A mother and father, estranged for years, are travelling across Europe to their daughter's wedding. Vibrant, beautiful Ninon has fallen in love with the young Italian Gino. She is twenty-three years old - and she is dying of AIDS. As their wedding approaches, the story of Ninon and Gino unfolds. On their wedding day, Ninon will take off her shoes and dance with Gino: they will dance as if they will never tire; as if their happiness is eternal; as if death will never touch them. *To the Wedding* is a novel of devastating heartache, soaring hope and above all, love that triumphs over death.

"Patience, patience, because the great movements of history have always begun in those small parenthesis that we call 'in the meantime.'" —John Berger The last book that John Berger wrote was this precious little volume about time titled *What Time Is It?*, now posthumously published for the first time in English by Notting Hill Editions. Berger died before it was completed, but the text has been assembled and illustrated by his longtime collaborator and friend Selçuk Demirel, and has an introduction

by Maria Nadotti. *What Time Is It?* is a profound and playful meditation on the illusory nature of time. Berger, the great art critic and Man Booker Prize-winning author, reflects on what time has come to mean to us in modern life. Our perception of time assumes a uniform and ceaseless passing of time, yet time is turbulent. It expands and contracts according to the intensity of the lived moment. We talk of time "saved" in a hundred household appliances; time, like money, is exchanged for the content it lacks. Berger posits the idea that time can lengthen lifetimes once we seize the present moment. "What-is-to-come, what-is-to-be-gained empties what-is."

*Ways of Seeing* is a key art-historical work that continues to provoke widespread debate. It is comprised of seven different essays, three of which are pictorial and the other containing texts and images. Berger first examines the relationship between seeing and knowing, discussing how our assumptions affect how we see a painting. He moves on to consider the role of women in artwork, particularly regarding the female nude. The third essay deals with oil painting looking at the relationship between subjects and ownership. Finally, Berger addresses the idea of

ownership in a consumerist society, discussing the power of imagery in advertising, with particular regards to photography. Street photographer and storyteller extraordinaire Brandon Stanton is the creator of the wildly popular blog "Humans of New York." He is also the author of the #1 New York Times bestseller Humans of New York. To create Little Humans, a 40-page photographic picture book for young children, he's combined an original narrative with some of his favorite children's photos from the blog, in addition to all-new exclusive portraits. The result is a hip, heartwarming ode to little humans everywhere.

**John Berger broke new ground with his penetrating writings on life, art and how we see the world around us. Here he explores how the ancient relationship between man and nature has been broken in the modern consumer age, with the animals that used to be at the centre of our existence now marginalized and reduced to spectacle. Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are. "In this incisive counter-polemic Peter Fuller underlines what is most valuable in Berger's criticism, while attacking the art ideologists who would negate the existence of any aesthetic experience. He succinctly argues the case for a materialistic understanding of art and its value which moves beyond ideology and permits one to confront the 'masterpiece', the work of art which breaks free from the norms of tradition and transcends its time."--back cover. "Berger's work is an invitation to reimagine; to see in different ways," writes Tom Overton in the introduction to this volume. As a master storyteller and thinker John Berger challenges readers to rethink their every assumption about the role of creativity in our lives. In this brilliant collection of diverse pieces—essays, short stories, poems, translations—which spans a lifetime's engagement with art, John Berger reveals how he came to his own unique way of seeing. He pays homage to the writers and thinkers who influenced him, such as Walter Benjamin, Rosa Luxemburg and Bertolt Brecht. His expansive perspective takes in artistic movements and individual artists—from the Renaissance to the present—while never neglecting the social and political context of their creation. *art writing, demonstrating beautifully how his artist's eye makes him a storyteller in these essays, rather than a critic. With "landscape" as an animating, liberating metaphor rather than a rigid definition, this collection surveys the aesthetic landscapes that have informed, challenged and nourished John Berger's understanding of the world. Landscapes—alongside Portraits—completes a tour through the history of art that will be an intellectual benchmark for many years to come. As a novelist, essayist, and cultural historian, John Berger is a writer of dazzling eloquence and arresting insight whose work amounts to a subtle, powerful critique of the canons of our civilization. In About Looking he explores our role as observers to reveal new layers of meaning in what we see. How do the animals we look at in zoos remind us of a relationship between man and beast all but lost in the twentieth century? What is it about looking at war photographs that doubles their already potent violence? How do the nudes of Rodin betray the threats to his authority and potency posed by clay and flesh? And how does solitude inform the art of Giacometti? In asking these and other questions, Berger alters the vision of anyone who reads his work.*

