An inspirational, practical, and research-based guide for standing up and speaking out skillfully at work. Have you ever wanted to disagree with your boss? Speak up about your company's lack of diversity or unequal pay practices? Make a tough decision you knew would be unpopular? We all have opportunities to be courageous at work. But since courage requires risk—to our reputations, our social standing, and, in some cases, our jobs—we often fail to act, which leaves us feeling powerless and regretful for not doing what we know is right. There's a better way to handle these crucial moments—and *Choosing Courage* provides the moral imperative and research-based tactics to help you become more competently courageous at work. Doing for courage what Angela Duckworth has done for grit and Brene Brown for vulnerability, Jim Detert, the world's foremost expert on workplace courage, explains that

courage isn't a character trait that only a few possess; it's a virtue developed through practice. And with the right attitude and approach, you can learn to hone it like any other skill and incorporate it into your everyday life. Full of stories of ordinary people who've acted courageously, *Choosing Courage* will give you a fresh perspective on the power of voicing your authentic ideas and opinions. Whether you're looking to make a mark, stay true to your values, act with more integrity, or simply grow as a professional, this is the guide you need to achieve greater impact at work.

This new and updated edition of the vital human behavior textbook for graduate-level social work students emphasizes the biopsychosocial framework with a psychodynamic and developmental perspective, with updated information on contemporary thinking and the application of postmodern theory. How Organizations Learn, Innovate, and
Compete in the Knowledge Economy

Report of the Transactions

Teaming

The Elements of Book Keeping

New breakthrough thinking in organizational learning, leadership, and change Continuous improvement, understanding complex systems, and promoting innovation are all part of the landscape of learning challenges today's companies face. Amy Edmondson shows that organizations thrive, or fail to thrive, based on how well the small groups within those organizations work. In most organizations, the work that produces value for customers is carried out by teams, and increasingly, by flexible team-like entities. The pace of change and the fluidity of most work structures means that it's not really about creating effective teams anymore, but instead about leading effective teaming. Teaming shows that organizations learn when the flexible, fluid collaborations they encompass are able to learn. The problem is teams, and other dynamic groups, don't learn naturally. Edmondson outlines the factors that prevent them from doing so, such as interpersonal fear, irrational beliefs about failure, groupthink, problematic power dynamics, and information hoarding. With Teaming, leaders can

shape these factors by encouraging reflection, creating psychological safety, and overcoming defensive interpersonal dynamics that inhibit the sharing of ideas. Further, they can use practical management strategies to help organizations realize the benefits inherent in both success and failure. Presents a clear explanation of practical management concepts for increasing learning capability for business results Introduces a framework that clarifies how learning processes must be altered for different kinds of work Explains how Collaborative Learning works, and gives tips for how to do it well Includes case-study research on Intermountain healthcare, Prudential, GM, Toyota, IDEO, the IRS, and both Cincinnati and Minneapolis Children's Hospitals, among others Based on years of research, this book shows how leaders can make organizational learning happen by building teams that learn.

This addition to Anissa Rogers' bestselling *Human Behavior in the Social Environment* expands the original text with new chapters on spirituality, families and groups, organizations, and communities. Written in the compact, concise manner of the original text, the new chapters cover mezzo and macro contexts, and offer additional material valuable to two- and three-semester HBSE courses.

Human Behavior Theory: A Critical Perspective for Social Work, 3e approaches HBSE from a comparative theory perspective, providing coverage of the most current and contemporary theories as well as traditional theories. It includes contemporary developments in traditional lifespan theory, theories of political economy, and a separate chapter on transpersonal theory. Each chapter includes coverage of the research that supports a particular theory, an analysis of the validity of that research,

and a discussion of updated "Contemporary Issues."

The text encourages students to develop critical thinking skills in analyzing and comparing theories.

The Life Story Interview

Human Behavior in the Social Environment

From the Nobel Prize-winning author of Thinking,

Fast and Slow and the coauthor of Nudge, a

revolutionary exploration of why people make bad judgments and how to make better ones—"a tour de force" (New York Times). Imagine that two

doctors in the same city give different diagnoses to identical patients—or that two judges in the same courthouse give markedly different sentences to people who have committed the same crime.

