Practical Global Criminal Procedure contextualizes criminal procedural law by analyzing police investigation in a homicide case under the law of the United States, Argentina, and the Netherlands. The book discusses the fictional case of Nico Jansen, an 18-year-old high school student who, after a series of events, is charged with murder. The initial police investigation of Nico and his co-defendant becomes the vehicle for an in-depth examination of seizures, searches, interrogations, identifications, and remedies for procedural violations under the law of each country. This book is designed as a student reader, and it can be used to provide a comparative experience to students in a basic criminal procedure course, to supplement a comparative law survey course, or to serve as primary text in a comparative criminal procedure course. The initial chapters provide a basic overview of life, crime, the legal system, and the criminal system in each country, and sets forth the facts of Nico's case. The remaining chapters discuss

the relevant criminal procedural law in each country and apply that law to the specific circumstances of Nico's case. Comparison charts appear at the end of each substantive chapter to highlight and summarize the similarities and differences between each country's laws. This book is part of the Contextual Approach Series, edited by Andrew J. McClurg, Professor and Herff Chair of Excellence in Law, The University of Memphis Cecil C. Humphreys School of Law.

In recent years, the interest in consumer-related issues has grown tremendously, fueled by growing unemployment, high foreclosure rates, credit card interest rate increases and a recession more sweeping than anything seen in more than a generation. Unfortunately, when readers look for a text to explain these issues, they are too often confronted with case books that have more application to law school curricula than to a college-level course. This book fills the need for a well-written text on consumer law and consumer protection. Covering topics as diverse as protecting a person's credit rating to avoiding predatory lending, *Consumer Law & Protection* explains the law and gives readers the tools that they need to protect themselves from telemarketers, unscrupulous debt collectors and network marketing schemes, to name only a few of the topics covered in the book.