Booker Prize-winning author John Berger, one of the most widely admired writers of our time, returns us to the captivating play and narrative allure of his previous novels—*G.* and *Pig Earth* among them—with a shimmering fiction drawn from chapters of his own life. One hot afternoon in Lisbon, the narrator finds his long-dead mother seated on a park bench. “The dead don’t stay where they are buried,” she tells him. And so begins a remarkable odyssey, told in simple yet gorgeous prose, that carries us from the London Blitz in 1943, to a Polish market, to a Paleolithic cave, to the Ritz Hotel in Madrid. *Here Is Where We Meet* is a unique literary journey that moves freely through time and space but never loses its foothold in the sensuous present. The first intellectual biography of the life and work of John Berger John Berger was one of the most influential thinkers and writers of postwar Europe. As a novelist, he won the Booker prize in 1972, donating half his prize money to the Black Panthers. As a TV presenter, he changed the way

we looked at art with *Ways of Seeing*. As a storyteller and political activist, he defended the rights and dignity of workers, migrants, and the oppressed around the world. "Far from dragging politics into art," he wrote in 1953, "art has dragged me into politics." He remained a revolutionary up to his death in January 2017. Built around a series of watersheds, at once personal and historical, *A Writer of Our Time* traces Berger's development from his roots as a postwar art student and polemicist in the Cold War battles of 1950s London, through the heady days of the 1960s—when the revolutions were not only political but sexual and artistic—to Berger's reinvention as a rural storyteller and the long hangover that followed the rise and fall of the New Left. Drawing on first-hand, unpublished interviews and archival sources only recently made available, Joshua Sperling digs beneath the moments of controversy to reveal a figure of remarkable complexity and resilience. The portrait that emerges is of a cultural innovator as celebrated as he was often misunderstood, and a writer increasingly driven as

much by what he loved as by what he opposed. A Writer of Our Time brings the many faces of John Berger together, repatriating one of our great minds to the intellectual dramas of his and our time.

A meditation, in words and images, on the practice of drawing, by the author of *Ways of Seeing*. The seventeenth-century philosopher Baruch Spinoza—also known as Benedict or Bento de Spinoza—spent the most intense years of his short life writing. He also carried with him a sketchbook. After his sudden death, his friends rescued letters, manuscripts, notes—but no drawings. For years, without knowing what its pages might hold, John Berger has imagined finding Bento's sketchbook, wanting to see the drawings alongside his surviving words. When one day a friend gave him a beautiful virgin sketchbook, Berger said, "This is Bento's!" and he began to draw, taking his inspiration from the philosopher's vision. In this illustrated color book John Berger uses the imaginative space he creates to explore the process of drawing, politics, storytelling and Spinoza's life and

times.

“If John Berger’s *Ways of Seeing* is a classic of art criticism, looking at the ‘what’ of art, then David Salle’s *How to See* is the artist’s reply, a brilliant series of reflections on how artists think when they make their work. The ‘how’ of art has perhaps never been better explored.”