Suppose that different interviewers at the same firm make different decisions about

indistinguishable job applicants—or that when a

company is handling customer complaints, the resolution depends on who happens to answer the phone. Now imagine that the same doctor, the

same judge, the same interviewer, or the same

customer service agent makes different decisions depending on whether it is morning or afternoon, or

Monday rather than Wednesday. These are

examples of noise: variability in judgments that should be identical. In *Noise*, Daniel Kahneman, Olivier Sibony, and Cass R. Sunstein show the detrimental effects of noise in many fields, including medicine, law, economic forecasting, forensic science, bail, child protection, strategy, performance reviews, and personnel selection. Wherever there is judgment, there is noise. Yet, most of the time, individuals and organizations alike are unaware of it. They neglect noise. With a few simple remedies, people can reduce both noise and bias, and so make far better decisions. Packed with original ideas, and offering the same kinds of research-based insights that made *Thinking, Fast and Slow* and *Nudge* groundbreaking New York Times bestsellers, *Noise* explains how and why humans are so susceptible to noise in judgment—and what we can do about it.

From Amos Schwartzfarb, serial entrepreneur and veteran Managing Director of Techstars Austin comes the elemental, essential, and effective strategy that will help any startup identify, build, and grow their customers from day 1. Most startups fail because they can't grow revenue early or quickly enough. Startup CEOs will tell you their early missteps can be attributed to not finding their product market fit early enough, or at all. Founders overspend time and money trying to find product-market fit and make false starts, follow the wrong

signals, and struggle to generate enough revenue to scale and raise funding. And all the while they never really knew who their customers were, what product they really needed, and why they needed it. But it doesn't have to be this way, and founders don't need to face it alone. Through expert guidance and experienced mentorship, every startup can avoid these pitfalls. The ultimate guide for building and scaling any startup sales organization, *Sell More Faster* shares the proven systems, methods, and lessons from Managing Director of Techstars Austin and sales expert Amos Schwartzfarb. Hear from founders of multi-million-dollar companies and CEOs who learned firsthand with Techstars, the leading mentorship-driven startup accelerator and venture capital firm that has invested in and mentored thousands of companies, collectively representing billions of dollars in funding and market cap. Schwartzfarb, and the Techstars Worldwide Network of more than 10,000 mentors do one thing better than anyone: help startup entrepreneurs succeed. They know how to sell, how to hire people who know how to sell, and how to use sales to gain venture funding—and now you can, too. *Sell More Faster* delivers the critical strategies and guidance necessary to avoid and manage the hazards all startups face and beat the odds. This valuable resource delivers: A comprehensive playbook to

identify product market direction and product market fit Expert advice on building a diverse sales team and how to identify, recruit, and train the kinds of team members you need Models and best practices for sales funnels, pricing, compensation, and scaling A roadmap to create a repeatable and measurable path to find product-market fit Aggregated knowledge from Techstars leaders and industry experts Sell More Faster is an indispensable guide for entrepreneurs seeking product-market fit, building their sales team, developing a growth strategy, and chasing accelerated, sustained selling success.

Social work is rooted in the values of service, social justice, and strong interpersonal relationships, but as the profession evolves, so must the approach to education. Michael E. Sherr and Johnny M. Jones have created an introductory textbook written for the future of social work. The second edition integrates the knowledge of practice, policy, research, HBSE, and field work with the skills and practice behaviors necessary for students to become fully competent social workers by the time they graduate. Students are introduced to social work through a "Why We Do, What We Do" model that emphasizes how and why social workers commit to their careers. 41 case vignettes, 16 of which are new, engage students and present a clear picture of the profession to help them become

invested in enhancing and restoring the well-being of individuals, groups, and communities. Visit www.oup-arc.com for student and instructor resources.

