

"This publication, Safety in Ice Hockey: Fourth Volume, contains a collection of research papers presented at the Fourth Symposium on Ice Hockey held 5-6 May 2002 in Pittsburgh, Pennsylvania, in conjunction with the standards development meetings of Committee F08. This symposium was the fourth in a series: the first being held in 1987 in Montreal, the second in 1992 in Pittsburgh, and the third in 1997 in St. Louis. The objective of the symposium and corresponding publications has been to review the current state-of-the-art and science of ice hockey injury prevention."

Presents linguistic as well as lexical information.

51 worldwide leading experts in the field of erythrocyte research contributed to this first book on transport processes in red blood cells. It explains the latest findings on the basis of well-established principles, in an accessibly structured and carefully organized compilation.