—Salman Rushdie *How does art work? How does it move us, inform us, challenge us?* Internationally renowned painter David Salle’s incisive essay collection illuminates these questions by exploring the work of influential twentieth-century artists. Engaging with a wide range of Salle’s friends and contemporaries—from painters to conceptual artists such as Jeff Koons, John Baldessari, Roy Lichtenstein, and Alex Katz, among others—*How to See* explores not only the multilayered personalities of the artists themselves but also

the distinctive character of their oeuvres. Salle writes with humor and verve, replacing the jargon of art theory with precise and evocative descriptions that help the reader develop a personal and intuitive engagement with art. The result: a master class on how to see with an artist's eye.

With this provocative and infinitely moving collection of essays, a preeminent critic of our time responds to the profound questions posed by the visual world. For when John Berger writes about Cubism, he writes not only of Braque, Léger, Picasso, and Gris, but of that incredible moment early in this century when the world converged around a marvelous sense of promise. When he looks at the Modigliani, he sees a man's infinite love revealed in the elongated lines of the painted figure. Ranging from the Renaissance to the conflagration of Hiroshima; from the Bosphorus to Manhattan; from the woodcarvers of a French village to Goya, Dürer, and Van Gogh; and from private experiences of love and of loss to the major political upheavals of our time, *The Sense of Sight* encourages us to see with the same breadth, courage, and moral engagement that its author does.

'Language is a body, a living creature ... and this creature's home is the inarticulate as well as the articulate'. John Berger's work has revolutionized the way we understand visual language. In this new book he writes about language itself, and how it relates to thought, art, song, storytelling and political discourse today. Also containing Berger's own drawings, notes, memories and reflections on everything from Albert Camus to global capitalism, *Confabulations* takes us to what is 'true, essential and urgent'.

At the height of his powers, Pablo Picasso was the artist as revolutionary, breaking through the niceties of form in order to mount a direct challenge to the values of his time. At the height of his fame, he was the artist as royalty: incalculably wealthy, universally idolized—and wholly isolated. In this stunning critical assessment, John Berger—one of this century's most insightful cultural historians—trains his penetrating gaze upon this most prodigious and enigmatic painter and on the Spanish landscape and very particular culture that shaped his life and work. Writing with a novelist's sensuous evocation of character and detail, and drawing on an erudition that embraces history, politics, and art, Berger follows

Picasso from his childhood in Malaga to the Blue Period and Cubism, from the creation of Guernica to the pained etchings of his final years. He gives us the full measure of Picasso's triumphs and an unsparing reckoning of their cost—in exile, in loneliness, and in a desolation that drove him, in his last works, into an old man's furious and desperate frenzy at the beauty of what he could no longer create.

Little Humans

In this quietly revolutionary work of social observation and medical philosophy, Booker Prize-winning writer John Berger and the photographer Jean Mohr train their gaze on an English country doctor and find a universal man--one who has taken it upon himself to recognize his patient's humanity when illness and the fear of death have made them unrecognizable to themselves. In the impoverished rural community in which he works, John Sassall tend the maimed, the dying, and the lonely. He is not only the dispenser of cures but the repository of memories. And as Berger and Mohr follow Sassall about his

rounds, they produce a book whose careful detail broadens into a meditation on the way we assign a human life. First published thirty years ago, *A Fortunate Man* remains moving and deeply relevant--no other book has offered such a close and passionate investigation of the roles doctors play in their society. "In contemporary letters John Berger seems to be peerless; not since Lawrence has there been a writer who offers such attentiveness to the sensual world with responsiveness to the imperatives of conscience." --Susan Sontag

"There are no photographs which can be denied. All photographs have the status of facts." What is to be examined is in what way photography can and cannot give meaning to facts." With these words, two of our most thoughtful and eloquent interrogators of the visual offer a singular meditation on the ambiguities of what is seemingly our straightforward art form. As constructed by John Berger and the renowned Swiss photographer Jean Mohr, that theory includes images as well as words; not only analysis but anecdote and memoir. *Another Way of Telling* explores the tension between the photographer and the photographed, between the picture and its viewers, between the filmed moment and the memories that it so resembles. Combining the moral vision of the critic and the practical engagement of the photographer, Berger and Mohr have produced work that expands the frontiers of criticism first charged by Walter Benjamin, Roland Barthes, and Susan Sontag.

