The Basis for Business Decisions

Intermediate Financial Accounting

Financial Accounting, 11th Edition, provides students with a clear understanding of financial accounting by framing accounting processes in the context of real-world business practices. Concepts are presented in an engaging story-telling approach and help answer key questions such as "why, what, and how" financial accounting connects to business success. By building a solid foundation in the mechanics of preparing and analyzing financial statements, performance measurement (Return on Equity), and decision-making with the help of data analytics, Financial Accounting, 11th Edition helps students better prepare to be effective and successful business professionals.

Solutions Manual for Use with Financial Accounting

"Intermediate Financial Accounting Volume 1 by G. Arnold and S. Kyle, developed in collaboration by Athabasca University and Lyryx, is intended for a first course in Intermediate Financial Accounting, and presumes that students have already completed one or two Introductory Financial Accounting courses. The textbook reflects current International Financial Reporting Standards (IFRS), such as IFRS 15 – Revenue from Contracts With Customers. This textbook provides a review of introductory accounting concepts and covers all topics essential to a first level Intermediate Accounting course: the conceptual framework and current landscape of financial reporting; statements of financial position; comprehensive income; cash flows and shareholders' equity; cash and receivables; revenue; inventory; property, plant and equipment; intangible assets; and intercorporate investments. For those requiring preparation for CPA designation, competencies as outlined by the CPA are addressed in this textbook. For a detailed competency map, please contact us at info@lyryx.com. It also focuses on more difficult intermediate accounting topics that match prerequisite requirements for students advancing to a second level Intermediate Financial Accounting course. Topics that are covered in Advanced Financial Accounting courses, such as consolidations and foreign exchange, are not included here."--BCcampus website.