The Ultimate Sales Playbook for Startups

The book has been designed topic and subtopic-wise, keeping the students' needs in mind. The current edition has certain unique features: This book is strictly as per the latest CBSE syllabus and covers complete matter as per the NCERT book. After every topic, objective type questions and case studies are given based on the latest CBSE Sample Paper (2020). (Hints of their answers are given at the end of each chapter.) At the end of each chapter, 40 objective type questions (20 MCQs + 10 Fill in the blanks + 10 True/False) are given along with answers at the end. Keywords of each topic are given at the end of each topic, to help students to solve case studies. A flow chart of each chapter is given at the end to recap the topics covered in that chapter. Quick revision is given to revise all the topics in short time. At the end of each chapter, questions asked in last 7 years' board exam are given, so that the student may get an idea of what types of questions are expected from this chapter. (Hints of answers of these questions are also given). Case Studies are

framed by using words strictly from the NCERT. A solved sample paper of CBSE 2020 is also given. Guidelines for project are also given. A sample project on Marketing Management is also given. The Subject Matter is presented in simple language, in points, and along with diagrams, so that the student may find it easy to understand.

From the best-selling, award-winning author of *The Buddha in the Attic* and *When the Emperor Was Divine* comes a novel about what happens to a group of obsessed recreational swimmers when a crack appears at the bottom of their local pool--a tour de force of economy, precision, and emotional power. The swimmers are unknown to one another except through their private routines (slow lane, medium lane, fast lane) and the solace each takes in their morning or afternoon laps. But when a crack appears at the bottom of the pool, they are cast out into an unforgiving world without comfort or relief. One of these swimmers is Alice, who is slowly losing her memory. For Alice, the pool was a final stand against the darkness of her encroaching dementia. Without the fellowship of other swimmers and the routine of her daily laps she is plunged into dislocation and chaos, swept into memories of her childhood and the Japanese American incarceration camp in which she spent the war. Alice's estranged daughter, reentering her mother's life too late, witnesses her stark and devastating decline. Written in spellbinding, incantatory prose, *The Swimmers* is a searing, intimate story of mothers and daughters, and the sorrows of implacable loss: the most commanding and unforgettable work yet from a modern master.

Updated Edition of a Best Seller! *Dimensions of Human Behavior: Person and Environment* presents a current and comprehensive examination of human behavior using a multidimensional framework. Author Elizabeth D. Hutchison explores the biological dimension and the social factors that affect human development and behavior, encouraging readers to connect their own personal experiences with social trends in order to recognize the unity of person and environment. Aligned with the 2015 curriculum guidelines set forth by the Council on Social Work Education (CSWE), the substantially updated Sixth Edition includes a greater emphasis on culture and diversity, immigration, neuroscience, and the impact of technology. Twelve new case studies illustrate a balanced breadth and depth of coverage to help readers apply theory and general social work knowledge to unique practice situations. The companion volume, *Dimensions of Human Behavior: The Changing Life Course, Sixth Edition*, builds on the dimensions of person and environment with the dimension of time and demonstrates how they work together to produce patterns in life course journeys. Instructors – save your students 25% when you bundle the two texts (Bundle ISBN 978-1-5443-5612-9) for the most comprehensive coverage available for Human Behavior courses.

Pure Colour is a galaxy of a novel: explosive, celestially bright, huge, and streaked with beauty. It is a contemporary bible, an atlas of feeling, and an absurdly funny guide to the great (and terrible) things about being alive. Sheila Heti is a philosopher of modern experience, and she has reimagined what a book can hold. Here we are, just living in the first draft of Creation, which was made by some great artist, who is now getting ready to tear it apart. In this first draft of the world, a woman named Mira leaves home to study. There, she meets Annie, whose tremendous power opens Mira's chest like a portal—to what, she doesn't know. When Mira is older, her beloved father dies, and his spirit passes into her. Together, they become a leaf on a tree. But photosynthesis gets boring, and being alive is a problem that cannot be solved, even by a leaf. Eventually, Mira must remember the human world she's left behind, including Annie, and choose whether or not to return.

MORAL ISSUES IN BUSINESS, 13E examines the moral dilemmas that are common to today's business climate and gives readers the analytical tools to resolve those issues. Using a combination of true stories, interesting reading selections, and a conversational writing style, this edition prepares readers for the moral quandaries awaiting them in the professional world. Featured topics include: the nature of morality, individual integrity and responsibility, economic justice, pitfalls of capitalism, and

corporations' responsibilities to consumers and the environment. Plus, this edition also discusses situation-specific concepts such as downsizing, whistle blowing, sexual harassment, job discrimination, animal abuse, and drug testing.
