combined volume. This 35 chapter text is designed to cover all of the 2nd and 3rd year financial accounting topics typically taught across two units, including accounting regulation, the conceptual framework, applying accounting standards, disclosures and group accounting. It explains accounting principles and practice to students in a clear, understandable way and provides both a conceptual insight as well as a practical application of the various accounting standards. The author team is comprised of a group of academics who are

topics. It explores the theories behind the key areas of corporate governance and ethics and demonstrates how these theories are put in to practice. Examiner highlighted points to focus on such as risks organisations face and how businesses are coping with wider social responsibilities are also discussed. Detailed examples throughout the text will help build your understanding and reinforce learning.

This Study Text has been reviewed by the examiner and concentrates on the key areas of the syllabus, taking into account the examiner's guidance on how

topics will be examined. The Text takes a step-by-step approach to producing consolidated financial statements and lots of exercises which allow you to practise the workings. We guide you through the more problematic topics which can be brought into the preparation of single company financial statements, and encourage you to develop the critical awareness of problems in financial reporting which the examiner expects to see demonstrated at this level. The Study Text is suitable for both International and UK streams. Additional topics relating to the UK are covered in
