Frameworks for Market Strategy helps students understand how to develop and implement a market strategy and how to manage the marketing process. Marketing activity is the source of insight on the market, customers, and competitors and lies at the core of leading and managing a business. To understand how marketing fits into the broader challenge of managing a business, Capon and Go address marketing management both at the business and functional levels. The book moves beyond merely presenting established procedures, processes, and practices and includes new material based on cutting-edge research to ensure students develop strong critical thinking and problem-solving skills for success. In this European edition, Capon and Go have retained the strong framework of the book, but have updated the cases, examples, and discussions to increase the book’s relevance for students outside the USA. Key features include:
• A strong strategic focus, teaching students how to analyze markets, customers, and competitors to plan, execute, and evaluate a winning market strategy
• Practical examples from a range of contexts, allowing students to develop the skills necessary to work in for-profit, public, or non-profit firms
• Emphasis on understanding the importance of working across organizational boundaries to align firm capabilities
• Full chapters devoted to key topics, including brand management, digital marketing, marketing metrics, and ethical as well as social responsibilities
• Focus on globalization with a chapter on regional and international marketing
• Multiple choice, discussion, and essay questions at the end of each chapter Offering an online instructor’s manual and a host of useful pedagogy - including videos, learning outcomes, opening cases, key ideas, exercises, discussion questions, a glossary, and more - this book will provide a solid foundation in marketing management, both for those who will work in marketing departments, and those who will become senior executives.

The study of Law forms a component of many undergraduate and postgraduate programs. Its inclusion does not aim to equip business practitioners with skill and expertise to render professional legal advice unnecessary, but more to provide a legal framework of reference in which both strategic and more immediate business issues can be placed. Equipping managers with a basic understanding of how law impacts upon business activity can help them avoid legal pitfalls in the first place or at least identify potential problems at an early stage, to avoid inconvenience and cost. International business can present problems that are not present in a purely domestic transaction. Any law component in a management program should embrace it and by doing so the business practitioner can be familiarized with the wider picture in which modern business, aided by technological development, is increasingly practiced.

MARKETING: THE CORE, 2/e by Kerin, Berkowitz, Hartley, and Rudelius continues the tradition of cutting-edge content and student-friendliness set by Marketing 8/e, but in a shorter, more accessible package. The Core distills Marketing’s 22 chapters down to 18, leaving instructors just the content they need to cover the essentials of marketing in a single semester. Instructors using The Core also benefit from a full-sized supplements package. The Core is more than just a "baby Kerin"; it combines great writing style, currency, and supplements into the ideal package.
