Distress Signals

"When quiet, unassuming Jessica Hilyard mysteriously disappears, Kylie Hatfield promises Jessica's sister she'll find her. So what if she's technically just the office assistant at Starr Investigations? It's the perfect opportunity to prove to her boss she has what it takes to become a real

private investigator. But when the evidence starts to link Jessica's disappearance to a dangerous serial killer, everyone warns Kylie to back off the case--the police, her boss, and Linc Coulter, the maddeningly sexy ex-soldier who's training (or trying to train) her nutty Newfoundland dog, Vader, and making

Kylie crazy in the process. But nothing's going to stop Kylie from becoming a full-fledged private investigator...not even the threat of an unexpected murderer, who wants to take more than just her life."--Amazon.

At a time when we are reexamining our values, reeling from the pace of change,

witnessing the clash between good instincts and "pragmatism," dealing with the angst of a new millennium, Neil Postman, one of our most distinguished observers of contemporary society, provides for us a source of guidance and inspiration. In *Building a Bridge to the Eighteenth Century* he revisits the

Enlightenment, that great flowering of ideas that provided a humane direction for the future -- ideas that formed our nation and that we would do well to embrace anew. He turns our attention to Goethe, Voltaire, Rousseau, Diderot, Kant, Edward Gibbon, Adam Smith, Thomas Paine, Jefferson, and Franklin, and to

their then-radical thinking about inductive science, religious and political freedom, popular education, rational commerce, the nation-state, progress, and happiness. Postman calls for a future connected to traditions that provide sane authority and meaningful purpose -- as opposed to an overreliance on technology and an

increasing disregard for the lessons of history. And he argues passionately for specific new guidelines in the education of our children, with renewed emphasis on developing the intellect as successfully as we are developing a computer-driven world. Witty, provocative, and brilliantly reasoned, *Building a Bridge to the*

Eighteenth Century is Neil Postman's most radical, and most commonsensical, book yet.

"Character" has become a front-and-center topic in contemporary discourse, but this term does not have a fixed meaning. Character may be simply defined by what someone does not do, but a more

active and thorough definition is necessary, one that addresses certain vital questions. Is character a singular characteristic of an individual, or is it composed of different aspects? Does character--however we define it--exist in degrees, or is it simply something one happens to have? How can character be

developed? Can it be learned? Relatedly, can it be taught, and who might be the most effective teacher? What roles are played by family, schools, the media, religion, and the larger culture? This groundbreaking handbook of character strengths and virtues is the first progress report from a prestigious group of

researchers who have undertaken the systematic classification and measurement of widely valued positive traits. They approach good character in terms of separate strengths-authenticity, persistence, kindness, gratitude, hope, humor, and so on-each of which exists in degrees. Character Strengths and Virtues

classifies twenty-four specific strengths under six broad virtues that consistently emerge across history and culture: wisdom, courage, humanity, justice, temperance, and transcendence. Each strength is thoroughly examined in its own chapter, with special attention to its meaning, explanation, measurement,

causes, correlates, consequences, and development across the life span, as well as to strategies for its deliberate cultivation. This book demands the attention of anyone interested in psychology and what it can teach about the good life.
