines in her latest small town, sweet romantic comedy! “A first novel of sorts that promises to be an engaging study of memory, storytelling, and coming of age.”—Library Journal
Daniel is pursued by stories. His father, in thrall to a myth, has disappeared; his mother and sister, too; and Lydia, his lover, leaves him and the novel he cannot finish for quantum mechanics, the place where theory tells tales about the real. And then there is Pearl, the girl beneath the floorboards, whose adventures hum alongside Daniel’s own. In this contemporary, contemplative fairy tale, the autobiographical novel takes on the cast of legend, and the uncertainty of memory leaves reality on shaky ground. Can parallel universes exist? Can a preoccupation with Moby Dick overwhelm the story unfolding before you? Where do you stand in relation to the metaphysics of your own life? “A rich, profound, fascinating book, the kind that widens the margins of everything we read.”—Los Angeles Times
“Dive in, & beneath Beachy-Quick’s carefully sculpted language, you’ll find a love story . . . [Dan Beachy-Quick] writes with heightened lyricism, an ear for rhythm and rich sensory detail.”—Chicago Tribune
“A marvelous novel, by turns lyrical, realistic, dreamlike, and philosophical but always intelligent and gorgeously written.”—Kirkus Reviews (starred review)

The cards never lie...and this time, the truth is deadly. Four months into being a not-so-platonic couple, Selena Marx and Calvin Standingbear are getting into the spirit of Halloween in Globe, Arizona, complete with elaborate costumes. Selena's even agreed — a bit hesitantly — to do a limited number of Tarot readings for her best friend Josie's blowout Halloween bash. The party is going spookily well...until Selena's reading for high school principal Danny Ortega. The cards don't hold back on his less-than-savory dalliances, predicting that karma won't be kind. In fact, karma strikes back before the party's even over — as Danny drops dead. When Danny's ghost asks Selena to uncover who killed him, she has no choice but to dig through his rather checkered romantic past for clues. All while taking the next step in her and Calvin's relationship — meeting his parents. And if that's not enough to make Selena want to dive head-first into a bowl full of Halloween chocolate, discovering the heart-breaking truth behind Danny's death might be the final blow....
