NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning *The Daily Show* with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, *The Daily Show* with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of *The Daily Show*'s most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, *The Daily Show* has been a cultural touchstone. Now, for

Winner of the 2018 Caldecott Medal A girl is lost in a snowstorm. A wolf cub is too. How will they find their way home? Paintings rich with feeling tell this satisfying story of friendship and trust. Here is a book set on a wintry night that spark imaginations and warm hearts, from Matthew Cordell, author of Trouble Gum and Another Brother.

Wolfgang Amadeus Mouse ("Wolf," for short) has a big name for such a little mouse. But the name fits. His favorite pastime is listening to Mrs. Honeybee, the lady of the house, play the piano. If only he could sing along to the music! One day Wolf decides to try -- and to his surprise, out of his mouth comes a perfect melody. It's not long before Wolf is singing everything from "Three Blind Mice" to Chopin to the Beatles, all to Mrs. Honeybee's accompaniment. Then an accident leaves Mrs. Honeybee in danger, and it's up to Wolf to save her... the only way he knows how. In the vein of Naomi Novik's New York Times bestseller Spinning Silver and Katherine Arden's national bestseller The Bear and the Nightingale, this unforgettable debut—inspired by Hungarian history and Jewish mythology—follows a young pagan woman with hidden powers and a one-eyed captain of the Woods as they form an unlikely alliance to thwart a tyrant. In her forest-veiled pagan

village, Évike is the only woman without power, making her an outcast clearly abandoned by the gods. The villagers blame her corrupted bloodline—her father was a Yehuli man, one of the much-loathed servants of the fanatical king. When soldiers arrive from the Holy Order of Woodsmen to claim a pagan girl for the king's blood sacrifice, Évike is betrayed by her fellow villagers and surrendered. But when monsters attack the Woodsmen and their captive en route, slaughtering everyone but Évike and the cold, one-eyed captain, they have no choice but to rely on each other. Except he's no ordinary Woodsman—he's the disgraced prince, Gáspár Bárány, whose father needs pagan magic to consolidate his power. Gáspár fears his cruelly zealous brother plans to seize the throne and instigate a violent reign that would damn the pagans and the Yehuli alike. As the son of a reviled foreign queen, Gáspár understands what it's like to be an outcast, and he and Évike make a tenuous pact to stop his brother. As their mission takes them from the bitter northern tundra to the smog-choked capital, their mutual loathing slowly turns to affection, bound by a shared history of alienation and oppression. However, trust can easily turn to betrayal, and as Évike reconnects with her estranged father and discovers her own hidden magic, she and Gáspár need to decide whose side they're on, and what they're willing to give up for a nation that never cared for them at all.

Illustrated throughout, this irresistible tale by award-winning author Rosanne Parry is for fans of Sara Pennypacker’s Pax and Katherine Applegate’s The One and Only Ivan. Swift, a young wolf cub, lives with his pack in the mountains learning to hunt, competing with his brothers and sisters for hierarchy, and watching over a new litter of cubs. Then a rival pack attacks, and Swift and his family scatter. Alone and scared, Swift must flee and find a new home. His journey takes him a remarkable one thousand miles across the Pacific Northwest. The trip is full of peril, and Swift encounters forest fires, hunters, highways, and hunger before he finds his new home. Inspired by the extraordinary true story of a wolf named OR-7 (or Journey), this irresistible tale of survival invites readers to experience and imagine what it would be like to be one of the most misunderstood animals on earth. This gripping and appealing novel about family, courage, loyalty, and the natural world is for fans of Fred Gipson’s Old Yeller and Katherine Applegate’s Endling. Plus don't miss Rosanne Parry's stand-alone companion novel, A Whale of the Wild. "It's hard to imagine the child—story-lover or fact-lover, dog-lover or not—who would not be drawn in by this book."—The New York Times Book Review How did dog become man's best friend? Dogs come in such a variety of shapes, sizes, and breeds, that it is hard to believe that they all have a common ancestor--the wolf! Hudson Talbott takes readers on a fascinating journey through history to see how wolves' relationships with humans sparked their development into the dogs we know and love today. Striking paintings, from an adorable wolf pup to a wide range of modern-day dog breeds, illustrate this insightful story of teamwork and friendship. Through the eyes of a prehistoric boy and a lone wolf pup, we see how the bond between our ancestors and these wild animals may have developed. Starting as enemies competing for food, the wolf and the boy realize that they'll eat better and be safer if they team up. Over time, others catch on, and as many of the wolves become more domesticated, the humans breed them for skills like hunting, herding, pulling, and rescuing. And today, there are more breeds of dog than of any other animal, all thanks to this relationship that started so long ago.

EYE TO EYE WITH DEATH: THE WOLF PROJECT Hordes of bloodthirsty wolves are slaughtering the arctic caribou, and the government's Wildlife Service assigns naturalist Farley Mowat to investigate. Mowat is dropped alone onto the frozen tundra, where he begins his mission to live among the wolf packs and study their ways. Contact with his quarry comes quickly, and Mowat discovers a world of marauding killers but a courageous family of skillful providers and devoted protectors of the land. As Mowat comes closer to the wolf world, he comes to fear with them the onslaught of bounty hunters and government exterminators out to erase the noble wolf community from the Arctic. Never before has there been one of the brilliant narratives on the myth and magic of wild wolves and man's true place among the creatures of nature. "We have doomed the wolf not for what it is, but for what we deliberately and mistakenly perceive it to be — the mythologized epitome of a savage, ruthless killer — which is no more than the reflected image of ourself." — From the new Preface
