

## Activity Papers To Print

Tired of the lack of diversity in children's coloring books? Meet Cody & Jay, two adventurous boys who just love to have fun! Follow them throughout over 40 fun-filled coloring and activity pages that inspire creativity, promote self-confidence, and celebrate diversity. Activity pages include fill-in-the-blank exercises (for example, "You can do amazing things if you try"), thought-provoking questions ("If you could fly anywhere in the world, where would you go?"), and fun pictures to complete ("Add a design to Jay's race car!"). A wonderful gift for kids of all races, this book is engaging and is loads of fun! Like this? Check out the version for girls: "The Colorful Adventures of Zoe & Star!"

Because of the COVID-19 pandemic, millions of families worldwide have been thrust into schooling remotely at home. Some parents look forward to sending their kids back to school, but others have found they prefer schooling at home. They've noticed things like, "My child has learned more at home with me in the last 2 months than in the past 2 years at school!" Or, "I kind of like spending so much time with my kids and learning alongside them." Many parents are considering continuing homeschooling beyond the pandemic, and this book is here to help them make an informed decision about their children's education. Homeschooling is not about trying to reproduce a school environment at home. It's not hours and hours sitting at a desk with a parent or in front of an online class. Homeschooling is about creating an environment outside of the school structure that fosters a love of learning, creativity, family closeness, and flexibility. There is no one size that fits all in homeschooling; every family is different, and approaches homeschooling and parenting in their own unique way. In this book, 24 seasoned homeschooling families share their experiences. The authors include both religious and secular homeschooling parents from all walks of life. They represent a variety of homeschooling styles (from self-directed learning/unschooling to more formal approaches), abilities and disabilities, marital statuses, educational achievements, job statuses, races, and socioeconomic levels. The authors have children of all ages, from babies, preschoolers, and kindergarteners, to students in elementary school, middle school, or high school. And some have children who are now adults. They discuss what they love about homeschooling and also the challenges they've overcome. We hope that this book will inspire and encourage those who are considering homeschooling, as well as those who are already on their homeschooling journey. And we hope it will expand your ideas about the concept of education, and what's possible for yourselves and your children.

Enhance your classroom centers with this collection of learning kits that cover a wide range of topics in reading, math, science, and more. Colorful mats, picture cards, foam shapes, and crayons appeal to children, even as they learn and develop essential skills for academic success. Each kit comes with an activity guide with suggestions for use. For use with Grades K-2.

An introduction to the field of applied ontology with examples derived particularly from biomedicine, covering theoretical components, design practices, and practical applications. In the era of "big data," science is increasingly information driven, and the potential for computers to store, manage, and integrate massive amounts of data has given rise to such new disciplinary fields as biomedical informatics. Applied ontology offers a strategy for the organization of scientific information in computer-tractable form, drawing on concepts not only from computer and information science but also from linguistics, logic, and philosophy. This book provides an introduction to the field of applied ontology that is of particular relevance to biomedicine, covering theoretical components of ontologies, best practices for ontology design, and examples of biomedical ontologies in use. After defining an ontology as a representation of the types of entities in a given domain, the book distinguishes between different kinds of ontologies and taxonomies, and shows how applied ontology draws on more traditional ideas from metaphysics. It presents the core features of the Basic Formal Ontology (BFO), now used by over one hundred ontology projects around the world, and offers examples of domain ontologies that utilize BFO. The book also describes Web Ontology Language (OWL), a common framework for Semantic Web technologies. Throughout, the book provides concrete recommendations for the design and construction of domain ontologies.

"If you give a mouse a cookie, he's going to ask for a glass of milk. When you give him the milk, he'll probably ask you for a straw. . . ". So begins this delightful story about an energetic mouse and an accommodating little boy. Full-color illustrations.

**Activity Book for Rosh Hashanah is a fun way to get familiar with the symbols of the holiday. Inside the book you will find 24 single sided activity pages of original handmade art work. It contains different kinds of puzzles, mazes, greeting cards, and bookmarks for coloring. Start to enjoy the spirit of this special holiday. suitable for ages 5-10 years of age. New from the creators of Captain Underpants, it's Dog Man, the crime-biting canine who is part dog, part man, and ALL COP! George and Harold have created a new hero who digs into deception, claws after crooks, and rolls over robbers. When Greg the police dog and his cop companion are injured on the job, a life-saving surgery changes the course of history, and Dog Man is born. With the head of a dog and the body of a human, this heroic hound has a real nose for justice. But can he resist the call of the wild to answer the call of duty? This new series from Dav Pilkey may use conventional spelling but it is still full of all the same humour and fun of George and Harold's previous graphic novels! Unleash your creativity and escape to the world of Pokémon! Color your way through the Pokémon world! This deluxe coloring book is filled with nearly 100 pages of intricate patterns and pictures of your favorite Pokémon pals. Gotta catch 'em all! Perfect for any Pokémon fan.**

No, David!

The Easy Adult Activity Book

The Colorful Adventures of Cody & Jay

This new edition of Friedman's landmark book explains the flattening of the world better than ever- and takes a new measure of the effects of this change on each of us.

The Caldecott Honor-winning classic by bestselling picture-book creator David Shannon! When David Shannon was five years old, he wrote and illustrated his first book. On every page were these words: NO, DAVID! . . . and a picture of David doing things he was not supposed to do. Now David is all grown up. But some things never change. . . . Over fifteen years after its initial publication, NO, DAVID! remains a perennial household favorite, delighting children, parents, and teachers alike. David is a beloved character, whose unabashed good humor, mischievous smile, and laughter-inducing antics underline the love parents have for their children--even when they misbehave.

Illustrations and easy-to-read text celebrate mindfulness and the connectedness of everything on Earth.
