Shirley Jackson meets *The Shining* in this richly atmospheric and thrillingly tense novel from the acclaimed author of the "deliciously creepy" *Baby Teeth* (New York Post). One mother's love may be all that stands between her family, an enigmatic presence—and madness. After years of city life, Orla and Shaw Bennett are ready for the quiet of New York's Adirondack mountains—or at least, they think they are. Settling into the perfect farmhouse with their two children, they are both charmed and unsettled by the expanse of their land, the privacy of their individual bedrooms, and the isolation of life a mile from any neighbor. But none of the Bennetts could expect what lies waiting in the woods, where secrets run dark and deep. When something begins to call to the family—from under the earth, beneath the trees, and within their minds—Orla realizes she might be the only one who can save them . . . if she can find out what this force wants before it's too late. With an ending inescapable and deeply satisfying, *Wonderland* brilliantly blends horror and suspense to probe the boundaries of family, loyalty, love, and the natural world.

Drawing on unprecedented access to the Chernobyl Exclusion Zone—including insights gained while working as a tour guide and during an illegal "stalker" hike—Darmon Richter creates an entirely new portrait of Chernobyl's forgotten ghost towns, monuments and more Since the first atomic bomb was dropped, humankind has been haunted by the idea of nuclear apocalypse. That nightmare almost became reality in 1986, when an accident at the USSR's Chernobyl Nuclear Power Plant triggered the world's worst radiological crisis. The events of that night are well documented—but history didn't stop there. Chernobyl, as a place, remains very much alive today. More than a quarter of a million tourists visited the Zone over the last few years, while millions more watched the acclaimed 2019 HBO mini-series *Chernobyl*. In *Chernobyl: A Stalkers' Guide*, researcher Darmon Richter journeys into the contemporary Exclusion Zone, venturing deeper than any previously published account. While thousands of foreign visitors congregate around a handful of curated sites, beyond the tourist hotspots lies a wild and mysterious land the size of a small country. In the forests of Chernobyl, historic village settlements and Soviet-era utopianism have lain abandoned since the time of the disaster—overshadowed by vast, unearthly megastructures designed to win the Cold War. Richter combines photographs of discoveries made during his numerous visits to the Zone with the voices of those who witnessed history—engineers, scientists, police and evacuees. He explores evacuated regions in both Ukraine and Belarus, finding forgotten ghost towns and Soviet monuments lost deep in irradiated forests, gains exclusive access inside the most secure areas of the power plant itself, and joins the "stalkers" of Chernobyl as he sets out on a high-stakes illegal hike to the heart of the Exclusion Zone.

'Janey is like a whirlwind of selflessness. A beautiful spirit in a beautiful country doing a beautiful thing. I encourage my children to be more 'Janey'. With more positive spirits like Janey, the world would be a better place.' - Ben Fogle In 2014 and in her mid-twenties, Janey Lowes had been a vet for just two years when she left her home in County Durham and went travelling. Visiting Sri Lanka, she was horrified to see the state of so many of the island's dogs, in particular the three million strays. Over 5,000 miles from home, Janey decided there and then that she was going to move to the island indefinitely and do everything within her power to help them. She raised £ 10,000 to get started, setting up a charity called WECare Worldwide, and began work. Frightened, determined and excited all at the same time, she found a local who was willing to work with her and began scouring the streets for dogs in need. Some she patched up as best she could at the roadside, others she brought back and treated in a make-shift surgery she had cobbled together in her new home. With very little equipment, she and her small team came up with new and ingenious ways to treat the animals. In this highly inspiring and heartfelt book full of challenges and adventure, Janey introduces us to her world and the tireless work she carries out. As she says, 'I feel as though all these dogs are my dogs and I have a responsibility to them.' In it, we meet many of the colourful characters who have come to offer help, along with innumerable street dogs who have suffered all sorts of trauma and injury, only to be scooped up by Janey and her team and saved.