Looking Forward

***When he stands before Giorgione's La Tempesta, Booker Prize-winning author John Berger sees not only the painting but our whole notion of time, sweeping us away from a lost Eden. A photograph of a gravely joyful crowd gathered on a Prague street in November 1989 provokes reflection on the meaning of democracy and the reunion of a people with long-banished hopes and dreams. With the luminous essays in Keeping a Rendezvous, we are given to see the world as Berger sees it -- to explore themes suggested by the work of Jackson Pollock or J. M. W. Turner, to contemplate the wonder of Paris. Rendezvous are manifold: between critic and art, artist and subject, subject and the unknown. But most significant are the rendezvous between author and reader, as we discover our perceptions informed by Berger's eloquence and courageous moral imagination.***

***A major new book from one of the world's leading writers and art critics John Berger, one of the world's most celebrated art writers, takes us through centuries of drawing and painting, revealing his lifelong fascination with a diverse cast of artists. In Portraits, Berger grounds the artists in their historical milieu in revolutionary ways, whether enlarging on the prehistoric paintings of the Chauvet caves or Cy Twombly's linguistic and pictorial play. In penetrating and singular prose, Berger presents entirely new ways of thinking about artists both canonized and obscure, from Rembrandt to Henry Moore, Jackson Pollock to Picasso. Throughout, Berger maintains the essential connection between politics, art and the wider study of culture. The result is an illuminating walk through many centuries of visual culture, from one of the contemporary world's most incisive critical voices.***

Booker winning novelist, playwright, essayist, poet and critic - even admirers rarely know John Berger in all his literary incarnations. This collection of essays will, for the first time, take a definitive look at his extraordinary career. Far from being footnotes to the main body of work Berger's essays are absolutely central to it. Many of the ideas of the groundbreaking *Ways of Seeing* were presented first in essays published in *New Society*. Polemical, reflective, radically original, Berger's wide-ranging essays emphasise the continuities that have underpinned more than 40 years of tireless intellectual inquiry and political engagement. Viewed chronologically they add up, in fact, to a kind of vicarious autobiography and a history of our time as refracted through the prism of art. Edited by Geoff Dyer, and published on the occasion of his 75th birthday, this is an essential collection by one of the world's greatest writers.

“The relation between what we see and what we know is never settled” -- so opens John Berger's revolutionary million-copy bestseller on how to look at art John Berger's *Ways*

of Seeing is one of the most stimulating and the most influential books on art in any language. First published in 1972, it was based on the BBC television series about which the Sunday Times critic commented: "This is an eye-opener in more ways than one: by concentrating on how we look at paintings . . . he will almost certainly change the way you look at pictures." By now he has.

Berger reveals the ties between love and absence, the ways poetry endows language with the assurance of prayer, and the tensions between the forward movement of sexuality and the steady backward tug of time. He recreates the mysterious forces at work in a Rembrandt painting, transcribes the sensorial experience of viewing lilacs at dusk, and explores the meaning of home to early man and to the hundreds of thousands of displaced people in our cities today. And *Our Faces, My Heart, Brief as Photos* is a seamless fusion of the political and personal.

With this haunting first volume of his *Into Their Labours* trilogy, John Berger begins his chronicle of the eclipse of peasant cultures in the twentieth century. Set in a small village in the French Alps, *Pig Earth* relates the stories of skeptical, hard-working men and fiercely independent women; of calves born and pigs slaughtered; of summer haymaking and long dark winters of rest; of a message of forgiveness from a dead father to his prodigal son; and of the marvelous Lucie Cabrol, exiled to a hut high in the mountains, but an inexorable part of the lives of men who have known her. Above all, this

masterpiece of sensuous description and profound moral resonance is an act of reckoning that conveys the precise wealth and weight of a world we are losing.
