

Adam The Gardener

Adam is an introvert. He lives alone and he's doing everything he can to keep it that way. "I prefer plants to people," he tells his only friend, Donna. "It's just the way I am." An accountant by day, he spends his free time tending his impressive garden and reading grim 19th century novels from the private library in his Victorian house. His cautious, predictable life is governed by a set of sensible rules, just the way he likes it. One winter day, a young man shows up to ask about the apartment for rent above the garage. Adam quickly decides Sam is not a suitable applicant, no matter how polite and attractive he is. Unless, just once, Adam bends his rules. How bad could it be? Adam would never let things get out of control. What follows is a humorous emotional roller coaster involving social awkwardness, gardening, classic literature, flirting, doughnuts, office politics, a southern lady, pickup trucks, ice cream, dish washing, sex, a stern Scotswoman, great meals, homophobia, arson, the police, psychotherapy, a renovation project, and a guy who calls everyone "dude." Did I mention murder? And what about that handsome guy at the office who compliments Adam's neckties? What does he want? Nope . . . Adam would never lose control of his life! With a full cast of well-developed characters, *The Gardener* will take you on a journey of self-discovery that explores the many variations of love, relationships, commitment and family.

A comprehensive and beautifully illustrated guide, chock full of inside information.

'I have quite fallen for Adam -- his stylish waistcoat, encyclopaedic knowledge and use for everything -- and constantly find myself thinking "What Would Adam Do?" as I go about my daily gardening business.' Alys Fowler In the 1940s, Adam the Gardener was a national treasure. Each week in the Sunday Express he advised gardeners exactly what to plant and how - from carrots in the fourth week of May (but 'do this after sunset, when there is less chance of trouble from the carrot fly') to lily of the valley in the fourth week of November. Accompanied by wonderful illustrations, Adam's charm and expertise won over thousands. Here, the weekly world of Adam the Gardener has been brought back to life for today's gardener, who will be just as readily captivated by his quiet reliability and peerless knowledge. As well as techniques - pruning and potting, forcing and grafting - and planting instructions for an impressive range of flowers, fruits and vegetables, also learn how to plan a new garden, what gadgets you will need (including an earwig trap) and all about colour harmony in the garden. This is a period gem that will delight and inform enthusiasts of all kinds.

The Creative Gardener

A Pictorial Guide to Each Week's Work, with a Full Gardening Calendar and Plans for New Gardens

Clever ideas and imaginative solutions from BBC Gardeners' World host Adam Frost to help you transform your garden, element by element, into a personalized dream space. Adam shows how small plantings, design flourishes, hands-on creative projects, and simple hard landscaping projects can help transform your garden. Taking an artisan's approach to his own garden, Adam emphasizes how you too can find inspiration and turn it into a garden feature, how to personalize your ideas - using what you already have - and upcycling. There's something to suit everyone's taste, space, and budget. Each project starts with Adam's inspiration, and then walks the reader through how he created the end product with clear step-by-step photography and instructions. Adam shows that inspiration doesn't have to come from other gardens. In fact, for him, it rarely

does. It could be a natural feature such as a heap of wood, something you already own, or a salvage yard item you can upcycle. With a little work and a dash of imagination, you can create something truly personal in the garden and create the atmosphere you want, while developing your skills and enjoying the creative process. Well known for his straightforward, clear presentation, and his award-winning design ideas, Adam combines these skills to offer realistic, achievable, impactful suggestions for transforming your space. Element by element, a weekend at a time, he can help you create the garden you've always wanted.

In this practical and personal book, *Gardeners' World* presenter Adam Frost takes you through his process for getting the most out of a garden space whatever its size, whether it's a window box, a terrace with a few pots or a bigger space with dedicated veg plots and borders. Enjoying your garden is about more than just what you grow; it's also about why you grow it. As well as spending time outdoors, the meaning of a garden lies in what you bring inside, from vegetables and herbs to make a family meal to flowers and seedheads to decorate the house. Adam explores how his own garden has allowed him to enjoy the simple pleasures in life and create precious memories - whether it's coming down in the morning and seeing that single flower in a vase or teaching your kids how to make the runner bean chutney that reminds you of your nan. Adam's inspiring book will guide you through all you need to make your garden thrive, and to use it to develop your own traditions and meaningful moments.

Even great gardeners like Monty Don are always learning and always experimenting. This extensively revised new edition of his Complete Gardener, first published in 2003, brings you right up-to-date on how Monty gardens today - and his recommendations for you. The most comprehensive, practical, and highly illustrated ebook Monty has ever written, it covers what he believes are the most important aspects of gardening. Organic techniques have always been at the core of his practice, but this new edition picks up on another key principle: the need to provide habitats in your garden for local wildlife. Over half of the photographs in this new edition will be new, taken over a year in his Long Meadow garden, and he is going through the text with a fine-tooth comb to ensure everything he says reflects his latest approach.
