The public response at the time equalled modern reactions to the Harry Potter books, the audience rapt to learn of Nell's fate. Does she live a life of comfort, of which her grandfather dreams? Or does fate have something less noble in store for poor Nell? That hot guy tied to Lissianna Argeneau's bed? He's not dessert—he's the main course! Lissianna has been spending her centuries pining for Mr. Right, not just a quick snack, and this sexy guy she finds in her bed looks like he might be a candidate. But there's another, more pressing issue: her tendency to faint at the sight of blood...an especially annoying quirk for a vampire. Of course it doesn't hurt that this man has a delicious-looking neck. What kind of cold-blooded vampire woman could resist a bite of that? Dr. Gregory Hewitt recovers from the shock of waking up in a stranger's bedroom pretty quickly—once he sees a gorgeous woman about to treat him to a wild night of passion. But is it possible for the good doctor to find true love with a vampire vixen, or will he be just a good meal? That's a question Dr. Greg might be willing to sink his teeth into...if he can just get Lissianna to bite.

Those monsters that kept you up at night as a child, the ones that made you pull the covers up to your chin while you stared into the dark corners and saw shadows move. Or pulled the blankets over your head and imagined creatures inching across your bedroom. Well, they're real. The Organization, as it's called, is tasked with keeping the nightmares of myth and legend from invading the public eye. The group must be kept a secret along with the fact that the creatures exist. As civilization expands its boundaries, that undertaking becomes more difficult. A very few are selected to stand on the lines between humankind and the horrors lurking in the dark recesses of the world. Follow Jack Walker and Red Team as they're pulled into the shadows to combat creatures that once kept them awake at night.

"I celebrated when vampires were declared extinct. Those monsters had preyed on humanity for millennia, committing senseless, brutal murders. Like the rest of my colleagues at the Occult Bureau, I looked forward to a world where we could all sleep at night--where constant cover-up jobs were no longer required to keep the public calm and unaware. But the end of vampires wasn't the end of our problems. It was only the beginning"--Publisher marketing.

Bastian had to have been the most handsome man that Katherine had ever met. It really was unfortunate that he was also the most stubborn, controlling, downright infuriating jackass she'd ever known as well. Oh, and there was the fact that he was a werewolf – a werewolf who has bitten her. Sixteen-year-old Katherine Mayes had never believed in mythological creatures like werewolves or mermaids – certainly not those sparkly vampires that her friend Abby was obsessed with. Even when she's bitten by a massive animal after a reckless night of teenage adventure and her body begins to change in mystifying ways, she can't force herself to believe in what she's convinced is impossible. Little does she realize she's been infected with a disease a little more permanent than the rabies she feels fortunate to have not contracted. Lycanthropy. Her fierce denial is soundly shattered, however, when she is simultaneously saved and kidnapped by Bastian and his pack. Forced to leave small town Iowa behind and adjust to their way of life in a hidden society, Katherine must also deal with fighting the pull she feels towards the man – or wolf, rather – who has bitten her and disrupted her life so completely.

Blood Born

A Citadel of Captives

Once upon a time, there lived a girl named Fallon, who was taken far away from home shortly after she was born. A home that held more than strange traditions and bizarre superstitions. Twenty-four years later, she returned to Weeping Hollow, a haunting town she'd only heard about in stories during restless nights under a marble moon, to meet her last living relative. They called her a freakshow--a ghost. They said I couldn't go near her. Still, there was this aching pull to Fallon Grimaldi that I couldn't escape. A nostalgic pull as if we'd been here before. Once upon a time, there lived a mysterious man named Julian with a curse as old as centuries wrapped around his soul. He was one of the four Hollow Heathens, the very dark creatures who caused the town's people to live in fear. And the Blackwell name was stained with darkness and death. They called him a monster. Cold and hollow. They said I shouldn't go near him. Still, there was this aching pull to Julian Blackwell that I couldn't escape. A nostalgic pull as if we'd been here before.

In a world where we have government of the rich by the rich for the rich, one girl decides to fight back...

The old me was too scared to even start dating again. The new me? She wants to devour all three of them. Vampires Never Get Old

When the human and the vampire worlds collide, there will be hell to pay. Luca Ambrus is a rare breed: vampire from birth, begotten by vampire parents, blood born. He is also an agent of the Council—the centuries-old cabal that governs vampirekind, preserving their secrecy and destroying those who betray them. When a cryptic summons leads him to the scene of the brutal killing of a powerful Council member, Luca begins the hunt for an assassin among his own people. But instead of a lone killer he discovers a sinister conspiracy of rogue vampires bent on subjugating the mortal world. All that stands in their way are the conduits, humans able to channel spirit warriors into the physical world to protect mankind. Chloe Fallon is a conduit—and a target of the vampire assassin who's killing them. When Luca saves her life, an irresistible bond of trust—along with more passionate feelings—is forged between them. As more victims fall, Chloe and Luca have only each other to depend on to save the world from the reign of monsters—and salvage their own future together.

Blindsight is the Hugo Award-nominated novel by Peter Watts, "a hard science fiction writer through and through and one of the very best alive" (The Globe and Mail). Two months have past since a myriad of alien objects clenched about the Earth, screaming as they burned. The heavens have been silent since—until a derelict space probe hears whispers from a distant comet. Something talks out there: but not to us. Who should we send to meet the alien, when the alien doesn't want to meet? Send a linguist with multiple-personality disorder and a biologist so spliced with machinery that he can't feel his own flesh. Send a pacifist warrior and a vampire recalled from the grave by the voodoo of paleogenetics. Send a man with half his mind gone since childhood. Send them to the edge of the solar system, praying you can trust such freaks and monsters with the fate of a world. You fear they may be more alien than the thing they've been sent to find—but you'd give anything for that to be true, if you knew what was waiting for them. . . . At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
