Abdias

The Conflicts of the Holy Apostles [By Abdias] Tr. from an Ethiopic Ms. by S.C. Malan - Primary Source Edition

A timely volume which presents the singular world of Abdias Nascimento to English readers in the second year of his 'crossing over'. Ojo-Ade has brought together an impressive range of contributors who succeed in shining some critical light into the multiple spaces in which Nascimento's ground-breaking activities, from the third decade of the twentieth century, made significant contributions to the contradictory pluriverse of Brazilian race relations and their location within a broader international comparative framework.'

One of the most scholarly examinations of the heritage of European rulers. The implications are enormous involving a lineage traced back to Odin, whose lineage then merged with the bloodline of Jesus Christ himself. This is a subject whose time has come, with a well-researched book that goes far beyond mere speculation.

New Testament Apocrypha

The Works of John Jewel

The Catholic Encyclopedia

The Central Franconian Rhyming Bible ("Mittelfränkische Reimbibel")

The so-called Central Franconian Rhyming Bible ("Mittelfränkische Reimbibel"), although surviving in only a fragmentary condition, is one of the most thematically wide-ranging works of the neglected corpus of Early Middle High German religious poems of the eleventh and twelfth centuries. In its original form the work may have incorporated Christian world-history from the Creation to the Last Judgement. The surviving fragments point to a substantial engagement by a poet from a northwestern dialectal region on the border of High German, Low German, and Middle Dutch with material from the early Old Testament, the Gospels, and the apocryphal and hagiographical legends relating to early Church history. The commentary is the first comprehensive treatment of the theological and literary subject-matter of the work since that of Hugo Busch in 1879/80, and complements the recent linguistic studies of Thomas Klein. The study of sources and analogues conclusively demonstrates that the text - probably of early-twelfth-century date - is a series of homilies, often closely related to German pre-mendicant sermons, and an important witness to the possible existence of a vernacular sermon tradition at an earlier date than existing manuscript evidence suggests. It also includes features of central importance for knowledge of the text tradition of seminal Christian apocrypha. The substantial introduction and conclusion include a comparison with the Old English homiletic corpus of Ælfric of Eynsham. The commentary is also accompanied by the Middle High German text from Friedrich Maurer's standard edition, and a straightforward prose translation into English

intended to make the neglected work accessible to medievalists of different disciplines.

Latin America has a rich and complex social history marked by slavery, colonialism, dictatorships, rebellions, social movements and revolutions. Comparative Racial Politics in Latin America explores the dynamic interplay between racial politics and hegemonic power in the region. It investigates the fluid intersection of social power and racial politics and their impact on the region's histories, politics, identities and cultures. Organized thematically with in-depth country case studies and a historical overview of Afro-Latin politics, the volume provides a range of perspectives on Black politics and cutting-edge analyses of Afro-descendant peoples in the region. Regional coverage includes Argentina, Brazil, Colombia, Cuba, the Dominican Republic, Ecuador, Haiti and more. Topics discussed include Afro-Civil Society; antidiscrimination criminal law; legal sanctions; racial identity; racial inequality and labor markets; recent Black electoral participation; Black feminism thought and praxis; comparative Afro-women social movements; the intersection of gender, race and class, immigration and migration; and citizenship and the struggle for human rights. Recognized experts in different disciplinary fields address the depth and complexity of these issues. Comparative Racial Politics in Latin America contributes to and builds on the study of Black politics in Latin America.
